The law administered is 'justice, equity and good conscience' in all cases where there is no special enactment. Procedure is governed by the Civil Justice Ordinance.

Justice for the Moslem population has always been administered by the Islamic law courts, which form the Sharia Divisions of the Court of Appeal, High Courts and Kadis Courts; President of the Sharia Division is the Grand Kadi. In Dec. 1990 the government announced that Sharia would be applied in the non-Moslem southern parts of the country as well.

Criminal Justice is administered by the courts constituted under the Code of Criminal Procedure, namely major courts, minor courts and magistrates' courts. Serious crimes are tried by major courts, which are composed of a President and 2 members and have the power to pass the death sentence. Major Courts are, as a

rule, presided over by a Judge of the High Court appointed to a Provincial Circuit or a Province Judge. There is a right of appeal to the Chief Justice against any decision or order of a Major Court, and all its findings and sentences are subject to confirmation by him.

Lesser crimes are tried by Minor Courts consisting of 3 Magistrates and presided over by a Second Class Magistrate, and by Magistrates' Courts.

The manner of election to the *Riksdag* is proportional. The country is divided into 29 constituencies. In these constituencies 310 members are elected. The remaining 39 seats constitute a nation-wide pool intended to give absolute proportionality to parties that receive at least 4% of the votes. A party receiving less than 4% of the votes in the country is, however, entitled to participate in the distribution of seats in a constituency, if it has obtained at least 12% of the votes cast there.

There is a 3-tier hierarchy of courts: The Supreme Court; 6 intermediate courts of appeal and 97 district courts. Of the district courts 27 also serve as real estate courts and 6 as water rights courts.

District courts are courts of first instance and deal with both civil and criminal cases. Petty cases are tried by 1 judge. The cases in courts of appeal are generally tried by 4 or 5 judges.

Those with low incomes can receive free legal aid out of public funds. In criminal cases a suspected person has the right to a defence counsel, paid out of public funds.

German is spoken by the majority of inhabitants in 19 of the 26 cantons, French in Fribourg, Vaud, Valais, Neuchâtel, Jura and Geneva, and Italian in Ticino. At the 1990 census 63.6% of the population gave German as their mother tongue, 19.2% French, 7.6% Italian, 0.6% Romansch and 8.9% other languages.

<sup>1</sup> The Latin 'Confoederatio Helvetica' is also in use.

**CLIMATE.** The climate is largely dictated by relief and altitude and includes continental and mountain types. Summers are generally warm, with quite considerable rainfall; winters are fine, with clear, cold air. Berne. Jan. 32°F (0°C), July, 65°F (18.5°C). Annual rainfall 39.4" (986 mm).

**CONSTITUTION AND GOVERNMENT.** The Constitution dates from 29 May 1879. Switzerland is a republic. The highest authority is vested in the electorate, *i.e.*, all Swiss citizens over 18. This electorate, besides electing its representatives to the Parliament has the voting power on amendments to, or on the revision of, the Constitution. It also takes decisions on laws and international treaties if requested by 50,000 voters or 8 cantons (facultative referendum), and it has the right of initiating constitutional amendments, the support required for such demands being 100,000 voters (popular initiative).

The Federal Government is supreme in matters of peace, war and treaties; it regulates the army, the railway, telecommunication systems, the coining of money, the issue and repayment of bank-notes and weights and measures. It also legislates on matters of copyright, bankruptcy, patents, sanitary policy in dangerous epidemics, and it may create and subsidize, besides the Polytechnic School at Zürich and at Lausanne, 2 federal universities and other educational institutions. There has also been entrusted to it the authority to decide concerning public works for the whole or great part of Switzerland, such as those relating to rivers, forests and the construction of national highways and railways. By referendum of 13 Nov. 1898 it is also the authority in the entire spheres of common law. In 1957 the Federation was empowered to legislate on atomic energy matters and in 1961 on the construction of pipelines of petroleum and gas.

The legislative authority is vested in a parliament of 2 chambers: the Council of States (*Ständerat/Conseil des États*) and the National Council (*Nationalrat/Conseil National*). The Council of States is composed of 46 members, chosen and paid by the 23 cantons of the Confederation, 2 for each canton. The mode of their election and the term of membership depend on the canton. 3 of the cantons are politically divided—Basel into Town and Country, Appenzell into Outer-Rhoden and Inner-Rhoden, and Unterwalden into Obwalden and Nidwalden. Each of these 'half-cantons' sends 1 member to the State Council.

The National Council has 200 members directly elected for 4 years, in proportion to the population of the cantons, with the proviso that each canton or half-canton is represented by at least 1 member. The members are paid from federal funds. The parliament sits for 16 three-day sessions annually.

The 200 members are distributed among the cantons as follows:

Zurich	35	Schwyz	3
Berne	29	Unterwalden—Upper and Lower	2
Lucerne	9	Glarus (Glaris)	1
Uri	1	Zug	2

Fribourg (Freiburg)	6	Thurgau (Thurgovie)	6
Solothurn (Soleure)	7	Ticino (Tessin)	8
Basel (Bâle)—town and country	13	Vaud (Waadt)	17
Schaffhausen (Schaffhouse)	2	Valais (Wallis)	7
Appenzel—Outer- and Inner-Rhoden	3	Neuchâtel (Neuenburg)	5
St Gallen (St Gall)	12	Geneva	11
Graubünden (Grisons)	5	Jura	2
Aargau (Argovie)	14		

A general election takes place by ballot every 4 years. Every citizen of the republic who has entered on his 18th year is entitled to a vote, and any voter, not a clergyman, may be elected a deputy. Laws passed by both chambers may be submitted to direct popular vote, when 50,000 citizens or 8 cantons demand it; the vote can be only 'Yes' or 'No'. This principle, called the *referendum*, is frequently acted on.

On 22 Oct. 1995 elections were held for both chambers of the federal parliament; turnout was 42%. In the Council of States, the Radical Democratic Party (RDP) gained 17 seats (18 in 1991); the Christian Democratic Party (CDP), 16 (16); the Swiss Socialist Party (SSP), 5 (nil); the Swiss People's Party or Democratic Centre Union (SPPDCU), 5 (4); others, 3. In the National Council, SSP gained 54 seats (41 in 1991); RDP, 45 (44); CDP, 34 (35); SPPDCU, 29 (25); others, 38.

The chief executive authority is deputed to the *Bundesrat*, or Federal Council, consisting of 7 members, elected from 7 different cantons for 4 years by the *United Federal Assembly*, i.e., joint sessions of both chambers. The members of this council must not hold any other office in the Confederation or cantons, nor engage in any calling or business. In the Federal Parliament legislation may be introduced either by a member, or by either chamber, or by the Federal Council (but not by the people). Every citizen who has a vote for the National Council is eligible to become a member of the executive.

The *President* of the Federal Council (called President of the Confederation) and the Vice-President are the first magistrates of the Confederation. Both are elected by the United Federal Assembly for 1 calendar year from among the Federal Councillors, and are not immediately re-eligible to the same offices. The Vice-President, however, may be, and usually is, elected to succeed the outgoing President.

*President of the Confederation* (1997): Arnold Koller (CDP).

The 7 members of the Federal Council act as ministers, or chiefs of the 7 administrative departments of the republic. The city of Berne is the seat of the Federal Council and the central administrative authorities.

In March 1997 the Federal Council comprised:

*Foreign Affairs*: Flavio Cotti (CDP). *Interior*: Ruth Dreifuss (SSP). *Justice and Police*: Arnold Koller (CDP). *Military*: Adolf Ogi (SPPDCU). *Finance*: Kaspar Villiger (RDP). *Public Economy*: Jean-Pascal Delamuraz (RDP). *Transport, Communications and Energy*: Moritz Leuenberger (SSP).

*National flag*: Red with a white couped cross.

*National anthem*: 'Trittst im Morgenrot daher'/'Sur nos monts quand le soleil'/'Quando il ciel' di porpora' ('Step into the rosy dawn'); German words by Leonard Widmer, French by C. Chatelanat, Italian by C. Valsangiacomo, tune by Alberik Zwyssig.

*Cantonal and Local Government*. Each of the 26 cantons and demi-cantons is sovereign, so far as its independence and legislative powers are not restricted by the federal constitution; all cantonal governments, though different in organization (membership varies from 5 to 11, and terms of office from 1 to 5 years), are based on the principle of sovereignty of the people.

In 21 cantons a body chosen by universal suffrage, usually called the *Great Council*, or *Canton Council*, exercises the functions of a parliament. In all the cantonal constitutions except those of the 5 cantons which have a *Landsgemeinde*, the referendum has a place. By this principle, where it is most fully developed, as in Zurich, all laws and concordats, or agreements with other cantons, and the chief matters of finance, as well as all revisions of the Constitution, must be submitted to the popular vote. In the 5 cantons of Appenzell, Glarus and Unterwalden the people

exercise their powers direct in the *Landsgemeinde*, i.e., the assembly in the open air of all citizens of full age. In all the cantons the *popular initiative* for constitutional affairs, as well as for legislation, has been introduced, except in Lucerne, where the *initiative* exists only for constitutional affairs. In most cantons there are districts (*Amtsbezirke*) consisting of a number of communes grouped together, each district having a Prefect (*Regierungsstatthalter*) representing the cantonal government. In the larger communes, for local affairs, there is an Assembly (legislative) and a Council (executive) with a president, mayor or syndic, and not less than 4 other members. In the smaller communes there is a council only, with its officials.

**DEFENCE.** There are fortifications in all entrances to the Alps and on the important passes crossing the Alps and the Jura. Large-scale destructions of bridges, tunnels and defiles are prepared for an emergency.

**Army.** There are about 3,400 regular soldiers, but some 360,000 conscripts undergo training annually in the following phases: At 20 years of age, 15 weeks recruit training; between 21 and 32, reservist refresher training (*Auszug*); between 33 and 42, 39 days training for the Militia (*Landwehr*). Proposals ('Army 95') implemented in 1995 envisaged a more flexible army to protect the population against military or natural catastrophes, combat terrorism and take part in international peacekeeping. The conscript sign-off age was reduced to 42 years, the number of conscripts reduced to 360,000, and the number of regular soldiers (including women) increased.

The Army is divided into 3 field corps each of 1 armoured and 2 infantry divisions and support groups, a corps with 3 mountain divisions, and independent redoubt-, fortress- and territorial-brigades.

The administration of the Swiss Army is partly in the hands of the Cantonal authorities, who can promote officers up to the rank of captain. But the Federal Government is concerned with all general questions and makes all the higher appointments.

In peace-time the Army has no general; in time of war the Federal Assembly in joint session of both Houses appoints a general.

Equipment includes about 370 Leopard, 186 Pz-68 and 186 Pz-68/88 main battle tanks.

**Air Corps.** The Air Corps is part of the Army. It has 3 flying regiments. The fighter squadrons are equipped with Swiss-built F-5E Tiger IIs (6 squadrons), Mirage IIIS supersonic interceptor/ground-attack (2 squadrons), Mirage IIIRS fighter/reconnaissance (3 squadrons), and Bloodhound surface-to-air missile batteries are operational.

Training aircraft are Pilatus PC-7 Turbo-Trainers and Hawks; there are also communications and transport aircraft and helicopters. Personnel (1996), 32,600 on mobilization, with 150 combat aircraft.

In 1921 after the Communist revolution it became an autonomous republic, but was transformed into a province (*oblast*) of the Russian Federation in 1945 after the deportation of the Tatar population in 1944 for alleged collaboration with the German invaders in the Second World War. It was transferred to the Ukraine in 1954 and became an autonomous republic in 1991. About half the surviving Tatar population of 0.4m. had returned from exile by mid-1992.

At elections held in 2 rounds on 16 and 30 Jan. 1994 Yuri Meshkov was elected *President* for a 4-year term by 38.5% and 72% of votes cast against 5 opponents. The electorate was 1.8m. There is a 94-member local parliament. Parliamentary elections were held on 27 March 1994. The Russia Bloc gained 54 seats, Kurultai (Tatars) 14, ind 21.

On 2 Nov. 1995 parliament adopted a new constitution which defines the Crimea as 'an autonomous republic forming an integral part of Ukraine'. The status of 'autonomous republic' was confirmed by the 1996 Ukrainian Constitution, which provides for Crimea to have its own constitution as approved by its parliament. The Prime Minister is appointed by the Crimean parliament with the approval of the Ukrainian parliament.

'Great Britain' is the geographical name of that island of the British Isles which comprises England, Scotland and Wales (so called to distinguish it from 'Little Britain' or Brittany). Wales and Scotland were united with England by Acts of Union of 1536-42 and 1707 respectively. By the Act of Union, 1801, Great Britain and Ireland formed a legislative union as the United Kingdom of Great Britain and Ireland. Since the separation of Great Britain and Ireland in 1921 Northern Ireland remained within the Union which is now the United Kingdom of Great Britain and Northern Ireland. The United Kingdom (UK) does not

include the Channel Islands or the Isle of Man which are direct dependencies of the Crown with their own legislative and taxation systems. England and Wales form an administrative entity, with some special arrangements for Wales.

11 'Standard Regions' (also classified as 'level 1 regions' for EU purposes) are identified in the UK as economic planning regions. They have no administrative significance. They are: Northern Ireland, Scotland, Wales, and 8 regions of England. Estimated population of the regions (in 1,000), 1995, East Anglia, 2,123; East Midlands, 4,124; West Midlands, 5,306; North, 3,095; North West, 6,410; South East, 17,989 (including Greater London, 7,007); South West, 4,827; Yorkshire and Humberside, 5,029.

England is divided (apart from Greater London) into 35 counties and 50 unitary authorities with a single administrative tier, of which 36 are metropolitan boroughs and 27 unitary authorities established since 1995. The 35 counties are subdivided into 274 districts and the Isles of Scilly. Wales is divided into 22 unitary authorities (counties and county boroughs). Greater London comprises 32 boroughs and the City of London.

**British Citizenship.** Under the British Nationality Act 1981 there are 3 main forms of citizenship: Citizenship for persons closely connected with the UK; British Dependent Territories citizenship; British Overseas citizenship. British citizenship is acquired automatically at birth by a child born in the UK if his or her mother or father is a British citizen or is settled in the UK. A child born abroad to a British citizen is a British citizen by descent. British citizenship may be acquired by registration for stateless persons, and for children not automatically acquiring such citizenship or born abroad to parents who are citizens by descent; and, for other adults, by naturalization. Requirements for the latter include 5 years' residence (3 years for applicants married to a British citizen). The Hong Kong (British Nationality) Order 1986 created the status of British National (Overseas) for citizens connected with Hong Kong before 1997, and the British Nationality (Hong Kong) Act 1990 made provision for up to 50,000 selected persons to register as British citizens.

In 1995, 40,500 persons were granted citizenship and a further 26,000 under the Hong Kong Act.

**Emigration and Immigration.** Immigration is mainly governed by the Immigration Act 1970 and Immigration Rules made under it. British and Commonwealth citizens with the right of abode before 1983 are not subject to immigration control, nor are citizens of European Economic Area countries. Other persons seeking to work or settle in the UK must obtain a visa or entry clearance.

Migration statistics are derived from the government's International Passenger Survey, and exclude the Republic of Ireland.

**Asylum.** In 1995 there were 43,965 applications for asylum, amounting to some 55,000 persons with dependants (in 1984 there were 2,905 applications). While respecting its obligations to political refugees under the UN Convention and Protocol relating to the status of Refugees, the Government has powers under the Asylum and Immigration Act 1996 to weed out applicants seeking entry for non-political reasons and to designate certain countries as not giving risk of persecution. 6% of applicants were accepted in 1995.

**CLIMATE.** The climate is cool temperate oceanic, with mild conditions and rainfall evenly distributed over the year, though the weather is very changeable because of cyclonic influences. In general, temperatures are higher in the west and lower in the east in winter and rather the reverse in summer. Rainfall amounts are greatest in the west, where most of the high ground occurs.

For the Royal Style and Titles of Queen Elizabeth see Commonwealth section. By letters patent of 30 Nov. 1917 the titles of Royal Highness and Prince or Princess are restricted to the Sovereign's children, the children of the Sovereign's sons and the eldest living son of the eldest son of the Prince of Wales.

Provision is made for the support of the royal household, after the surrender of hereditary revenues, by the settlement of the Civil List soon after the beginning of each reign. (For historical details, see *THE STATESMAN'S YEAR-BOOK*, 1908, p. 5, and 1935 p. 4). The Civil List Act of 1 Jan. 1972 provided for a decennial, and the Civil List (Increase of Financial Provision) Order 1975 for an annual review of the List, but in July 1990 it was again fixed for one decade.

The Civil List of 1991–2000 provided for an annuity of £7,900,000 to the Queen; £360,000 to Prince Philip; £640,500 to Queen Elizabeth (the Queen Mother); £230,500 to the Princess Royal; £220,000 to the Princess Margaret; £250,000 to the Duke of York; £100,000 to Prince Edward; £90,000 to Princess Alice. However, since April 1993 only the Queen, Prince Philip and the Queen Mother have received payments from the Civil List. The income of the Prince of Wales derives from the Duchy of Cornwall. The Civil List was exempted from taxation in 1910. The Queen has paid income tax on her private income since April 1993.

**CONSTITUTION AND GOVERNMENT.** The supreme legislative power is vested in Parliament, which consists of the Crown, the House of Lords and the House of Commons and dates in its present form from the middle of the 14th century. A Bill which is passed by both Houses and receives Royal Assent becomes an Act of Parliament and part of statute law.

Parliament is summoned, and a General Election is called, by the sovereign on the advice of the Prime Minister. A Parliament may last up to 5 years, normally divided into annual sessions. A session is ended by prorogation, and all Public Bills which have not been passed by both Houses then lapse. A Parliament ends by dissolution, either by will of the sovereign or by lapse of the 5-year period.

Under the Parliament Acts 1911 and 1949, all Money Bills (so certified by the Speaker of the House of Commons), if not passed by the Lords without amendment, may become law without their concurrence within 1 month of introduction in the Lords. Public Bills, other than Money Bills or a Bill extending the maximum duration of Parliament, if passed by the Commons in 2 successive sessions and rejected each time by the Lords, may become law without being passed by the Lords provided that 1 year has elapsed between Commons second reading in the first session and third reading in the second session, and that the Bill reaches the Lords at least 1 month before the end of the second session. In 1991 the War Crimes Act was passed in this way. This was the first time since 1949, because the Lords today respect the privileges of the elected House, especially as regards taxes and public spending, and act mainly as a revising chamber.

Peerages are created by the sovereign, with no limits on their number. There are 4 types of Lord: 1) *Lords Spiritual*, comprising 2 archbishops and 24 diocesan bishops of the Church of England, who leave the House when they retire; 2) *hereditary peers* – as at 17 July 1996 there were 756 peers (16 of whom were women) who had succeeded to a peerage on the death of a relative and 11 who had them-

selves been granted a hereditary peerage; 3) *life peers* – there were 378 lords (65 of whom were women) who had been given a peerage for their own lifetime only under the Life Peerages Act 1958; 4) *Lords of Appeal* (both active and retired) – there were 24 peers, granted a peerage for life under the Appellate Jurisdiction Act 1876, in order to enable them to hear appeal cases in the House of Lords. The full House thus consists of 1,195 lords, of whom 81 are women. The average attendance at each sitting of the House is approximately 380.

The House of Commons consists of members (of both sexes) representing constituencies determined by the Boundary Commissions. Persons under 21 years of age, Clergy of the Church of England and of the Scottish Episcopal Church, Ministers of the Church of Scotland, Roman Catholic clergymen, civil servants, members of the regular armed forces, policemen, most judicial officers and other office-holders named in the House of Commons (Disqualification) Act are disqualified from sitting in the House of Commons. No peer eligible to sit in the House of Lords can be elected to the House of Commons unless he has disclaimed his title, but Irish peers and holders of courtesy titles, who are not members of the House of Lords, are eligible.

The Representation of the People Act 1948, abolished the business premises and University franchises, and the only persons entitled to vote at Parliamentary elections are those registered as residents or as service voters. No person may vote in more than one constituency at a general election. Persons may apply on certain grounds to vote by post or by proxy. Elections are held on the first-past-the-post system, in which the candidate who receives the most votes is elected.

All persons over 18 years old and not subject to any legal incapacity to vote and who are either British subjects or citizens of Ireland are entitled to be included in the register of electors for the constituency containing the address at which they were residing on the qualifying date for the register and are entitled to vote at elections held during the period for which the register remains in force.

Members of the armed forces, Crown servants employed abroad, and the wives accompanying their husbands, are entitled, if otherwise qualified, to be registered as 'service voters' provided they make a 'service declaration'. To be effective for a particular register, the declaration must be made on or before the qualifying date for that register. In certain circumstances, British subjects living abroad may also vote.

The Parliamentary Constituencies Act 1986, as amended by the Boundary Commissions Act 1992, provided for the setting up of Boundary Commissions for England, Wales, Scotland and Northern Ireland. The Commissions' last reports were made in 1995, and thereafter reports are due at intervals of not less than 8 and not more than 12 years, and to submit reports from time to time with respect to the area comprised in any particular constituency or constituencies where some change appears necessary. Any changes giving effect to reports of the Commissions are to be made by Orders in Council laid before Parliament for approval by resolution of each House. The Parliamentary electorate of the United Kingdom and Northern Ireland in the register in 1994 numbered 43,786,734, of whom 36,455,151 were in England, 2,222,091 in Wales, 3,947,157 in Scotland and 1,162,335 in Northern Ireland. The registered electorate for the United Kingdom was 44,203,694 in May 1997. In 1991 it was officially estimated that 7.1% of eligible voters failed to register on the electoral roll.

At the general election held in 1997, 659 members were returned, 529 from England, 72 from Scotland, 40 from Wales and 18 from Northern Ireland. Every constituency returns a single member.

In Aug. 1911 provision was first made for the payment of a salary of £400 per annum to members of the Commons, other than those already in receipt of salaries as officers of the House, as Ministers or as officers of Her Majesty's household. For current salaries *see below*. Members of the House of Lords are unsalaried but may recover expenses incurred in attending sittings of the House within maxima for each day's attendance of £33.50 for day subsistence, £75.50 for night subsistence and £32.50 for secretarial and research assistance and office expenses. Additionally, Members of the House who are disabled may recover the extra cost of attending the House incurred by reason of their disablement. In connection with attendance at the

House and parliamentary duties within the UK Lords may also recover the cost of travelling to and from home.

The executive government is vested nominally in the Crown, but practically in a committee of Ministers, called the Cabinet, which is dependent on the support of a majority in the House of Commons. The head of the Cabinet is the *Prime Minister*, a position first constitutionally recognized in 1905. The Prime Minister's colleagues in the Cabinet are appointed on his recommendation.

It consists of all Cabinet members, the Archbishops of Canterbury and York, the Speaker of the House of Commons and senior British and Commonwealth statesmen. There are a number of advisory Privy Council committees. The *Judicial Committee* is the final court of appeal from courts of the UK dependencies, the Channel Islands and the Isle of Man, and some Commonwealth countries.

**National flag:** The combined crosses of St George (red), St Andrew (white) and St Patrick (red), the red fimbriated in white, all on a blue ground.

**National anthem:** God Save the Queen (King) (words and tune anonymous; earliest known printed source, 1744).

**European Parliament:** The United Kingdom has 87 representatives. At the June 1994 elections turn-out was 36.4%. The Labour Party won 62 seats with 44.2% of votes cast (group in European Parliament: European Socialist Party); the Conservative Party, 18 with 27.8% (Popular European Party); the Liberal Democratic Party, 2 with 16.7% (Liberal, Democratic and Reformist Group); the Scottish National Party, 2 with 3.2% (European Radical Alliance). Voting for these parties was on the first-past-the-post system. Voting in Northern Ireland was by the single transferable vote system: the Democratic Ulster Unionist Party, the Social Democrat and Labour Party (European Socialist Party) and the Official Ulster Union Party (Popular European Party) gained 1 seat each.

**Local Administration:** This is carried out by 4 different types of bodies, namely: (i) local branches of some central ministries, such as the Departments of Health and Social Security; (ii) local sub-managements of nationalized industries; (iii) specialist authorities such as the National Rivers Authority; and (iv) the system of local government described below. The phrase 'local government' has come to mean that part of the local administration conducted by elected councils. There are separate systems for England, Wales and Scotland. For local government finance see Budget: *Local Taxation*, below.

The Local Government Act 1992 established a Local Government Commission, which completed its report in 1996 on whether the two-tier local government structure should be replaced by unitary authorities in some areas. Following its recommendations, 27 new unitary councils had been established by April 1997. The Commission is currently reviewing electoral arrangements.

**Local Government:** Local authorities have statutory powers and claims on public funds. Relations with central government are maintained through the Department of the Environment in England, and through the Welsh and Scottish Offices. In England the Home Office and the Department of Education and Employment are also concerned with some local government functions. (These are performed by departments within the Welsh and Scottish Offices). Ministers have powers of intervention to protect individuals' rights and safeguard public health, and the Government has power to cap (i.e. limit) local authority budgets.

Local government is conducted by elected councils at different levels of administration. England, Wales and Scotland have different systems. In England, changes introduced by the Local Government Commission set up in 1992 included the introduction of single-tier unitary authorities alongside the previous two-tier county and district administrations. By 1997 there were (*two-tier*) 35 non-metropolitan county councils under which were 274 district councils and the Scilly Isles and (*single-tier*) 27 unitary authorities, 36 metropolitan district councils and 32 Greater London

borough councils. In Wales, the Local Government (Wales) Act 1994 set up 22 unitary authorities (9 counties and 13 county boroughs), and in Scotland the Local Government (Scotland) Act 1994 set up 29 unitary authorities alongside the existing 3 Island Authority Areas. Greater London and the 6 metropolitan counties no longer have councils, the former county functions having devolved to the boroughs and districts, but some services (e.g. fire services) are administered by joint authorities nominated by the latter. In England there are also some 10,000 parishes, of which about 800 have elected councils. About 300 are former small boroughs or urban districts which became successor parishes. Parish councils manage local facilities and may act as agents for district council functions. In Wales, similar functions are discharged by 730 community councils. In Scotland there are about 1,000 community councils, but unlike their English and Welsh counterparts, they do not have statutory powers.

Resident citizens of the UK, Ireland, a Commonwealth country or an EU country may (at age 18) vote and (at age 21) stand for election. In England, councils are elected for 4 years, except that in the metropolitan and one-third of the other districts, one-third of councillors are elected in each of the 3 years that no county council election is held. Counties are divided into electoral divisions and districts into wards. In Wales, elections for the full councils are held every 4 years, and in Scotland every 3 years. The chair of the council is one of the councillors elected by the rest. In boroughs and cities his or her title is Mayor. Mayors of cities may have the title of Lord Mayor conferred on them. 51 towns in England and Wales and 4 in Scotland have the status of city. This status is granted by the personal command of the monarch and confers no special privileges or powers. In Scotland, the chair of city councils is deemed Lord Provost, and is elsewhere known as Convenor or Provost. In Wales, the chair is called Chairman in counties and Mayor in county boroughs. Any parish or community council can by simple resolution adopt the style 'town council' and the status of town for the parish or community. Basic and other allowances are payable to councillors (except Scottish community councillors).

*Functions.* Legislation in the 1980s initiated a trend for local authorities to arrange for the provision of services by, or in collaboration with, commercial or voluntary bodies rather than provide them directly. Savings in expenditure are encouraged by compulsory competitive tendering. In England, county councils are responsible for strategic planning, transport planning, non-trunk roads and regulation of traffic, personal social services, consumer protection, disposal of waste, the fire and library services and partially for education. District councils are responsible for environmental health, housing, local planning applications (in the first instance) and refuse collection. Unitary authorities combine the functions of both levels.

*Finance.* Revenue is derived from the Council Tax, which supports about one-fifth of current expenditure, the remainder being funded by central government grants and by the redistribution of revenue from the national non-domestic rate (property tax). Capital expenditure is financed by borrowing within government-set limits and sales of real estate. For details *see* Budget: *Local Taxation* below.

*Election Results.* Elections for one third of the seats on the councils of the 32 London boroughs, 36 metropolitan districts and 118 non-metropolitan districts were held on 5 May 1994. The Labour Party gained control of 93 councils; the Liberal Democratic Party, 19; the Conservative Party, 15; ind, 5. There was no overall majority in 54 councils.

Elections were held outside the metropolitan areas ('the shires') on 4 May 1995. Labour made a net gain of 155 councils, the Liberal Democrats 45 and the Conservatives lost 51.

At the elections of 2 May 1996 for 32 metropolitan and 114 non-metropolitan and unitary councils, Labour took control of 84 councils and gained 431 seats, the Liberal Democrats took control of 23 councils and gained 142 seats, the Conservatives took control of 3 councils and lost 534 seats, and independents took control of 3 councils and lost 29 seats. In 33 councils no party gained an absolute majority.

On 6 April 1995 elections were held for the 29 newly-created unitary councils.

1,161 seats were contested. Labour won 614 seats with 47% of votes cast, and gained control of 20 of the councils; the Scottish National Party won 181 seats with 26% and gained 3 councils; the Liberal Democrats won 123 seats with 10%; the Conservative Party won 81 seats with 11%. Independents gained control of 3 councils, and 3 councils had no overall control.

The next elections in Wales and Scotland are scheduled for 1999.

**DEFENCE.** The Defence Council was established on 1 April 1964 under the chairmanship of the Secretary of State for Defence, who is responsible to the Sovereign and Parliament for the defence of the realm. Vested in the Defence Council are the functions of commanding and administering the Armed Forces. The Secretary of State heads the Department of Defence. There are 3 subordinate Ministers; 2 Ministers of State and 1 Parliamentary Under-Secretary of State.

Defence Council membership comprises the Secretary of State, the 3 Ministers mentioned above, the Chief of the Defence Staff, the 3 single Service Chiefs of Staff, the Vice-Chief of Defence Staff, the Chief of Defence Procurement, the Chief Scientific Adviser, the Permanent Under-Secretary of State and the Second Permanent Under-Secretary of State.

There are 3 Service Boards, each of which enjoys delegated powers for the administration of matters relating to the naval, military and air forces respectively.

Defence policy decision making is a collective Governmental responsibility. Important matters of policy are considered by the full Cabinet or, more frequently, by the Defence and Overseas Policy Committee under the chairmanship of the Prime Minister. Other members of this Committee include the Secretary of State for Defence, the Foreign and Commonwealth Secretary and the Home Secretary.

The Procurement Executive is responsible for procurement of equipment and supplies.

The ban on homosexuals serving in the armed forces was upheld by a House of Commons vote in May 1996.

*Defence Budget:* 1996–97, £21,425m. Estimates for 1997–98, £21,923m.; 1998–99, £22,624m.

**Army.** Control of the British Army is vested in the Defence Council and is exercised through the Army Board. The Secretary of State for Defence is Chairman of the Army Board. The other civilian members are the 3 subordinate Ministers and the Second Permanent Under-Secretary of State.

The Military members of the Army Board are the Chief of the General Staff, the Adjutant General, the Quartermaster General, the Master General of the Ordnance, the C.-in-C. Land Command and the Assistant Chief of General Staff. The Chief of the General Staff is the professional head of his Service and the professional adviser to Ministers on the Army aspects of military matters. He is responsible for the fighting efficiency of his Service; for Army advice on the conduct of operations; and for the issuing of such single Service operational orders as may be appropriate resulting from defence policy decisions. He is also responsible for the Territorial Army. The Chief of the General Staff is a member of the Chiefs of Staff Committee which is chaired by the Chief of the Defence Staff, who is responsible to HM Government for professional advice on strategy and military operations and on the military implication of defence policy. The Adjutant-General is responsible for recruiting and selection of army manpower; for the administration and individual training of military personnel; for the discipline of the Army; for pay and allowances and pensions; for legal services; for the veterinary and remount services; for the Army Cadet Forces; for questions of Army welfare and education including school children overseas; and for resettlement and sports. The Quartermaster-General is responsible for logistic planning for the Army; for the storage, distribution, maintenance, repair and inspection of equipment, stores and ammunition; for development of stores; for supply, transport and accommodation; for the development, production and inspection of clothing; for military movements and transportation; for the Army postal, catering, salvage and fire services; and for questions connected with canteens, institutes and military labour. The Master General of the Ordnance is a member of both

the Army Board and of the Procurement Executive Management Board. He is responsible to the Chief of Defence Procurement for the financial and technical management of the approved programme for the procurement of service equipment for the Armed Services, and to the Army Board for the co-ordination of the Army's total equipment programme.

The Field Army is run from Headquarters Land Command, based at Wilton. This consists of 2 operational divisions, 3 reserve divisions, 2 districts and United Kingdom Support Command (Germany) (UKSC(G)). 1 (UK) Armoured Division, based in Germany, has 3 armoured brigades each consisting of 2 tank regiments, 2 armoured infantry battalions and supported by artillery, engineers, aviation, air defence and logistics units. 3 (UK) Division, based in the UK, consists of 2 mechanized and 1 airborne brigade, together with artillery, engineers, aviation, air defence and logistics units. Other forces assigned to NATO's Rapid Reaction Corps (ARRC) include 24 Airmobile Brigade, a reconnaissance Brigade, intelligence and Electronic Warfare units, signals regiments, a depth artillery brigade, air defence regiments, engineers and some general duty infantry battalions.

The Ministry of Defence retains direct control of units in Northern Ireland, although day to day military responsibility is given to the Chief of the General Staff. The Permanent Joint Headquarters, recently formed at Northwood, is responsible for overseas garrisons, which include the Falkland Islands, Cyprus and Brunei.

The established strength of the Regular Army in 1996 was 114,000 which includes soldiers under training and Gurkhas. In addition there were some 4,000 Royal Irish Home Service soldiers. The strengths of the Regular Reserves was 212,000.

The role of the Territorial Army (TA) is to act as a general Reserve for the Army by reinforcing it as required, with individuals, sub-units and other units, either in the UK or overseas; and by providing the framework and basis for regeneration and reconstruction to cater for unforeseen in times of national emergency. The TA also provides a nationwide link between the military and civil communities. Strength, 1996, 55,000. In addition, men who have completed service in the Regular Army normally have some liability to serve in the Regular Reserve. All members of the TA and Regular Reserve may be called out by a Queen's Order in time of emergency of imminent national danger and most of the TA and a large proportion of the Regular Reserve may be called out by a Queen's Order when warlike operations are in preparation or in progress. The Home Service Battalions of the Royal Irish Regiment are only liable for service in Northern Ireland.

Men, women and juniors enlist in the Army for up to 22 years' active service and reserve service up to 45 years of age. Soldiers enlist for a minimum of 3 years and can leave active service thereafter on one year's notice. Bonuses are paid to those who serve for certain periods and there are manning control points at which the Army may require soldiers to terminate their service, again on one year's notice. Those enlisting in certain technical trades must agree to serve for a minimum of 3 years. Recruits under the age of 17½ on reaching the age of 18 are entitled either to confirm their original engagement or to reduce their period of service to 3 years.

Equipment includes 426 Challenger, 36 Challenger 2 and 79 Chieftain main battle tanks, 8 Scorpion light tanks, 1,225 armoured fighting vehicles, 524 artillery pieces, 63 multiple rocket launchers, 880 anti-tank guided weapons and 562 surface-to-air missiles.

Women serve throughout the Army in the same regiments and corps as men. There are only a few roles in which they are not employed such as the Infantry and Royal Armoured Corps.

**Navy.** Control of the Royal Navy is vested in the Defence Council and is exercised through the Admiralty Board, chaired by the Secretary of State for Defence. The other civilian members are the Ministers of State for the Armed Forces and Defence Procurement, the Parliamentary Under Secretary for Defence and the Second

Permanent Under Secretary of State. The naval members are the Chief of Naval Staff (First Sea Lord) responsible for management, fighting efficiency, planning and operational advice; the combined Second Sea Lord and C.-in-C. Naval Home Command, responsible for the manning of the Fleet and all personnel aspects; the Controller of the Navy, responsible for procurement of ships, their weapons and equipment; the Chief of Fleet Support, responsible for logistic support, stores, fuels and transport, naval dockyards and the auxiliary services; the C.-in-C. Fleet, and the Assistant Chief of Naval Staff, responsible for co-ordinating advice on certain policy and operational matters. The Navy Board, an executive sub-committee of the Admiralty Board, is responsible for the professional management of the service.

In 1996, the changes in management structure, reductions in strength, base closures and rationalization initiated in 1994 began to approach completion. The Chief of Fleet Support and Controller of the Navy are now located in the Bristol area and their various support agencies rationalized. The naval bases at Rosyth and Portland closed in 1995. Although the dockyards at Rosyth and Devonport remain largely committed to naval refit work, both yards have now been sold to commercial operators.

The C.-in-C. Fleet, headquartered at Northwood, is responsible for the command of the fleet, while command of naval establishments in the UK is exercised by the C.-in-C. Naval Home Command from Portsmouth. Main naval bases are at Devonport, Portsmouth and Faslane, with a minor base overseas at Gibraltar.

The Royal Naval Reserve (RNR) and the Royal Marines Reserve (RMR) are volunteer forces which together in 1996 numbered 3,450. The RNR provides trained personnel in war to supplement regular forces. The main roles of the RMR are reinforcement and other specialist tasks with the UK-Netherlands Amphibious Force. In addition, men who have completed service in the Royal Navy and the Royal Marines have a commitment to serve in the Royal Fleet Reserve, currently 23,000 strong.

Royal Navy and Queen Alexandra's Royal Naval Nursing Service (QARNNS) ratings, both male and female, and Royal Marine ranks enlist on the 'Open Engagement' to complete 22 years active service with the option to leave at 18 months notice on completion of a minimum of 2 and a half years productive service. Those who leave before completing 22 years have a liability for up to 3 years service in the Royal Fleet Reserve.

The roles of the Royal Navy are first, to deploy the national strategic nuclear deterrent, second to provide maritime defence of the UK and its dependent territories, third to contribute to the maritime elements of NATO's force structure and fourth to meet national maritime objectives outside the NATO area. Personnel strength has reduced steadily over the past 5 years and is now stabilizing at about 47,500 (including Royal Marines) in 1997, with operational strength at 12 nuclear attack submarines, 2 aircraft carriers and about 35 destroyers and frigates.

The strategic deterrent is now borne principally by the new Trident submarines, of which the first 3 of 4, *Vanguard*, *Victorious* and *Vigilant*, each of 15,250 tonnes, and deploying 16 US-built Trident-2 D5 UGM-133A missiles with up to 96 British warheads per operational load, are now operational. The fourth ship, *Vengeance*, is scheduled to be operational in 1999. The last missile submarine of the Resolution class, *Renown*, deploying Polaris missiles, decommissioned in Aug. 1996.

The strength of the fleet's major units at the end of each of the last 6 years:

	1991	1992	1993	1994	1995	1996
Strategic Submarines	4	4	4	3	3	3
Nuclear Submarines	15	13	13	12	12	12

Destroyers	12	12	12	12	12	12
Frigates	33	30	25	24	23	23

<sup>1</sup> Following Government policy, of the 3 Carriers held, only 2 are kept in operational status.

The nuclear-powered submarine force numbers 12, of 2 classes, armed with torpedoes and Harpoon anti-ship missiles. There are 7 Trafalgar class, (5,300 tonnes) completed 1983-1991 and 5 Swiftsure (4,900 tonnes) completed 1973-79. The

4 diesel-electric submarines of the Upholder class were decommissioned in 1994 but remain serviceable awaiting a possible purchaser.

The principal surface ships are the Light vertical/short take-off and landing Aircraft Carriers of the Invincible class, (*Invincible*, *Illustrious* and *Ark Royal*), 20,900 tonnes, completed 1980-85, embarking an air group of 8 Sea Harrier vertical/short take-off and landing fighters, 9 anti-submarine Sea King and 3 radar early warning Sea King helicopters, armed with 1 twin Sea Dart surface-to-air missile system. 2 of these ships are maintained in the operational fleet, with the third (currently *Ark Royal*) either in refit or reserve.

The 12 destroyers are all Type 42 (completed 1976-85), armed with 1 twin Sea Dart surface-to-air missile system. Frigates comprise 10 Type 22 (completed 1979-89) and 13 Norfolk class (Type 23) completed 1989-96.

The lightly-armed patrol force comprises 1 ice patrol ship, 16 other offshore patrol vessels and 16 inshore patrol craft mostly employed in training. Mine countermeasures capability is provided by 13 offshore hunter/sweepers and 5 coastal minehunters. Amphibious lift for the Royal Marines is provided by 1 dock landing ship (with a second in reserve) and 5 tank landing ships (civil manned, and in peacetime employed on army freighting), supported by about 32 small amphibious craft. A new Helicopter Carrier, specifically designed for amphibious operations, *HMS Ocean*, 16,000 tonnes, has completed initial sea trials and is fitting out for entry into service in 1998.

Comprehensive support to the fleet is provided by 27 major auxiliaries including 5 replenishment and 4 support tankers, 2 multi-purpose fuel and ammunition ships, 3 ammunition and stores ships, 1 repair ship, 2 ocean tugs, 5 survey ships, 1 trials ship, 1 aviation training ship, 2 armament transports and the Royal Yacht. Second-line support is provided by about 200 harbour and coastal service craft and minor auxiliaries.

The Fleet Air Arm, 5,500 strong in 1996, has some 300 aircraft, in 19 operational, training and search-and-rescue squadrons, including 40 Sea Harrier vertical/short take-off and landing fighter aircraft, 70 Sea King and 76 Lynx anti-submarine helicopters, 10 Sea King airborne early warning helicopters and 36 Sea King (commando transports) and 70 miscellaneous support and training craft.

The Royal Marines corps, 6,750 strong in 1996, provides a commando brigade comprising 3 commando groups, each approximately 1,000 strong with artillery, air defence, engineering and logistic support, and three light utility helicopter squadrons. The Special Boat Squadron and specialist defence units complete the operational strength. Equipment includes 15 helicopters and 30 light assault craft.

The total number of male and female personnel (including Royal Marines) was (in 1,000) on 31 March: 1993, 59.4; 1994, 55.8; 1995, 50.9; 1996, 48.5 and 1997 (estimated), 47.5.

**Air Force.** In May 1912 the Royal Flying Corps first came into existence with military and naval wings, of which the latter became the independent Royal Naval Air Service in July 1914. On 2 Jan. 1918 an Air Ministry was formed, and on 1 April 1918 the Royal Flying Corps and the Royal Naval Air Service were amalgamated, under the Air Ministry, as the Royal Air Force (RAF).

In 1937 the units based on aircraft carriers and naval shore stations again passed to the operational and administrative control of the Admiralty, as the Fleet Air Arm. In 1964 control of the RAF became a responsibility of the Ministry of Defence.

The RAF is administered by the Air Force Board, of which the Secretary of State for Defence is Chairman. The Minister of State for the Armed Forces is Vice-Chairman, and normally acts as Chairman on behalf of the Secretary of State. Other members of the Board are the Minister of State for Defence Procurement, the Under-Secretary of State for Defence, the Chief of the Air Staff, Air Member for Personnel, Air Member for Logistics, Air Officer Commanding-in-Chief Strike Command, Controller of Aircraft and the Second Permanent Under-Secretary of State.

The RAF is organized into 3 commands: Strike Command, Personnel and Training Command and Logistics Command.

*Strike Command* is responsible for all of the RAF's frontline forces, although day-to-day control of most operations is delegated to its 3 Groups. No 1 Group is responsible for strike/attack, offensive air support, support helicopters and reconnaissance. Tornado GR1s and Tornado GR1As are used in the strike, attack and reconnaissance roles, while Tornado GR1Bs are used primarily in the maritime attack role. Jaguars are used in the attack, reconnaissance and light anti-shipping roles. Battlefield support forces comprise Harrier GR7s, as well as Chinook, Puma and Wessex helicopters. No 1 Group also operates Canberra aircraft in the strategic photographic reconnaissance role. No 11/18 Group controls the air defence forces, Tornado F3 fighters and Boeing E-3D Airborne Early Warning aircraft, together with ground environment radars, associated communications systems and the Ballistic Missile Early Warning System at Fylingdales. Maritime air operations, together with the RAF's search and rescue flights, are also under the operational control of No 11/18 Group. A maritime patrol and anti-submarine warfare capability is provided by Nimrod aircraft, which also have a capability against surface ships. The search and rescue flights are equipped with Sea King helicopters. Additionally No 11/18 Group operates Nimrod Reconnaissance aircraft. No 38 Group is responsible for air-to-air refuelling and strategic air transport, which is carried out by VC10, Tristar and Hercules aircraft. No 38 Group also controls the aircraft of No 32 (The Royal) Squadron, comprising British Aerospace 146 and 125 aircraft and Wessex and Twin Squirrel helicopters. RAF forces in Germany, which are made up of Tornado GR1s, Harrier GR7s and Chinook and Puma helicopters, are under the day-to-day control of No 1 Group. The Military Air Traffic Operations organization also has the status of a Group.

The RAF Regiment, which is under the control of No 38 Group, has field squadrons in service with No 1 Group and short-range air defence squadrons armed with Rapier in service with No 1 Group and No 11/18 Group.

As well as the forces in Germany, the RAF has a flight of Tornado F3s, a flight of Hercules and a combined squadron comprising RAF Chinooks and Royal Navy Sea King helicopters based in the Falkland Islands, and a squadron of Wessex helicopters in Cyprus. In addition, Strike Command forces are deployed overseas in support of UN/WEU and Coalition operations.

Headquarters RAF Strike Command is based at RAF High Wycombe.

*Personnel and Training Command* was formed at RAF Innsworth on 1 April 1994.

2 agencies fall under the Command, the Training Group Defence Agency and the Personnel Management Agency (which formed on 1 Feb. 1997). The main RAF units within the Command are, for Ground Training: RAF Cosford, RAF Cranwell, RAF Halton and RAF Locking; for Flying Training: RAF Cranwell (where the Red Arrows are based), RAF Linton-on-Ouse, RAF Shawbury and RAF Valley. Initial Officer Training for commissioned candidates is undertaken at the RAF College, Cranwell. Further command and staff training for officers takes place at the Interim Joint Service Command and Staff College, which was formed on 1 Jan. 1997 at Bracknell. Recruit training is undertaken at RAF Halton. A single, tri-Service Defence Helicopter Flying School was formed at RAF Shawbury on 1 April 1997.

Personnel and Training Command is equipped with the following aircraft types: Bulldog and Slingsby Firefly as primary trainers, Tucano as basic trainers, Hawk as advanced fast jet trainers, Jetstreams for multi-engine pilot training, and Dominies for training navigators and other non-pilot aircrew. The Defence Helicopter Flying School uses Squirrel and Griffin helicopters.

*Logistics Command* was formed at RAF Brampton on 1 April 1994. The Command is responsible for providing the full range of logistics support activities to all RAF units worldwide and Joint Service support to Royal Navy and Army units for rationalized equipment ranges. It is responsible for: Support chain management, including the provisioning, storage, distribution and disposal of equipment; repair, overhaul, maintenance and modification programmes at 3rd and 4th line; provision and management of communications and information systems; RAF catering.

RAF personnel, 1 Jan. 1997, 60,302 (including 5,228 women). Since 1992 women have been eligible to fly combat aircraft. Total trained personnel in Jan. 1997, 57,654.

A single graduated income tax came into operation on 6 April 1973.

<i>Rates of Personal Tax from 6 April 1997</i>	<i>%</i>
Income between	
£0-4,100 (lower rate)	20
£4,101-£26,100 (basic rate)	23
Over £26,100 (higher rate)	40

Income from interest on savings accounts is taxed at 20% for basic rate taxpayers and 40% for higher rate taxpayers.

Under the tax system, the amounts of the personal allowances are adjusted so that they retain their equivalent in relation to earned income. Independent taxation of husband and wife was introduced on 6 April 1990.

Number of income tax payers, 1997-98: Lower rate, 7.2m.; basic rate, 16.2m.; higher rate, 2.2m.

<i>Allowances</i>	<i>1997-98 £</i>
Personal allowance	4,045
Married couple's allowance	1,830
Blind person's allowance	1,280
Age allowance (age 65 to 74):	
Single	5,220
Married couple's allowance	3,185
Age allowance (age 75 or over):	
Single	5,400
Married couple's allowance	3,225

There is an income limit of £15,600 for age-related allowances. Tax relief for the married couple's allowance is restricted to 15%. Mortgage protection, permanent health and long-term care insurance benefits are exempt from tax.

Deductions of tax under PAYE ('pay as you earn') extend over the full range of unified tax rates and not merely the basic rate. Similarly, assessment on business profits and on other income which was directly assessed to tax, such as rents and interest on bank deposits, are made by reference to the full scale of rates, including where appropriate the investment income surcharge.

The basic rate of 23% is the rate at which tax is deducted from payments of interest, etc., and corresponds under the corporation tax system, to the tax credit on dividends. Where an individual's total income is such that he is liable on this taxed investment income at rates exceeding 23%, or if his investment income is high enough to make him liable to the surcharge, the higher rate or surcharge liability on this taxed investment income will in general be assessed separately after the end of the tax year.

The assessment and collection of income tax was reformed from April 1997 with the introduction of self assessment for non-PAYE taxpayers, numbering 8.5m. The main measures abolish the 'preceding year' basis of assessment for the self employed, and tax income as it arises from 1997-98, with a transitional year in 1996-97; align payment dates for assessed income tax from all sources and for capital gains tax; introduce separate assessment for partners; and introduce clear rules for filing tax returns, allowing taxpayers the option of calculating their own tax, and for the payment of tax, and clear sanctions for failing to comply with them.

*Insurance Premium Tax.* This was introduced from 1 Oct. 1994 and was 4% in 1997-98. It does not apply to life insurance, pensions or export credit insurance.

*Corporation Tax.* Corporation Tax applies, with certain exceptions, to trades or businesses carried on by bodies corporate or by unincorporated societies or other bodies. The full rate of Corporation Tax was 33% for 1997-98. Small companies (i.e. with profits under £0.3m.), 23%.

*Capital Gains Tax.* Gains resulting from the disposal of capital assets (other than British Government and Government guaranteed securities and certain exempted forms of property such as a private car and personal residences) are taxed under the Finance Act 1965. In 1997-98 exemption was granted for all gains made in a financial year which in total did not exceed £6,500 and most trusts on the first £3,250. In 1988 the base was brought forward from 1965 to 1982. Persons selling their own businesses qualify for retirement relief (100% on the first £0.25m. of gains, 50% on £0.25m.-£1m.) at the age of 50.

*Inheritance Tax.* Transfers before 7 years of death, and between spouses, are exempt. From 1989 a flat rate of 40% was introduced with a threshold in 1997-98 of £215,000. Most family business assets were exempted in 1992-93.

*Value Added Tax.* Value Added Tax (VAT) was introduced from 1 April 1973 at the rate of 10% on the supply of goods (with certain exceptions) and services. It was raised to 17.5% from 1 April 1991. VAT was imposed on domestic fuel and power at 8% and was to have been imposed at the standard rate from 1 April 1995, but following a Government defeat in the House of Commons this second phase was withdrawn. The shortfall was made up by raising taxes on petrol, alcohol and tobacco. From 27 Nov. 1996 the turnover threshold above which traders are required to register became £48,000 per annum.

*National Lottery.* The National Lottery was launched in Nov. 1994 and is administered by a private company under the regulation of a State Director General. Distribution of net proceeds: Prizes, 50%; good causes (the arts, charities, millennium projects, national heritage and sport), 28%; tax, 12%; operator's costs and profit, 5%; retailers' commission, 5%. Spending of National Lottery money counts as general Government expenditure. It was expected to provide some £1,250m. in 1996-97 for good causes.

*Local Taxation.* The Community Charge ('poll tax') was introduced in Scotland in

1989 and in England and Wales in 1990, and was replaced by the Council Tax when the Local Government Finance Act came into force on 1 April 1993. For details of the Community Charge see THE STATESMAN'S YEAR-BOOK, 1993-94, p. 1339. The Council Tax reverts to the relative value of property within an individual authority as a basis for assessing the amount payable, but also takes account of personal circumstances to enable a discount of 25% for single households, with further reliefs available rebating liability by up to 100%. The value of residential property is assessed by the Inland Revenue within one of 8 valuation bands. Second residences are liable to 50% of the Council Tax. A uniform business rate applies nationally to business premises. 5-yearly revaluations of non-domestic properties began in 1995.

Local authority receipts for 1995-96 (and forecasts for 1996-97 and 1997-98) were £79,100m. (£79,100m. and £79,800m.), made up of: Council Tax, £9,500m. (£9,900m. and £10,800m.); current grants from central government (including non-domestic rate income), £57,300m. (£58,100m. and £58,100m.); capital grants from central government, £3,500m. (£3,100m. and £1,800m.); other, £7,700m. (£7,800m. and £7,800m.). Expenditure was £78,500m. (£79,400m. and £79,600m.), made up of: Current expenditure on goods and services, £53,000m. (£54,200m. and £55,000m.); current grants and subsidies, £13,700m. (£13,900m. and £13,800m.); interest, £4,200m. (£4,100m. and £4,400m.); capital expenditure before depreciation, £7,500m. (£7,300m. and £6,500m.).

Local authority spending is determined by the authorities themselves in the light of central government support, finance available from their own resources and the implications for local taxation. The government retains powers, however, to cap local authority budgets. The amount which the government thought local authorities in England, should spend on revenue expenditure—the Total Standard Spending (TSS)—was £44,900m. for 1996-97 and £45,700m. in 1997-98.

**Currency.** The unit of currency is the *pound sterling* (£; GBP) of 100 *pence* (p.). (Before decimalization on 15 Feb. 1971 £1 = 20 shillings (s) of 12 pence (d). A gold standard was adopted in 1816, the sovereign or twenty-shilling piece weighing 7.98805 grammes 0.916<sup>2</sup>/<sub>3</sub> fine. Currency notes for £1 and 10s. were first issued by the Treasury in 1914, replacing the circulation of sovereigns. The issue of £1 and 10s. notes was taken over by the Bank of England in 1928. 10s. notes were withdrawn in 1970 and £1 notes (in England and Wales) in 1988. The UK is a member of the EU European Monetary System (EMS), but on 16 Sept. 1992 it suspended its membership of the Exchange Rate Mechanism (ERM), which it had entered on 8 Oct. 1990. Inflation was 2.9% in Dec. 1994 (1.9% in Dec. 1993). In March 1997, £1 = US\$ 1.63; US\$1 = £0.61; DM1 = £0.36.

**Coinage.** There are coins of 1, 2, 5, 10, 20 and 50p. and £1 and (from Nov. 1997) £2. (For numismatic history see THE STATESMAN'S YEAR-BOOK, 1996-97, pp. 1321-22).

There are in addition Britannia gold bullion coins with a face value of £100, £50, £20 and £10, and commemorative £5 crowns and £2 coins.

**Bank notes.** The Bank of England issues notes in denominations of £5, £10, £20 and £50 for the amount of the fiduciary issue. Under the provisions of the Currency Act, 1983 the amount of the fiduciary issue is limited, but can be altered by direction of HM Treasury on the advice of the Bank of England. Since Feb. 1993 the limit has been £20,600m.

In Scotland the Bank of Scotland, Clydesdale Bank and the Royal Bank of Scotland have note-issuing powers. There is a £1 note in Scotland.

The total amount of Bank of England notes issued at 31 Dec. 1996 was £22,620m., of which £22,609m. represented notes with other banks and the public, and £11m. notes in the Banking Department of the Bank of England.

It has the sole right of note issue in England and Wales and manages the National Debt. It was founded by Royal Charter in 1694 and nationalized in 1946. The capital stock has, since 1 March 1946, been held by HM Treasury. The *Governor* (appointed for 5-year terms) is Eddie George (b. 1938; took office 1993).

The statutory Bank Return is published weekly. End-Dec. figures for the past 4 years are as follows (in £1m.):

There are stock exchanges in Belfast, Birmingham, Glasgow and Manchester, which function mainly as representative offices for the London Stock Exchange (called International Stock Exchange until May 1991). In July 1991 the 91 shareholders voted unanimously for a new memorandum and articles of association which devolves power to a wider range of participants in the securities industry and replaces the Stock Exchange Council with a 14-member board.

**Weights and Measures.** Conversion to the metric system, which replaced the imperial system, became obligatory on 1 Oct. 1995. The use of the pint for milk deliveries and bar sales, and use of miles and yards in road signs, is exempt indefinitely, and the use of the pound (weight) in selling greengrocery is exempt until 1999.

## ENERGY AND NATURAL RESOURCES

**Electricity.** The Electricity Act of 1989 implemented the restructuring and transfer to the private sector of the electricity supply industry.

*The Office of Electricity Regulation (Offer)* was set up under the Act to protect consumer interests following privatization.

**Generators.** Under the provisions of the 1989 Electricity Act, National Power and PowerGen took over the fuel-fired and hydro-electric power stations, and were privatized in 1991. Nuclear Electric, responsible for operating the 12 nuclear power stations, and Scottish Nuclear were merged as a single holding company in 1996 with 2 new operating subsidiaries, Magnox Electric and British Energy. These were privatized in 1996. Under licence generating companies may also be involved in electricity supply.

A levy (Non-Fossil Fuel Obligation) is being imposed on generators until 1998 to fund the decommissioning of ageing nuclear plant and finance renewable energy sources, mainly wind generation, which in 1995 supplied 2% of demand.

**Suppliers.** The 12 Area Electricity Boards were replaced under the 1989 Electricity Act by 12 successor companies which were privatized in 1990. These are Eastern Group; East Midlands Electricity; London Electricity; Manweb; Midlands Electricity; Northern Electric; NORWEB; SEEBOARD; Southern Electric; SWALEC; South Western Electricity; Yorkshire Electricity. The companies are responsible for maintaining and operating their local distribution networks, and have a statutory duty to supply electricity to their tariff customers. Their main business, therefore, is in electricity supply. Some of the companies are involved in the retailing of electrical goods and electrical contracting. Some have diversified into other business activities.

The *Electricity Association* is the trade association of the UK electricity companies, providing a forum for members to discuss matters of common interest, a collective voice for the electricity industry when needed and specialist research and professional services.

The National Grid Company is responsible for operating the transmission system and for co-ordinating the operation of power stations connected to it. The company also operates the cross-Channel link with France and the interconnection with the Scottish power system.

In Scotland there are 3 main electricity companies. ScottishPower and Scottish Hydro-Electric are vertically-integrated companies carrying out generation, transmission, distribution and supply of electricity within their areas. Scottish Nuclear, responsible for operating the 2 Scottish nuclear power stations was merged with Nuclear Electric in 1996.

The electricity industry accounts for 1.5% of GDP. Output capacity of all UK power stations as at the end of March 1996 was 69,200 MW. 47% of electricity generated was coal-fired, 25% nuclear, 16% gas, 5% oil, 5% combined heat and power schemes and 2% renewables (including hydro-electric). 290,755,000 MWh were supplied to 26.6m. customers in 1995, of which domestic users took 35%, industrial users 32% and commercial and other users 33%. Electricity generated in 1995, 314,781m. kWh.

Following the Gas Act of 1986, British Gas plc became the successor company to the British Gas Corporation. It conducts its operations under 3 business units: the UK gas business, exploration and production worldwide and Global Gas. The UK gas business has a headquarters and 12 regions. The Gas Act 1995 is extending competition to the domestic market progressively throughout Britain. Under the Act companies are licensed as Public Gas Transporters, who operate pipelines; Gas Shippers, who contract for gas to be transported through transporters' pipelines; and Gas Suppliers, who market gas. In 1997 there were 9 suppliers in addition to British Gas.

Gas reserves are some 590,000m. cu. metres. Production was 777,483,000 MW-hours in 1995, 35% of which was used by industrial or commercial consumers.

The Office of Gas Supply ('Ofgas') is the regulator charged with protecting gas consumers' interests.

**Wind.** In 1996 there were 31 wind farms with turbines for the generation of electricity.

**Water.** The Water Act of Sept. 1989 privatized the 10 water authorities in England and Wales: Anglian; North West; Northumbrian; Severn Trent; South West; Southern; Thames; Welsh; Wessex; Yorkshire. The Act also inaugurated the National Rivers Authority, with environmental and resource management responsibilities, and the 'regulator' Office of Water Services (Ofwat), charged with protecting consumer interests.

In Scotland water supply is the responsibility of the Regional and Island local authorities. 7 river purification boards are responsible for environmental management.

**Minerals.** Legislation to privatize the coal industry was introduced in 1994 and a new Coal Authority has taken over from British Coal. The Coal Authority is the owner of coal reserves; it licenses private coal-mining and deals with claims in former mining areas and disposes of unworked assets. In 1995 there were 15 British Coal collieries and 32 large deep mines in the private sector employing some 13,500 mineworkers. Total production from deep mines was 35.1m. tonnes in 1995 (31.9m. in 1994). 91 opencast sites were operating in 1996. Output, 1994, 16.8m. tonnes; 1995, 16.4m. tonnes. In 1995 inland coal consumption was 77m. tonnes, of which 78% was used by electricity generators, 11% by coke ovens and 3.7% by domestic consumers.

In Dec. 1996 the Government headline unemployment figure was 1,884,700. In Dec. 1992, 955,600 persons (165,200 females) had been unemployed for more than a year. In July 1996 there were 230,000 vacancies at Jobcentres.

**Trade Unions.** In Jan. 1997 there were 74 unions affiliated to the Trades Union Congress (TUC) with a total membership of 6,799,619 (6,898,106 in 1995) (2.6m. of them women). The unions affiliated to the TUC in 1994 ranged in size from UNISON with 1.4m. members, to the Sheffield Wool Shear Workers' Union with 12 members. The 4 largest unions, however, account for more than half the total membership. In 1994, 62% of public sector employees and 23% of private sector employees were unionized. 48% of employees were in workplaces where trades unions were recognized for collective bargaining.

The TUC's executive body, the General Council, is elected at the annual Congress. Congress consists of representatives of all unions according to the size of the organization, and is the principal policy-making body.

The General Secretary (John Monks, b. 1945) is elected by the Congress but is not subject to annual re-election. The TUC draws up policies and promotes and publicizes them. It makes representations to government, employers and inter-

national bodies. The TUC also carries out research and campaigns and provides a range of services to unions including courses for union representatives.

The TUC is affiliated to the International Confederation of Free Trade Unions, the Trade Union Advisory Committee of OECD, the Commonwealth Trade Union Council and the European Trade Union Confederation. The TUC provides a service of trade union education. It provides members to serve, with representatives of employers, on the managing boards of such bodies as the Health and Safety Commission and the Advisory, Conciliation and Arbitration Service.

Until 1992 all overseas trade statistics were compiled from Customs declarations. With the inception of the Single Market on 1 Jan. 1993, however, the requirement for Customs declarations in intra-EU trade was removed; trade figures for EU countries since 1993 are compiled from VAT returns. The totals given in the table below include figures for 'Below Threshold Trade' (minimal) and a non-response estimate.

In 1996 the UK's trade with non-EU countries was: Imports, £84,647,464; exports, £72,302,591.

**Foreign Tourism.** There were 24m. overseas visitors in 1995 spending £12,092m. 26-25m. UK residents journeyed abroad in 1994. The main countries of origin for foreign visitors in 1995 were: USA (3.26m.), France (3.21m.), Germany (2.68m.), Ireland (1.99m.) and the Netherlands (1.44m.).

## COMMUNICATIONS

**Roads.** Responsibility for the construction and maintenance of trunk roads belongs to central government (in England, the Department of Transport, in Wales the Welsh Office and in Scotland the Scottish Office). Roads not classified as trunk roads are the responsibility of county or unitary councils.

In 1995 there were 366,999 km of public roads, classified as: Motorways, 3,189 km; trunk roads, 12,208 km; principal roads, 35,957 km; others, 315,744 km.

Motor vehicles for which licences were current at 31 Dec. 1995, numbered (in 1,000) 25,369, including 20,505 private cars, 594 mopeds, scooters and motor cycles, 82 public transport vehicles and 421 goods vehicles. New vehicle registrations in 1995, 2,307. Driving tests, 1995 (in 1,000): Applications, 1,631.4; tests held, 1,489; tests passed, 684.2. The driving test was extended in 1996 to include a written examination.

Road casualties in Great Britain, 1994, 315,189 including 3,650 killed; in 1995, 310,506 including 3,621 killed (the lowest figure since records began in 1926).

Inter- and intra-urban bus and coach journeys average 44,000m. passenger-km annually. Passenger journeys by public road transport, 1994-95, 5,050m., including 4,420m. by local bus services. For London buses *see* London Transport *under* RAILWAYS, *below*.

**Railways.** In 1995 route length was 16,542 km (4,925 km electrified). In 1994 the nationalized railway network was restructured to allow for privatization. Ownership of the track, stations and infrastructure was vested in a government-owned company, Railtrack, which was privatized in May 1996.

Passenger operations have been reorganized into 25 train-operating companies, wholly-owned subsidiaries of the British Railways Board of which 20 had been franchised to the private sector by early 1997. These pay Railtrack for access to the rail network, and lease their rolling stock from 3 private sector companies. Freight operations are in the hands of a private company, but some non-railway companies operate their own freight services. Eurotunnel PLC holds a concession from the government to operate the Channel Tunnel (49.4 km), through which vehicle-carrying and Eurostar passenger trains are run in conjunction with French and Belgian railways. Eurostar is to build a rail link between London and the Channel Tunnel.

In the year ended 31 March 1995, British Railways Group turnover was £6,241.6m. and 100,264 staff were employed. Total train miles operated, 1994-95, 251.6m. Passenger journeys totalled 702.2m. (17,806m. passenger miles). 97.4m. tonnes of freight were transported (8,073m. tonne-miles).

London Transport is responsible to the Secretary of State for Transport for the

operation of the capital's metro, London Underground, and for the planning and regulation of bus services. In 1996, London Underground, its wholly-owned subsidiary, carried 2.7m. passengers a day to and from 267 stations (including 21 managed by Railtrack) on 12 lines. Some 5,000 buses run under contract to London Transport by independent companies carried 3.7m. passengers a day on some 700 routes.

The privately-franchised Docklands Light Railway is operated in east inner London.

There are metros in Glasgow and Newcastle, and light rail systems in Manchester and Sheffield.

**Civil Aviation.** Scheduled airports at Aberdeen, Birmingham, Bristol, Cardiff, Derby (East Midlands), Edinburgh, Glasgow, Leeds/Bradford, Liverpool, London (Gatwick), London (Heathrow), London (Luton), London (Stansted), London City, Manchester, Newcastle and Prestwick each handled more than 150,000 international passengers in 1996.

Following the Civil Aviation Act 1971, the Civil Aviation Authority (CAA) was established as an independent public body responsible for the economic and safety regulation of British civil aviation. A CAA wholly-owned subsidiary, National Air Traffic Services, operates air traffic control. Highlands and Islands Airports Ltd is owned by the Scottish Office and operates 8 airports.

Operating and traffic statistics of UK airlines on scheduled services during the calendar year 1995 (and 1994): Aircraft-km flown, 680m. (636m.); revenue passengers carried, 47.5m. (43.9m.); cargo (freight and mail) carried 643,181 (618,067) tonnes. Traffic between UK airports and places abroad in 1995 (and 1994) on all services included 968,493 (932,499) air transport aircraft movements.

There were 15,303 civil aircraft registered in the UK at 31 Dec. 1996.

British Airways is the largest UK airline. It operates long and short haul international services, as well as an extensive domestic network. In 1996 it operated 10 A320-100/200s, 22 B-737-200 Advs, 17 B-737-400s, 15 B-747-100s, 13 B-747-200Bs, 3 B-747-200B Combis, 34 B-747-400s, 44 B-757-200s, 11 B-767-300ERs, 13 B-767-300s, 14 BAe ATPs, 7 Concorde and 7 DC-10-30s. British Airways also have franchise agreements with other UK operators: British Regional Airways, Brymon Airways, City Flyer Express, GB Airways, Loganair and Maersk Air. Other airlines operating scheduled flights in 1996 (with numbers of aircraft): Air Belfast (3); Air UK (41); British Midland Airways (33); British World Airlines (19); Channel Express (14); Hunting Cargo (5); Jersey European Airways (16); Manx Airlines (27); Monarch Airlines (27); Virgin Atlantic Airways (15).

**Shipping.** The UK-owned merchant fleet (trading vessels over 100 GRT) in Sept. 1996 totalled 637 ships of 12.1m. DWT and 8.5m. GRT. The UK-owned and registered fleet totalled 354 ships of 2.6m. DWT.

The average age of the UK-owned fleet was 16 years, while that of the world fleet was 13.6 years. Total gross international revenue in 1995 was £4,916m. The net contribution to the UK balance of payments was £1,306m.; there were import savings of £1,529m., giving a total contribution of £2,835m. The container and roll-on-roll-off (RoRo) shipping sectors are the leading revenue earners.

The principal ports are (with 1m. tonnes of cargo handled in 1995): London (51.4), Forth (47.1), Grimsby and Immingham (46.8), Tees and Hartlepool (46.1), Sullom Voe (38.3), Milford Haven (32.5), Southampton (32.4), Liverpool (30), Felixstowe (24.1), Medway (14.2), Orkneys (12.9), Dover (12.7), Port Talbot (11), Belfast (10.5) and Hull (10).

**Inland Waterways.** There are approximately 3,500 miles of navigable canals and river navigations in Great Britain. Of these, the publicly-owned British Waterways Board (BW) is responsible for some 385 miles (620 km) of commercial waterways (maintained for freight traffic) and some 1,160 miles (1,868 km) of cruising waterways (maintained for pleasure cruising, fishing and amenity). BW is also responsible for a further 450 miles (732 km) of canals, some of which are not navigable. BW's external turnover for the year to 31 March 1996 was £41.5m. This comprised

principally Freight Activities (£2.7m.), Leisure (£10.5m.), the Estate (£15.9m.) and Water Charges (£3.3m.).

River navigations and canals managed by other authorities include the Thames, Great Ouse and Nene, Norfolk Broads and Manchester Ship Canal.

**Postal Services.** The Post Office operates as a group of 3 distinct businesses: Royal Mail (letter delivery), Parcelforce (parcel delivery), and Post Office Counters (retailing and agency services). Every area of the country is served by regional offices for each of the businesses. Royal Mail collects and delivers 70m. letters a day to the 26m. UK addresses. Other services include electronic mail, guaranteed parcel deliveries (same-day and overnight to UK addresses) and swift deliveries to 100 other countries. The British Postal Consultancy Service provides advice to administrations abroad.

In 1997 there were almost 20,000 post offices, 700 operated directly by the Post Office, the remainder (sub-post offices) on a franchise or agency basis; and 110,000 posting boxes. Staff numbered 189,000 in 1994-95. 18,322m. letters were posted in 1995-96.

The Post Office has a monopoly on the carriage of letters within the UK, but the government has suspended this subject to a minimum delivery charge of £1 and licensed mail transferred between document exchanges. Private services are permitted to handle door-to-door deliveries subject to a minimum fee of £1.

**Telecommunications.** In 1997 there were 148 licensed telecommunications operators: 125 cable operators, 19 national and regional public telecommunications operators and 4 mobile telephone (cellular) operators. Fixed-link telephone services are offered by BT, Mercury Communications, Kingston Communications (Hull), most of the cable operators and the public telecommunications operators. BT (then British Telecom) was established in 1981 to take over the management of telecommunications from the Post Office. In 1984 it was privatized as British Telecommunications plc, changing its trading name from British Telecom to BT in 1991.

In 1994 there were 7,327 digital or electronic analogue exchanges serving 84% of BT's customers' lines. The trunk network is completely digital. Almost 3m. km of optical fibre have been installed. In 1996 there were 20.5m. residential and 6.5m. business lines, 132,000 public payphones, 200,000 private rented payphones and 20,000 UK telex connections. BT handles a daily average of 103m. telephone calls a day and 22m. calls to emergency fire, police or ambulance service a year. In 1991 there were 0.9m. fax terminals. Electronic services include electronic mail ('email') and a complete corporate global messaging network. BT telephone, television and business services are carried by 15-20 satellites. In 1995 BT had some 20 offices worldwide and employed 137,561 persons.

In April 1996, 5.7m. mobile telephones were in use.

Telecommunications services are regulated by OFTEL in the interests of consumers.

**Broadcasting.** Radio and television services are provided by the British Broadcasting Corporation (BBC), by licensees of the Radio Authority and the Independent Television Commission (ITC) and by the Welsh-language Sianel Pedwar Cymru (S4C, Channel 4 Wales). The BBC, constituted by Royal Charter until 31 Dec. 1996, has responsibility for providing domestic and external broadcast services, the former financed from the television licence revenue, the latter by Government grant. The domestic services include 2 national television services, 5 national radio network services and a network of local radio stations. Government proposals for the future of the BBC after 1996 were published in July 1994.

The ITC is responsible for licensing and regulating all non-BBC TV services (except S4C), including ITV (regional and breakfast-time licensees), Channel 4, Channel 5, cable and satellite and additional services, such as teletext, carried on the spare capacity of TV signals. The Radio Authority is responsible for licensing and regulating independent national and local radio services. S4C is transmitted in Wales, and is funded by the government. It acts as both broadcaster and regulator.

The BBC's domestic radio services are available on Long Wave, MF and VHF; those of the Radio Authority on MF and VHF. Television services other than those

only on cable and satellite are broadcast at UHF in 625-line definition and in colour (by PAL). The BBC World Service, which started life in 1932 as the Empire Service, broadcast in 42 languages to an audience estimated at 140m. in 1997. As the self-financed BBC Worldwide TV, the BBC is also involved in commercial joint ventures to provide international television services.

The broadcasting authorities, whose governing bodies are appointed (by HM the Queen in the case of the BBC and by the Secretary of State for National Heritage in the case of the ITC, the Radio Authority and S4C) as trustees for the public interest in broadcasting, are independent of government and are publicly accountable to Parliament for the discharge of their responsibilities. Their duties and powers are laid down in the BBC Royal Charter and the Broadcasting Act 1990.

All independent (non-BBC) radio and television services other than S4C are financed by the sale of broadcasting advertising time, commercial sponsorship, or, in some cable and satellite services, by subscription.

In 1981 the Broadcasting Complaints Commission was set up to consider and adjudicate upon complaints of unfair or unjust treatment in broadcast programmes or of unwarranted infringement of privacy in or in the making of programmes. These statutory functions have been continued in the Broadcasting Act of 1990. The Broadcasting Standards Council was set up in 1988 to act as a focus for public concern about the portrayal of violence and sex on television and radio. The Council's role is to monitor programmes, receive and examine complaints from the public, undertake and commission research, and to draw up a code of practice on the portrayal of sex and violence, and on matters of taste and decency. The Broadcasting Act 1990 requires the broadcasters to reflect the Council's code in their programme guidelines. It also empowers the Council to consider and adjudicate upon complaints and publish their findings.

The number of television receiving licences in force on 31 March 1996 was 21,105,000, including 20,505,000 for colour. There were 779,461 cable television subscribers in 1994.

**Cinemas.** In 1994 cinemas had 1,969 screens. Admissions were 130m. in 1996 (123m. in 1994, from a low point of 54m. in 1984). 127 full-length films were made in 1996.

**Press.** In 1996 there were 10 national dailies with a combined average circulation in June of 13,202,574, and 9 national Sunday newspapers (15,174,032). There were also about 100 morning, evening and Sunday regional newspapers and 2,000 weeklies (about 1,000 of these for free distribution). There were about 6,500 other commercial periodicals and 4,000 professional and business journals. In 1996, an average of 18.3m. newspapers were sold per day.

In Jan. 1991 the Press Complaints Commission replaced the former Press Council. It has 15 members and a chair (Lord Wakeham) including 7 editors. It is funded by the newspaper industry.

In 1996, 101,504 book titles were published, including 89,984 non-fiction. 95,064 titles were published in 1995.

## SOCIAL INSTITUTIONS

**Justice.** *England and Wales.* The legal system of England and Wales, divided into civil and criminal courts has at the head of the superior courts, as the ultimate court of appeal, the House of Lords, which hears each year a number of appeals in civil matters, including a certain number from Scotland and Northern Ireland, as well as some appeals in criminal cases. In order that civil cases may go from the Court of Appeal to the House of Lords, it is necessary to obtain the leave of either the Court of Appeal or the House itself, although in certain cases an appeal may lie direct to the House of Lords from the decision of the High Court. An appeal can be brought from a decision of the Court of Appeal or the Divisional Court of the Queen's Bench Division of the High Court in a criminal case provided that the Court is satisfied that a point of law 'of general public importance' is involved, and either the Court or the House of Lords is of the opinion that it is desirable in the public interest that a further appeal should be brought. As a judicial body, the House of Lords

consists of the Lord Chancellor, the Lords of Appeal in Ordinary, commonly called Law Lords, and such other members of the House as hold or have held high judicial office. The final court of appeal for certain of the Commonwealth countries is the Judicial Committee of the Privy Council which, in addition to Privy Counsellors who are or have held high judicial office in the UK, includes others who are or have been Chief Justices or Judges of the Superior Courts of Commonwealth countries.

*Civil Law.* The main courts of original civil jurisdiction are the High Court and county courts.

The High Court has exclusive jurisdiction to deal with specialist classes of case e.g. Judicial Review. It has concurrent jurisdiction with county courts in cases involving contract and tort although it will only hear those cases where the issues are complex or important. The High Court also has appellate jurisdiction to hear appeals from lower tribunals.

The judges of the High Court are attached to one of its 3 divisions: Chancery, Queen's Bench and Family; each with its separate field of jurisdiction. The Heads of the 3 divisions are the Lord Chief Justice (Queen's Bench), the Vice-Chancellor (Chancery) and the President of the Family Division. In addition there are 95 High Court judges. For the hearing of cases at first instance, High Court judges sit singly. Appellate jurisdiction is usually exercised by Divisional Courts consisting of 2 (sometimes 3) judges, though in certain circumstances a judge sitting alone may hear the appeal. High Court business is dealt with in the Royal Courts of Justice and by over 130 District Registries outside London.

County courts can deal with all contract and tort cases and recovery of land actions, regardless of value. They have upper financial limits to deal with specialist classes of business such as equity and Admiralty cases. Certain county courts have been designated to deal with family, bankruptcy, patents and discrimination cases.

There are about 260 county courts located throughout the country each with its own district. A case may be heard by a Circuit Judge or by a District Judge, (the latter generally being restricted to cases valued at £5,000 or less). County courts have a small claims jurisdiction for actions for money worth £7,000 or less; this is an informal procedure where parties are encouraged to present cases without the need for legal representation.

The Restrictive Practices Court was set up in 1956 under the Restrictive Trade Practices Act and is responsible for deciding whether a restrictive trade agreement is in the public interest. It is presided over by a High Court judge, but laymen sit on the bench also. Another specialist court is the Employment Appeal Tribunal, with similar composition, which hears appeals in employment cases from lower tribunals.

The Court of Appeal (Civil Division) hears appeals in civil actions from the High Court and county courts and certain special courts such as the Restrictive Practice Court and Employment Appeal Tribunal. Its President is the Master of the Rolls, aided by up to 29 Lords Justices of Appeal sitting in 6 or 7 divisions of 2 or 3 judges each.

Civil proceedings are instituted by the aggrieved person, but as they are a private matter, they are frequently settled by the parties through their lawyers before the matter comes to trial. In very limited classes of dispute (e.g. libel and slander), a party may request a jury to sit to decide questions of fact and the award of damages.

*Criminal Law.* At the base of the system of criminal courts in England and Wales are the magistrates' courts which deal with over 97% of criminal cases. In general, in exercising their summary jurisdiction, they have power to pass a sentence of up to six months imprisonment and to impose a fine of up to £5,000 on any one offence. They also deal with the preliminary hearing of cases triable at the Crown Court. In addition to dealing summarily with over 2m. cases, which include thefts, assaults, road traffic infringements, drug abuse, etc, they also have a limited civil jurisdiction.

Magistrates' courts normally sit with a bench of 3 lay justices. Although unpaid they are entitled to loss of earnings and travel and subsistence allowance. They undergo training after appointment and they are advised by a professional justices' clerk. In central London and in some provincial areas full-time stipendiary magistrates have been appointed. Generally they possess the same powers as the lay

bench, but they sit alone. On 1 Jan. 1996 the total strength of the lay magistracy was 30,326 including 14,375 women. Justices are appointed on behalf of the Queen by the Lord Chancellor, except in Greater Manchester, Merseyside and Lancashire where they are appointed by the Chancellor of the Duchy of Lancaster.

Justices are selected and trained specially to sit in Youth and Family Proceedings Courts. Youth Courts deal with cases involving children and young persons up to the age of 18 charged with criminal offences (other than homicide and other grave offences). These courts normally sit with 3 justices, including at least one man or one woman, and are accommodated separately from other courts.

Family Proceedings Courts deal with matrimonial applications, Children Act matters, including care, residence and contact and adoption. These courts normally sit with three justices including at least one man and one woman.

Above the magistrates' courts is the Crown Court. This was set up by the Courts Act 1971 to replace quarter sessions and assizes. Unlike quarter sessions and assizes, which were individual courts, the Crown Court is a single court which is capable of sitting anywhere in England and Wales. It has power to deal with all trials on indictment and has inherited the jurisdiction of quarter sessions to hear appeals, proceedings on committal of persons from the magistrates' courts for sentence, and certain original proceedings on civil matters under individual statutes.

The jurisdiction of the Crown Court is exercisable by a High Court judge, a Circuit judge or a Recorder or Assistant Recorder (part-time judges) sitting alone, or, in specified circumstances, with justices of the peace. The Lord Chief Justice has given directions as to the types of case to be allocated to High Court judges (the more serious cases) and to Circuit judges or Recorders respectively.

Appeals from magistrates' courts go either to a Divisional Court of the High Court (when a point of law alone is involved) or to the Crown Court where there is a complete re-hearing on appeals against conviction and/or sentence. Appeals from the Crown Court in cases tried on indictment lie to the Court of Appeal (Criminal Division). Appeals on questions of law go by right, and appeals on other matters by leave. The Lord Chief Justice or a Lord Justice sits with judges of the High Court to constitute this court.

There remains as a last resort the invocation of the royal prerogative exercised on the advice of the Home Secretary. In 1965 the death penalty was abolished for murder.

All contested criminal trials, except those which come before the magistrates' courts, are tried by a judge and a jury consisting of 12 members. The prosecution or defence may challenge any potential juror for cause. The jury decides whether the accused is guilty or not. The judge is responsible for summing up on the facts and explaining the law; he sentences convicted offenders. If, after at least 2 hours and 10 minutes of deliberation, a jury is unable to reach a unanimous verdict it may, on the judge's direction, provided that in a full jury of 12 at least 10 of its members are agreed, bring in a majority verdict. The failure of a jury to agree on a unanimous verdict or to bring in a majority verdict may involve the retrial of the case before a new jury.

*The Employment Appeal Tribunal.* The Employment Appeal Tribunal which is a superior Court of Record with the like powers, rights, privileges and authority of the High Court, was set up in 1976 to hear appeals on questions of law against decisions of industrial tribunals and of the Certification Officer. The appeals are heard by a High Court Judge sitting with 2 members (in exceptional cases 4) appointed for their special knowledge or experience of industrial relations either on the employer or the trade union side, with always an equal number on each side. The great bulk of their work is concerned with the problems which can arise between employees and their employers.

*Military Courts.* Offences committed by persons subject to service law under the Army Act 1955, the Air Force Act 1955 or the Naval Discipline Act 1957 may be dealt with either summarily or by courts-martial.

*The Personnel of the Law.* All full-time judicial officers except the Lord Chancellor (who is a member of the Cabinet) are independent of Parliament and the Executive.

They are appointed by the Crown on the advice of the Prime Minister or the Lord Chancellor, or by the Lord Chancellor, and hold office until retiring age. Under the Judicial Pensions and Retirement Act 1993 judges normally retire at age 70 years, though they may be called upon by the Lord Chancellor to serve till age 75. The legal profession is divided; barristers, who advise on legal problems and can conduct cases before all courts, usually act for the public only through solicitors, who deal directly with the legal business brought to them by the public and have rights to present cases before certain courts. Long-standing members of both professions are eligible for appointment to most judicial offices.

In 1994 the Lord Chancellor introduced developments to the procedures for making all judicial appointments below the level of the High Court. Suitably qualified practitioners are invited to apply for advertised vacancies, and shortlisted applicants are interviewed by a panel consisting of a judge, an official and a lay member. Panels make recommendations to the Lord Chancellor, who retains the right of final recommendation to the Sovereign or appointment, as appropriate. Vacancies for the full-time offices of Circuit Judge, District Judge, Master or Registrar of the Supreme Court, Immigration Adjudication and Stipendiary Magistrate, and the part-time appointments of Assistant Recorder and Deputy District Judge, are now filled under this procedure. The new arrangements are being extended to a range of full-time and part-time tribunal and similar appointments for which the Lord Chancellor is responsible.

*Legal Aid.* Broadly there are 3 kinds of legal aid available in England and Wales. Firstly there is legal advice and assistance, otherwise known as the 'Green Form' scheme. This includes advice and assistance on almost any question of English law, both civil and criminal, but does not normally cover any form of representation before a court or tribunal. Qualification for 'Green Form' is dependent on the means of the applicant. As an extension of the scheme, however, assistance by way of representation is available for certain proceedings, chiefly civil, in magistrates' courts. Assistance by way of representation is also means-tested. In 1994-95 there were 1.6m. payments under the Legal Advice and Assistance Scheme. The net cost to the Legal Aid Fund of this part was £152.2m., of which £13.4m. was accounted for by assistance by way of representation. Legal advice and assistance also provides for duty solicitor schemes at magistrates' courts and police stations. Under the magistrates' courts scheme, initial advice, and representation where necessary, is available to unrepresented defendants at court from duty solicitors either in attendance at courts or on call. The scheme covers advice to a defendant in custody, making a bail application, representing a defendant in custody on a guilty plea, and certain other cases. The advice and assistance at police stations scheme enables any person who has been arrested and taken to a police station, or who is assisting the police with their enquiries, to receive advice and assistance, from either a duty solicitor or the person's own solicitor. The cost of these schemes, which are not subject to means test or contribution, is met from the Legal Aid Fund and in 1994-95 amounted to £80.5m. Secondly, under Part IV of the Legal Aid Act 1988, there is legal aid for civil court proceedings. Under regulations, aid is available to those of low or moderate means either free or subject to a contribution, depending on means. In 1994-95, 385,955 civil legal aid certificates were issued. The cost of legal aid is met from (a) contributions from assisted persons; (b) the operation of the statutory charge which gives the Legal Aid Board a first charge on money or property recovered or preserved for an assisted person; (c) costs recovered from opposing parties and (d) a grant from the Exchequer. The net cost of civil legal aid to the state (excluding administration costs of the scheme) in 1994-95 amounted to £601.6m. Thirdly under Part V of the Legal Aid Act 1988 a court dealing with criminal proceedings may order legal aid to be given if it considers it is desirable in the interests of justice and if it also considers that the defendant (or appellant) requires financial assistance in meeting the costs he or she may incur. The factors to be taken into account when determining whether it is in the interests of justice that criminal legal aid be granted are defined by statute to include cases where, for example, the defendant is likely to be deprived of his or her liberty, consideration of a substantial question of law may be involved, or the defendant may be unable to

understand the proceedings or to state his or her case due to inadequate knowledge of English, mental illness or other mental or physical disability. Legal aid must be granted, subject to means, in the following circumstances: Where a person is committed for trial on a charge of murder, where the prosecutor appeals or applies for leave to appeal from the criminal division of the Court of Appeal or the Courts-Martial Appeal Court to the House of Lords, and in certain circumstances where the court is considering depriving a defendant of his liberty.

The costs of legal aid in criminal proceedings are paid by the central government, but courts have power to require legally aided persons to contribute towards the cost of legal aid given to them. The net cost of legal aid in criminal proceedings in 1994-95 was £464.3m. £262.3m. of this was for legal aid in the higher courts which is paid for out of the Lord Chancellor's vote, and £202m. for legal aid in the magistrates' courts which is paid from the Legal Aid Fund.

*Police.* In England and Wales outside London there are 41 police forces each maintained by a police authority typically comprising 9 local councillors, 3 magistrates and 5 independent members. In Scotland, the unitary councils are the police authorities. London is policed by the Metropolitan Police Service (responsible to the Home Secretary) and the City of London Police. In April 1995 the Home Office gave up central control of police manpower and authorized establishments of police no longer exist. Instead, Chief Constables recruit according to their budgets. The Home Office collates police strength in March and Sept. each year. The actual strength of the police service in England and Wales in Sept. 1996 was 127,123 (including 18,710 women). In addition there were 19,451 special constables (including 6,857 women). The estimated total revenue expenditure on the police service for 1995-96 was £6,300m.

*SCOTLAND.* The High Court of Justiciary is the supreme criminal court in Scotland and has jurisdiction in all cases of crime committed in any part of Scotland, unless expressly excluded by statute. It consists of the Lord Justice-General, the Lord Justice-Clerk and 24 other judges, who are the same judges as of the Court of Session, the Scottish supreme civil court. One judge is seconded to the Scottish Law Commission. The Court, which is presided over by the Lord Justice-General, whom failing, the Lord Justice-Clerk, exercises an appellate jurisdiction as well as one of first instance, sits as business requires in Edinburgh both as a Court of Appeal (the *quorum* being 2 judges if appeal against sentence or other disposals, 3 in all other cases) and as a court of first instance and on circuit as a court of first instance. The decisions of the Court are not subject to review by the House of Lords. One judge sitting with a jury of 15 persons can, and usually does, try cases, but 2 or more (with a jury) may do so in important or complex cases. It has a privative jurisdiction over cases of treason, murder, rape, breach of duty by magistrates and certain statutory offences under the Official Secrets Act 1911 and Geneva Conventions Act 1957. It also, in practice, is the only court which tries serious crimes against person or property and generally those cases in which a sentence greater than imprisonment for 3 years is likely to be imposed. Moreover, the Court has inherent power to try and to punish all acts which are plainly criminal though previously unknown and not dealt with by any statute.

The appellate jurisdiction of the High Court of Justiciary extends to all cases tried on indictment, whether in the High Court or the Sheriff Court, and persons so convicted may appeal to the Court against conviction or sentence or both except where the sentence is fixed by law. By such an appeal, a person may bring under review any alleged miscarriage of justice including any alleged miscarriage of justice on the basis of the existence of significant additional evidence which was not heard at the trial and which was not available and could not reasonably have been made available at the trial. It is also a court of review from courts of summary jurisdiction, and on the final determination of any summary prosecution the convicted person may appeal to the Court by way of stated case on questions of law, etc., but not on questions of fact, except in relation to a miscarriage of justice alleged by the person accused on the basis of the existence and significance of additional evidence which was not heard at the trial and which was not available and could not reason-

ably have been made available at the trial. However, before cases proceed to a full hearing, leave to appeal must first be granted. Grounds of appeal and any relevant reports are considered by a 'sift' judge sitting alone in chambers, who will decide if there is merit in the appeal. Should leave to appeal be refused, this decision may be appealed to the High Court within 14 days, when the matter will be reviewed by 2 judges, again sitting in chambers. The Lord Advocate is entitled to appeal to the High Court against any sentence passed on indictment on the ground that it is unduly lenient, or on a point of law. A further or complementary form of process of review which can be resorted to by convicted persons in these courts is by Bill of Suspension (and Liberation), but it is of strictly limited application, and cannot be used to appeal any conviction, sentence, judgment or order pronounced in any proceedings on indictment. A prosecutor in cases tried on indictment or under summary criminal procedure may also bring under review a decision in law, prior to final judgment of the case, by way of Bill of Advocacy. The Court also hears appeals under the Courts-Martial (Appeals) Act 1951.

The Sheriff Court has an inherent universal criminal jurisdiction (as well as an extensive civil one) limited in general to crimes and offences committed within a sheriffdom (a specifically defined region), which has, however, been curtailed by statute or practice under which the High Court of Justiciary has exclusive jurisdiction in relation to the crimes above-mentioned. This Court is presided over by a Sheriff-Principal or Sheriff, who when trying cases on indictment sits with a jury of 15 persons. His powers of awarding punishment involving imprisonment are restricted to 3 years maximum, but he may under certain statutory powers remit the prisoner to the High Court for sentence if this is felt to be insufficient. The Sheriff also exercises a wide summary criminal jurisdiction and when doing so sits without a jury; and he has concurrent jurisdiction with every other court within his Sheriff Court District in regard to all offences competent for trial in summary courts. The great majority of offences which come before the courts are of a minor nature and, as such, are disposed of in the Sheriff Summary Courts or in the District Courts (*see* below). In cases to be tried on indictment either in the High Court of Justiciary or in the Sheriff Court, the judge may, before the trial, hold a preliminary or first diet to decide questions of a preliminary nature, whether to the competency or relevancy or otherwise. Any decision at a preliminary diet (other than a decision to adjourn the first or preliminary diet or discharge the trial diet) can be the subject of an appeal to the High Court of Justiciary prior to the trial.

In cases to be tried on indictment in the Sheriff Court by Sheriff and Jury trial a first diet is mandatory before the trial diet to decide questions of a preliminary nature ie to the competency or relevancy or otherwise, and to identify cases which are unlikely to go to trial on the date programmed. Likewise, in summary proceedings, an intermediate diet is again mandatory before trial. In High Court cases such matters may be dealt with at a preliminary diet.

District Courts in each local authority district have jurisdiction in minor offences occurring within the district. These courts are presided over by lay magistrates, known as Justices, who have limited powers of fine and imprisonment. In Glasgow District there are also 4 Stipendiary Magistrates who have the same sentencing powers as Sheriffs.

The Court of Session, presided over by the Lord President (the Lord Justice-General in criminal cases), is divided into an Inner House comprising 2 divisions of 4 judges each with mainly appellate function, and an Outer House comprising 18 single judges, sitting individually at first instance; it exercises the highest civil jurisdiction in Scotland, with the House of Lords as a court of appeal.

*Police.* The police forces in Scotland at the end of 1995 had an authorized establishment of 14,477; the actual strength was 12,643 men and 1,836 women. There were 1,878 special constables. The total police net expenditure in Scotland was £514m. for 1993-94.

<sup>1</sup> Crimes are generally the more serious criminal acts and offences the less serious. 'Crimes' are not equivalent in coverage to 'indictable/triable either way offences'.

In March 1995 the population in prisons, youth custody centres and detention centres in England and Wales was 51,243 (the highest level ever recorded); in Scotland, 5,451.

**Religion.** The Anglican Communion has originated from the Church of England and parallels in its fellowship of autonomous churches the evolution of British influence beyond the seas from colonies to dominions and independent nations. The Archbishop of Canterbury presides as *primus inter pares* at the decennial meetings of the bishops of the Anglican Communion at the Lambeth Conference and at the

biennial meetings of the Primates and the Anglican Consultative Council. The last Conference was held in Canterbury in 1988 and was attended by 518 bishops.

The Anglican Communion consists of 33 member Churches or Provinces. These are Australia, Brazil, Burma, Burundi, Rwanda and Zaïre, Canada, Central Africa, Ceylon, England, Indian Ocean, Ireland, Japan, Jerusalem and the Middle East, Kenya, Korea, Melanesia, Mexico, New Zealand, Nigeria, Papua New Guinea, the Philippines, Scotland, Southern Africa, Southern Cone of America, Sudan, Tanzania, Uganda, USA, Wales, West Africa, West Indies. There are also areas which come under the metropolitan jurisdiction of the Archbishop of Canterbury. These are Bermuda, the Diocese in Europe, Falkland Islands, The Council of the Churches of East Asia, The Diocese of Hong Kong and Macao, Sabah, Kuching, Singapore, West Malaysia, The Lusitanian Church (Portugal) and The Spanish Reformed Episcopal Church.

*England and Wales.* The established Church of England, which baptizes about 25% of the children born in England (*i.e.* excluding Wales but including the Isle of Man and the Channel Islands), is Anglican. Civil disabilities on account of religion do not attach to any class of British subject. Under the Welsh Church Acts, 1914 and 1919, the Church in Wales and Monmouthshire was disestablished as from 1 April 1920, and Wales was formed into a separate Province.

The Queen is, under God, the supreme governor of the Church of England, with the right, regulated by statute, to nominate to the vacant archbishoprics and bishoprics. The Queen, on the advice of the First Lord of the Treasury, also appoints to such deaneries, prebendaries and canonries as are in the gift of the Crown, while a large number of livings and also some canonries are in the gift of the Lord Chancellor.

There are 2 archbishops (at the head of the 2 Provinces of Canterbury and York), and 42 diocesan bishops including the bishop of the diocese in Europe, which is part of the Province of Canterbury. Dr George Carey was enthroned as *Archbishop of Canterbury* in April 1991. Each archbishop has also his own particular diocese, wherein he exercises episcopal, as in his Province he exercises metropolitan, jurisdiction. In Dec. 1995 there were 66 suffragan and assistant bishops, 40 deans and provosts of cathedrals and 103 archdeacons. The *General Synod*, which replaced the Church Assembly in 1970 in England, consists of a House of Bishops, a House of Clergy and a House of Laity, and has power to frame legislation regarding Church matters. Each House has a veto over the others. The first two Houses consist of the members of the Convocations of Canterbury and York, each of which consists of the diocesan bishops and elected representatives of the suffragan bishops, 6 for Canterbury province and 3 for York (forming an Upper House), deans, provosts, and archdeacons, and a certain number of proctors elected as the representatives of the inferior clergy, together with, in the case of Canterbury Convocation, 4 representatives of the Universities of Oxford, Cambridge, London and the Southern Universities and in the case of York 2 representatives for the Universities of Durham and Newcastle and the other Northern Universities; 3 archdeacons to the Armed Forces, the Chaplain General of Prisons and 2 representatives of the Religious Communities (forming the Lower House). The House of Laity is elected by the lay members of the Deanery Synods but also includes 3 representatives of the Religious Communities and *ex-officio* Church Commissioners and Ecclesiastical Judges. Every Measure passed by the General Synod must be submitted to the Ecclesiastical Committee, consisting of 15 members of the House of Lords nominated by the Lord Chancellor and 15 members of the House of Commons nominated by the Speaker. This committee reports on each Measure to Parliament, and the Measure receives the Royal Assent and becomes law if each House of Parliament resolves that the Measure be presented to the Queen.

Parochial affairs are managed by annual parochial church meetings and parochial church councils. At 31 July 1995 there were 13,025 ecclesiastical parishes, inclusive of the Isle of Man and the Channel Islands. These parishes do not, in many cases, coincide with civil parishes. Although most parishes have their own churches, not every parish nowadays can have its own incumbent or minister.

In Dec. 1995 there were 5,897 beneficed clergy excluding dignitaries, 1,769 other clergy of incumbent status and 1,907 assistant curates working in the parishes.

Women have been admitted to Holy Orders (but not the Episcopate) as deacons since 1987 and as priests since 1994. On 11 Nov. 1992 the General Synod voted for the ordination of women to the priesthood (the Upper House, by 39 votes to 13; the Lower House, by 176 to 74; the House of Laity, by 169 to 82). The legislation received the Royal Assent on 5 Nov. 1993 and the Canon permitting women's ordination came into effect on 22 Feb. 1994. At 31 Dec. 1995 there were 820 full-time stipendiary women clergy, 762 of whom were in the parochial ministry. In July 1995 the General Synod stated that 304 clergymen had left the Church of England because they disagreed with the ordination of women, and that perhaps 75% of these had joined the Roman Catholic Church.

Private persons possess the right of presentation to over 2,000 benefices; the patronage of the others belongs mainly to the Queen, the bishops and cathedrals, the Lord Chancellor, and the universities of Oxford and Cambridge. In addition to the 6,147 dignitaries and parochial incumbents, there were (1995) 126 cathedral, 3,673 parochial and 314 non-parochial clergy working within the diocesan framework. Although these figures account for the majority of active clergy in England, there are many others serving in parishes and institutions who cannot be quantified with any certainty. They include some 1,500 full-time hospital, Forces, prison, industrial and school and college chaplains. Over 1,000 non-stipendiary clergy hold a bishop's licence to officiate at services.

In 1993 there were estimated to be 1.3m. Easter Day and 1.5m. Christmas Communicants. Usual Sunday attendances at all services were 1.1m.

Of the 40,397 buildings registered for the solemnization of marriages at 30 June 1994, (statistics from the Office of Population Censuses and Surveys) 16,538 belonged to the Established Church and the Church in Wales and 23,859 to other religious denominations (Methodist, 6,739; Roman Catholic, 3,331; Baptist, 3,109; United Reformed, 1,689; Congregational, 1,264; Calvinistic Methodist, 1,093; Jehovah's Witnesses, 786; Brethren, 744; Salvation Army, 737; Unitarians, 165; other Christian, 3,857; Sikhs, 129; Moslems, 90; other non-Christian, 126). Of the 306,756 marriages celebrated in 1991 (331,150 in 1990), 102,840 were in the Established Church and the Church in Wales, 52,583 in other denominations and 151,333 were civil marriages in Register Offices.

Roman Catholics in England and Wales were estimated at 4,404,056 in 1996. There were 5 archdioceses and 18 dioceses, 6,098 clergy and 2,856 parish churches and 904 other churches open to the public. Convents, 1,286.

Membership of other denominations in the UK in 1991 (and 1975):

Presbyterians, 1,291,672 (1.65m.); Methodists, 483,387 (0.61m.); Baptists, 241,842 (0.27m.); other Protestants, 123,677; independent churches, 408,999; Orthodox, 265,258 (0.2m.); Afro-Caribbean churches, 69,658; Mormons (1994), 163,800; Jehovah's Witnesses, 0.12m.; Spiritualists, 60,000; Moslems, 0.99m. (0.4m.); Sikhs, 0.39m. (0.12m.); Hindus, 0.14m. (0.1m.); Jews, 108,400 (0.11m.).

The Salvation Army is established in 94 countries. In 1991 in the UK and Ireland it had 1,792 ministers, 55,000 members and 837 churches.

There is a 400-member Board of Deputies of British Jews.

*Scotland.* The Church of Scotland, which was reformed in 1560, subsequently developed a presbyterian system of church government which was established in 1690 and has continued to the present day.

The supreme court is the General Assembly, which now consists of some 1,250 members, ministers and elders in equal numbers, together with members of the diaconate commissioned by presbyteries. It meets annually in May, under the presidency of a Moderator appointed by the Assembly. The Queen is normally represented by a Lord High Commissioner, but has occasionally attended in person. The royal presence in a special throne gallery in the hall but outside the Assembly symbolises the independence from state control of what is nevertheless recognised as the national Church in Scotland.

There are also 46 presbyteries in Scotland, roughly co-terminous with District Councils, together with 1 presbytery of England, 1 presbytery of Europe, and

1 presbytery of Jerusalem. At the base of this conciliar structure of Church courts are the kirk sessions, of which there were 1,603 on 1 Dec. 1996, with a total of 683,397 members.

The Episcopal Church of Scotland is a province of the Anglican Church and is one of the historic Scottish churches. It consists of 7 dioceses. As at 31 Dec. 1996 it had 316 churches and missions, 367 clergy and 53,599 members, of whom 32,833 were communicants.

There are in Scotland some small outstanding Presbyterian bodies and also Baptists, Congregationalists, Methodists and Unitarians.

The Roman Catholic Church which celebrated the centenary of the restoration of the Hierarchy in 1978, had in Scotland (1995) 1 cardinal archbishop, 1 archbishop, 6 bishops, 964 clergy, 461 parishes, and 730,835 adherents.

The proportion of marriages in Scotland according to the rites of the various Churches in 1995 was: Church of Scotland, 36.5%; Roman Catholic, 9.6%; Episcopal, 1.5%; others, 6%; civil, 46.4%.

**Education (England and Wales).** *The Publicly Maintained System of Education:* Compulsory schooling begins at the age of 5 and the minimum leaving age for all pupils is 16. No tuition fees are payable in any publicly maintained school (but it is open to parents, if they choose, to pay for their children to attend other schools). The post-school or tertiary stage, which is voluntary, includes universities, further education establishments and other higher education establishments (including those which provide courses for the training of teachers), as well as adult education centres and the youth service. Financial assistance (grants and loans) is generally available to students on higher education courses in the university and non-university sectors and to some students on other courses in further education.

*National Curriculum.* The Education Reform Act 1988 established a National Curriculum for gradual introduction into primary and secondary schools. It was revised in 1995. Statutory subjects at 5 to 11 years: English (and Welsh in Wales), mathematics, science (core subjects); design and technology, information technology, geography, history, physical education, art and music. At 11 to 14 years a foreign language is added. Statutory subjects at 14 to 16: English, mathematics, science, technology, a foreign language and physical education. Sex and religious education are not prescribed in the curriculum but are requirements; parents may withdraw their children from these lessons.

*Nursery Education.* Provision for children under 5 is made in either nursery schools or in nursery or infant classes in primary schools. In the public sector no fees are payable. In Jan. 1996 there were 547 public sector nursery and 2,266 private schools and 5,581 primary schools with nursery classes in England. In 1996 there were 52,177 pupils under 5 attending nursery schools and 656,316 pupils under 5 in nursery and infant classes in primary schools. About 48% of all these children were attending part-time. In Wales there were 52 maintained nursery schools in 1995 and 52,360 pupils under 5 years provided for in nursery or infant classes in primary schools.

*Primary Schools.* These provide for pupils from the age of 5 up to the age of 11. In Jan. 1996 there were 18,829 primary schools in England of which 2,354 were infant schools providing for pupils up to the age of about 7, the remainder mainly taking pupils from age 5 through to 11. Nearly all primary schools take both boys and girls. 16% of primary schools had 100 full time pupils or less.

In Jan. 1996 there were 1,681 primary schools in Wales. In those primary schools (and some secondary schools) which are in the predominantly Welsh-speaking areas, the main language of instruction is Welsh. There are also 'Welsh', or, more accurately, bilingual schools in mainly English-speaking parts of Wales. Generally children transfer from primary to secondary schools at 11.

*Middle Schools.* A number of local education authorities operate a middle school system. These provide for pupils from the age of 8, 9 or 10 up to the age of 12,

13 or 14. In Jan. 1996 there were 1,651 middle schools in England deemed either primary or secondary according principally to the age range of the school concerned.

*Secondary Schools.* These usually provide for pupils from the age of 11 upwards. In Jan. 1996 there were 3,194 secondary schools in England and 228 in Wales. In England some local education authorities have retained selection at age 11 for entry to grammar schools of which there were 160 in 1996. There were a small number of technical schools in 1996 which specialise in technical studies. There were 113 secondary modern schools in 1996 providing a general education up to the minimum school leaving age of 16, although exceptionally some pupils stay on beyond that age.

Almost all local education authorities operate a system of comprehensive schools to which pupils are admitted without reference to ability or aptitude. In Jan. 1996 there were 2,876 such schools in England with just under 2.6m. pupils. With the development of comprehensive education various patterns of secondary schools have come into operation. Principally these are: 1. All through schools with pupils aged 11 to 18 or 11 to 16; pupils over 16 being able to transfer to an 11 to 18 school or a sixth form college providing for pupils aged 16 to 19. (There were 115 sixth form colleges in England in 1992). 2. Local education authorities operating a three-tier system involving middle schools where transfer to secondary school is at ages 12, 13 or 14. These correspond to 12 to 18, 13 to 18 and 14 to 18 comprehensive schools respectively; or 3. In areas where there are no middle schools a two-tier system of junior and senior comprehensive schools for pupils aged 11 to 18 with optional transfer to these schools at age 13 or 14.

The majority of secondary schools in Wales are classified as comprehensive. In 1996, 67 schools used Welsh as a teaching medium.

*Grant Maintained Schools.* Local education authority maintained secondary, middle and primary schools can apply for Grant Maintained (GM) status as self-governing state schools. Under GM status schools receive funding directly from the Funding Agency for Schools or, in Wales, from the Welsh Office. Their governing bodies are responsible for all aspects of school management, including the deployment of funds, employment of staff and provision of most of the educational support services for staff and pupils. The first GM primary schools were incorporated in 1991. By Jan. 1996 there were 1,099 GM schools in England (448 primary and 642 secondary) and by Jan. 1997, 5 GM primary, 1 middle and 11 secondary schools in Wales.

*Specialist Schools.* 1. City Technology Colleges. 15 independent all-ability secondary schools established in partnership between government and business sponsors, under the Education Reform Act 1988. They teach the full National Curriculum but give special emphasis to technology, science and mathematics. Government meets all recurrent costs. 2. Technology Colleges, Language Colleges, Arts Colleges and Sports Colleges. A programme to help existing maintained secondary schools to specialize in a particular area of the curriculum, while continuing to cover the full National Curriculum. To be included in the programme, schools must raise sponsorship and then prepare development plans, in competition with other schools, to seek extra government funding. The first Technology Colleges operated from Sept. 1994. By March 1997 some 231 schools had been designated in one or other of the categories of specialist school.

*Assisted Places Scheme.* In order to give able children a wider range of educational opportunity the Government set up, in 1981, the Assisted Places Scheme to give help with tuition fees at certain independent schools to parents who could not otherwise afford them. In the school year 1996-97 there were 355 participating schools in England and 14 in Wales offering a total of 9,941 assisted places, 885 for entry at ages between 5 and 10, 7,119 for entry at age 11, 12, and 13, and 1,937 for entry at sixth form level.

*Special Education.* Under the Education Act 1996 children have special educational needs if they have a learning difficulty which calls for special educational provision

to be made for them. It has been estimated that, nationally, some 20% of the school population will have special educational needs at some time during their school career. In a minority of cases, perhaps just over 2% of children, the Local Education Authority will need to make a statutory assessment of special educational needs under the Education Act 1996, which may ultimately lead to a 'statement'. In England the total number of pupils with statements in 1996 was over 229,000 (14,521 in Wales in 1995). In England in 1996 there were 1,191 maintained special schools and 72 non-maintained special schools.

The Education Act 1996 and regulations made thereunder build upon the principles and practices first set out in the 1981 Education Act. They place duties and responsibilities on Local Education Authorities and schools, and all those who help them work with children with special educational needs. Maintained schools must use their best endeavours to make provision for such pupils. The Code of Practice on the Identification and Assessment of Special Educational Needs, which came into force on 1 Sept. 1994, gives practical guidance to these bodies as to how they fulfil their duties. Provision for all children with special educational needs will be made by the most appropriate agency, which in most cases will be the child's mainstream school. The Code of Practice recognizes that there is a continuum of needs and a continuum of provision, which may be made in a variety of different forms. However, even before reaching statutory school age, a child may have special educational needs requiring the intervention of the Local Education as well as the Health Authority.

Some pupils with statements remain in school after the age of 16. Local Education Authorities remain responsible for such pupils until they are 19. Others with statements leave school at 16, moving perhaps to a college within the further education sector, or to social services provision.

*Ancillary Services.* Local Education Authorities and the governing bodies of GM schools may provide registered pupils at schools maintained by them with milk, meals and refreshment and they may make such charges as they think fit. For pupils whose parents or they themselves are in receipt of income support, however, they are required to ensure that such provision is made for the pupil at mid-day as appears to them to be requisite and anything which is provided must be free of charge.

*Further Education (Non-University).* On 1 April 1993, further education and sixth-form colleges left local authority control and were brought together under the Further Education Funding Council (England) and the Further Education Funding Council for Wales to create a new sector of publicly-funded further education. In 1997 there were 448 colleges in England providing further education programmes both academic and vocational, though mainly the latter. Colleges vary in size from those specializing in single areas to large institutions with courses from foundation to degree level, and offer lifelong learning opportunities for everyone over 16. Course enrolments in 1996-97 numbered 3m., two-thirds of whom were adults and the majority studying part-time. The Further Education Funding Council also funds further education programmes in higher education institutions and in some 300 local authority and voluntary adult education centres.

Education at institutions of further education is not free, but fees are generally low, and are not charged for students under the age of 19.

In Wales in Nov. 1996 there were 29 institutions in the further education sector and 191,385 students.

*The Youth Service.* The Youth Service forms part of the education system and is mainly concerned with the provision of personal and social education for young people to enable them to become responsible citizens. The Youth Service is chiefly provided by Local Education Authorities (the statutory sector) and a wide range of voluntary organizations. The priority age group for the service is usually regarded as 13-19 years old but this target age group extends to 11-25 year olds. A duty is laid upon Local Education Authorities by the provision of the (Consolidation) Education Act 1996 which has superseded earlier Education Acts, to secure adequate provision of further education which includes the Youth Service. Provision is

usually in the form of a wide range of leisure-time activities or through 'detached' or outreach work aimed at young people at risk. The Department of Education and Employment awards grants to the headquarters of national voluntary youth organizations through its Grant Scheme. The current Scheme runs from 1996-97 until the end of 1998-99. Total funding will amount to £9.1m. over 3 years. Some 60 organizations are being funded to pursue approved programmes of work concerned with the social and personal education of young people, particularly those aged 13-19. The Scheme aims to widen access to the youth services especially for those who are disadvantaged, who have disabilities, who come from minority ethnic groups or inner city or rural areas and for girls and young women. It also places priority on work which aims to contribute to crime prevention and health education and encourage the involvement of volunteers.

*Awards to Students.* Local Education Authorities in England and Wales are responsible for making mandatory awards to eligible students enrolled on designated full-time or sandwich courses leading to a first degree or comparable qualification and certain courses of initial teacher-training. These awards cover fees and maintenance but the maintenance grants are subject to the income of the student and his or her parents or spouse. In addition studentships may be available both from universities and other sources. The authorities may also give discretionary awards to students who are not eligible for mandatory awards including those taking non-degree level courses. In 1997-98 grant rates were uprated equally with the loan rates. Support for students through grants and loans rose in line with inflation, resulting in a 2.5% increase over the 1996-97 levels.

The Student Loans scheme was introduced by the Government in 1990 to supplement mandatory awards. Eligible students apply for loans to the Student Loans Company which is funded wholly by the Government. On leaving higher education former students begin to repay loans over a 5-year period when they reach an income threshold of 85% of average earnings. In 1996-97 the Government provided further and higher education institutions with £27.7m. for Access Funds to help students with severe financial difficulties. In 1995-96 59% of students took out loans averaging £1,252.

In Scotland the Student Awards Agency for Scotland administers the Students' Allowance Scheme and the Postgraduate Students' Allowances Scheme, which offer means-test grants to personally eligible students in full-time, further or higher education. A limited number of grants are also available under the Scottish Studentship Scheme for postgraduate study in the arts and humanities.

Awards known as state studentships are offered on a competitive basis by the Department for Education and the Students Awards Agency for Scotland to candidates considered by the universities and other higher education institutions to be qualified for postgraduate studies in the humanities; similar awards, tenable at universities or other higher education institutions are offered by the Research Councils to students studying topics within the broad spectrum of agriculture and food; the biological sciences; man's natural environment; science and engineering and the social sciences at postgraduate level.

The 5 Research Councils made over 7,300 new awards in 1990-91 and there were more than 15,000 current awards in that academic year. In 1992-93 the British Academy gave 924 new awards and the Department 437 state bursaries, 204 library bursaries and 25 state studentships.

*Career Development Loans (CDLs)* were introduced by the Government in 1988 to provide wider opportunities for adults to acquire and improve vocational skills. The loans are aimed at those who would otherwise not have reasonable or adequate access to the funds required to train. Loans of between £300 and £8,000 can support up to 2 years of education or training, plus up to 1 year's practical work experience where it forms part of the course. Loans to pay for training are available through 4 high street banks. The Department of Education and Employment pays the interest on the loan for the period of the training and for 1 month afterwards. Borrowers registered unemployed and claiming benefit, i.e. Jobseekers Allowance or National Insurance credits, may apply to the bank to defer repayments for up to a further

5 months. CDL Plus, launched in Sept. 1995, is piloting arrangements which allow the borrower to defer repayment of their loan for up to 18 months after completing their course if they are registered unemployed, employed and receiving certain benefits or need to extend their training. CDL Plus is available to residents of Somerset, Gwent, South Glamorgan, Mid Glamorgan and the former county of Avon.

By Feb. 1997 £274m. had been advanced to more than 89,000 applicants since the programme began.

**Teachers.** In order to work as a school teacher in the maintained schools or non-maintained special schools in England and Wales, it is first necessary to achieve qualified teacher status. This is generally achieved by successfully completing an undergraduate or postgraduate course of initial teacher training, although those who have trained overseas and those who have experience of teaching in another sector may be eligible to train on the job through what are known as 'employment-based' routes. In 1997 these routes were under review, and there were proposals to introduce a new route to be known as the Graduate Teacher Programme. School teachers who have successfully completed a course of initial teacher training or are recognized as a qualified teacher in Scotland or Northern Ireland may be entitled to qualified teacher status. Teachers who are nationals of participating member states of the European Economic Area who are recognized as qualified in their own countries may be entitled to qualified teacher status if they meet the requirements on the mutual recognition of qualifications.

In 1996-97 there were about 57,300 students on initial teacher training courses; this figure includes students on the Open University and school-centred courses.

On 1 Jan. 1996, 420,302 teachers were employed by Local Education Authorities in maintained (including Grant-Maintained) nursery, primary and secondary schools in England and Wales.

**Finance.** Total current and capital expenditure on education in England from public funds is estimated at £28,111m. for 1994-95.

**Education (Scotland).** The statistics on schools relate to education authority, self-governing and grant-aided schools. All teachers employed in these schools require to be qualified; figures given are full-time equivalents.

**Nursery Education.** In Sept. 1996 there were 796 nursery schools and departments, with a total enrolment of 49,020 pupils.

**Primary Education.** In Sept. 1996 there were 2,333 primary schools and departments with 40,758 pupils and 22,653 teachers.

**Secondary Education.** In Sept. 1996 there were 406 secondary schools with 316,957 pupils. All but 28 schools provided a full range of Scottish Certificate of Education courses and non-certificate courses. Pupils who start their secondary education in schools which do not cater for a full range of courses may be transferred at the end of their second or fourth year to schools where a full range of courses is provided. There were 24,593 full-time equivalent teachers in secondary schools at Sept. 1996.

**Special Schools.** In Sept. 1996 there were 201 special schools and departments. 9,376 children were under instruction.

**Further Education.** Under the Further and Higher Education (Scotland) Act 1992 funding of further education colleges was transferred to central government on 1 April 1993.

There are 43 incorporated colleges in Scotland as well as the education centres in Orkney and Shetland which are run by the education authorities but funded by direct payments from the Scottish Office Education and Industry Department. The colleges offer training in a wide range of vocational areas and co-operate with the Scottish Vocational Education Council and the Scottish Office Education and Industry Department in the development of new courses. Scottish Vocational Qualifications (SVQs) were introduced in 1989 and general SVQs were piloted in 1993. Both qualifications aim to improve the skills of the nation's workforce and increase the country's competitiveness. The colleges benefit from co-operation with industry, both by the involvement of Industry Lead Bodies in developing SVQs and by membership of the college boards of management.

*Independent Schools.* Outside the state system of education there were in England 2,287 independent schools in Jan. 1997, ranging from large 'public' schools to small local ones. There were 551,900 pupils in these schools. In Wales (1994) 10,672 full-time pupils attended 64 independent schools. Independent schools are self-financing and self-resourcing, and receive no grant from central government. All independent schools in England (and Wales) are required to be registered by the Department for Education and Employment (and the Welsh Office) and are liable to the inspection by HM Inspectors. The term 'public schools' refers to independent schools in membership of the Headmasters' Conference, Governing Bodies Association or the Governing Bodies of Girls' Schools Association. Qualifications under which a school may be represented at the Headmasters' Conference include the measure of independence enjoyed by the governing body and the amount of advanced courses undertaken. Some of these schools are for boarders only, but the majority include non-resident 'day-pupils'. In Scotland there were 114 independent schools, with a total of 30,958 pupils in Sept. 1996. A small number of the Scottish independent schools are of the 'public school' type but they are not known as 'public schools' since in Scotland this term is used to denote education authority (*i.e.*, state) schools.

The earliest of the schools were founded by, and attached to, medieval churches. Many were founded as 'grammar' (classical) schools in the 16th century, receiving charters from the reigning sovereign. Reformed mainly in the middle of the 19th century, among the best-known are Eton College, founded in 1440 by Henry VI; Winchester College (1394) founded by William of Wykeham, Bishop of Winchester; Harrow School, founded in 1560 as a grammar school by John Lyon, a yeoman; and Charterhouse (1611). Among the earliest foundations are King's School, Canterbury, founded 600; King's School, Rochester (604) and St Peter's, York, (627).

*Higher Education.* The Further and Higher Education Act 1992 removed the polytechnics from local authority funding and gave them university title. The Act created the Higher Education Funding Council for England (HEFCE) and the Higher Education Funding Council for Wales (HEFCW). The Further and Higher Education (Scotland) Act 1992 established the Scottish Higher Education Funding Council (SHEFC). These are responsible for the funding of universities and other higher education institutions and prescribed courses of higher education in further education colleges. The higher education funding councils are non-departmental public bodies operating within a policy and funding context set by the government. Their task is to advise the Secretaries of State with responsibility for education on the funding needs of institutions and to distribute the funds that they make available for the provision of education and the undertaking of research.

Powers to award degrees and authority to adopt a university title are granted by the Privy Council.

Polytechnics created universities by the 1992 Act (P = Polytechnic): Anglia P became Anglia P Univ.; Birmingham P, Univ. of Central England in Birmingham; Bournemouth P, Bournemouth Univ.; Brighton P, Univ. of Brighton; Bristol P, Univ. of the West of England, Bristol; City of London P, London Guildhall Univ.; Coventry P, Coventry Univ.; Derby P, Univ. of Derby; Hatfield P, Univ. of Hertfordshire; Huddersfield P, Univ. of Huddersfield; Humberside P, Univ. of Humberside; Kingston P, Kinston Univ.; Leeds P, Leeds Metropolitan Univ.; Lancashire P, Univ. of Central Lancashire; Leicester P, De Montfort Univ.; Liverpool P, Liverpool John Moores Univ.; Manchester P, Manchester Metropolitan Univ.; Middlesex P, Middlesex Univ.; Newcastle P, Univ. of Northumbria at Newcastle; Nottingham P, Nottingham Trent Univ.; Oxford P, Oxford Brookes Univ.; P of Central London, Univ. of Westminster; P of East London, Univ. of East London; P of North London, Univ. of North London; P South West, Univ. of Plymouth; P of West London, Thames Valley Univ.; Portsmouth P, Univ. of Portsmouth; Sheffield City P, Sheffield Hallam Univ.; South Bank P, South Bank Univ.; Staffordshire P, Staffordshire Univ.; Sunderland P, Univ. of Sunderland; Teesside P, Univ. of Teesside; Thames P, Univ. of Greenwich; Wolverhampton P, Univ. of Wolverhampton.

In England in 1995-96 there were 137 institutions of higher education directly

funded by the HEFCE, of which 70 were universities. In 1995-96 the HEFCE distributed £3,207m. in funding: £2,270m. for teaching, £636m. for research, £287m. of non-formula money and £14m. transitional funding. There were 1,137,000 students in funded institutions, including 727,000 full-time.

In *Wales* in 1996 there were 14 institutions of higher education funded by the HEFCW, including 2 universities: the Univ. of Wales (1995–96, 42,462 full-time and sandwich students), with 8 constituent and member colleges (Univ. of Wales Aberystwyth; University College of North Wales Bangor; Univ. of Wales Cardiff; Univ. of Wales Lampeter; Univ. of Wales Swansea; Univ. of Wales College of Medicine, in Cardiff; Univ. of Wales Institute, Cardiff; Univ. of Wales College, Newport); and the Univ. of Glamorgan (Pontypridd) (1995–96, 9,625 full-time and sandwich students), formed from the Polytechnic of Wales in 1992. The other institutions were: North East Wales Institute (Wrexham), Swansea Institute of Higher Education, Trinity College Carmarthen, Welsh College of Music and Drama (Cardiff). Coleg Normal Bangor integrated with Univ. College of North Wales Bangor on 1 Aug. 1996. In 1995–96 there was a total of 7,864 full-time and sandwich students at these colleges. The total number of full-time and sandwich students was 59,951. There were 15,897 part-time students in 1995–96.

In *Scotland* in 1997 there were 21 institutions of higher education funded by the

SHEFC, of which 5 were universities formed from former central institutions (*cf.* English polytechnics): Abertay Dundee Univ., Glasgow Caledonian Univ., Napier Univ. (Edinburgh), Univ. of Paisley, The Robert Gordon Univ. (Aberdeen); and 8 were already-existing universities:

In 1995-96 there were 119,212 full-time and sandwich students at the institutions funded by SHEFC (59,385 female).

All the higher education institutions are independent and self-governing. In addition to funding through the higher education funding councils they receive tuition fees through local education authorities for students domiciled in England and Wales, and from the Students Awards Agency for Scotland for students domiciled in Scotland. Institutions which carry out research may also receive funding through the 5 Research Councils administered by the Office of Science and Technology.

The *Open University* received its Royal Charter on 1 June 1969 and is an independent, self-governing institution, awarding its own degrees at undergraduate and postgraduate level. It is financed by the Government through the HEFCE and by the receipt of students' fees. Tuition is by means of correspondence textbooks, audio and video cassettes, radio and television broadcasts and residential schools. Some courses require access to a personal computer. There are also 311 local study centres where face-to-face tutorials may be offered. No formal qualifications are required for entry to undergraduate courses. Residents from most countries of Western Europe aged 18 or over may apply, though some courses are not available outside the UK. There are over 130 undergraduate courses; many are available on a one-off basis. In 1996 there were over 124,000 undergraduates, and over 27,000 postgraduate level students. The university has some 3,000 full-time staff working at its Milton Keynes headquarters and in 13 regional centres throughout the country. There are over 6,000 part-time associate lecturers.

One university is independent of the state system, the *University of Buckingham*, which opened in 1976 and received a Royal charter in 1983. It offers 2-year courses towards its own honours degrees, the academic year commencing in Jan. and consisting of four 10-week terms. There are 4 Schools of Studies: Business; Humanities; Law; and Sciences. In 1996, there were 780 full-time and 34 part-time undergraduate students and 145 full-time and 14 part-time postgraduate students. There were 76 teachers (3 part-time).

All universities charge fees, but financial help is available to students from several sources (*see Awards to Students* above), and the majority of students receive some form of financial assistance.

**The British Council.** The British Council promotes cultural, educational and technical co-operation between Britain and other countries. Established in 1934 and incorporated by Royal Charter in 1940, it is Britain's principal agency for cultural relations overseas. An independent, non-political organization, it is represented in 109 countries, running a mix of offices, libraries, resource centres and English-teaching operations. Its headquarters are in London and Manchester with regional centres in Belfast, Cardiff and Edinburgh.

The British Council's total expenditure in 1995-96 was £421m. This was made up of government grants (£144m.), revenues from English language teaching and client-funded education services (£145m.) and development programmes, principally in education and training, which are managed on behalf of the British Government and other clients (£132m.).

The British Council seeks to maximize Britain's role in the world. It does this by extending the use and improving the teaching of English; promoting international partnerships in cultural, educational and scientific fields; demonstrating the achievements of British arts; extending Britain's contribution to overseas development; and promoting, in response to overseas demand, the use of British goods and services in education and training.

**Welfare.** The National Insurance Act 1946 came into operation on 5 July 1948, repealing the existing schemes of health, pensions and unemployment insurance. This Act, along with later legislation, was consolidated as the National Insurance Act 1965. The scheme now operates under the Social Security Contributions and Benefits Act 1992 and the Social Security Administration Act 1992.

Since 1975, Class 1 contributions have been related to the employee's earnings and are collected with PAYE income tax, instead of by affixing stamps to a card. Class 2 and Class 3 contributions remain flat-rate, but, in addition to Class 2 contributions, those who are self-employed may be liable to pay Class 4 contributions, which for the year 1997-98 are at the rate of 6% on profits or gains between £7,010 and £24,180, which are assessable for income tax under Schedule D. The non-employed and others whose contribution record is not sufficient to give entitlement to benefits are able to pay a Class 3 contribution of £6.05 per week in 1997-98 voluntarily to qualify for a limited range of benefits. Class 2 weekly contributions for 1997-98 for men and women are £6.15. Class 1A contributions are paid by employers who provide employees with a car and fuel for their private use.

From 6 April 1978 the Social Security Pensions Act 1975 introduced earnings-related retirement, invalidity and widows' pensions. Members of occupational pension schemes may be contracted out of the earnings-related part of the state scheme relating to retirement and widows' benefits. Employee's national insurance contribution liability depends on whether he/she is in contracted-out or not contracted-out employment.

Full rate contributions for non-contracted-out employment in 1997-98:

<i>Weekly earnings (in £1)</i>	<i>Yearly earnings (in £1)</i>	<i>Employee pays</i>	<i>Employer pays</i>
Nil-62	Nil-3,223	Nil	Nil
62-109	3,223-5,719	10% <sup>1</sup>	3%
110-154	5,720-8,059	10% <sup>1</sup>	5%
155-209	8,060-10,919	10% <sup>1</sup>	7%
210-464	10,920-24,180	10% <sup>1</sup>	10%
Over 465	Over 24,180	£41.54	10%

<sup>1</sup> Plus 2% of £62.

Where earnings exceed £62 per week the employee contributes 2% of earnings up to £62 and 10% thereafter.

For contracted-out employment the employees' contributions are as above but 8.2% on weekly earnings of £62–£465. The employer's rates are reduced by 3%.

From April 1996 employers who engage a trainee, or a person who has been unemployed for at least 2 years are eligible for a year's rebate of contributions.

Contributions together with interest on investments form the income of the *National Insurance Fund* from which benefits are paid. A Treasury grant was instituted in 1993. 23,749,000 persons (10,243,000 women) paid contributions in 1993–94, including 20,797,000 employees at standard rate.

Receipts, 1994–95 (in £1m.), 49,679.08, including: Contributions, 37,863.48; compensation from Consolidated Fund for recoveries, 541; investment income, 363.95. Disbursements, 49,679.084, including: Unemployment Benefit, 1,299.48; Sickness Benefit, 381.84; Invalidity Benefit, 7,705.134; Maternity Allowances, 27; Widow's Benefit, 1,022; Guardian's Allowances, 1; Retirement Pensions, 28,744.81; Pensioners' Lump Sums, 123.31; Personal Pensions, 1,956.62; transfers to Northern Ireland, 145; administration, 1,279.89; redundancy payments, 196.52. Total benefit expenditure, 1995–96, £88,787m.

*Statutory Sick Pay (SSP)*. Employers are responsible for paying statutory sick pay (SSP) to their employees who are absent from work through illness or injury for up to 28 weeks in any 3-year period. Basically, all employees aged between 16 and 65 (60 for women) with earnings above the Lower Earnings Limit are covered by the scheme whenever they are sick for 4 or more days consecutively. The weekly rate is £54.55. For most employees SSP completely replaces their entitlement to state incapacity benefit which is not payable as long as any employer's responsibility for SSP remains.

Pregnant working women may be eligible to receive statutory maternity pay directly from their employer for a maximum of 18 weeks. There are 2 rates: Where a woman has been working for the same employer for at least 26 weeks, she is entitled to 90% of her average weekly earnings for the first 6 weeks and to the lower rate of £54.55 a week for the remaining 12 weeks. Employers are reimbursed by the state for 92% of the amount they pay.

Women who are not eligible for statutory maternity pay, those who are self-employed, have recently changed jobs or given up their job, may qualify for a weekly maternity allowance of £54.55 for employees and £47.35 for the self-or non-employed, which is payable for up to 18 weeks.

All pregnant employees have the right to take 14 weeks' maternity leave.

A payment of £100 from the Social Fund may be available if the mother or her partner are receiving income support, family credit or disability working allowance. It is also available if a woman adopts a baby.

*Contributory benefits*. Qualification for these depends upon fulfilment of the appropriate contribution conditions, except that persons who are incapable of work as the result of an industrial accident may receive incapacity benefit followed by invalidity benefit without having to satisfy the contributions conditions.

*Jobseekers' Allowance*. This replaced unemployment benefit on 7 Oct. 1996. Unemployed persons claiming the allowance must sign a 'Jobseekers' Agreement' setting out a plan of action to find work. The allowance is not payable to persons who left their job voluntarily or through misconduct. Claimants with sufficient National Insurance contributions are entitled to the allowance for 6 months regardless of their means; otherwise, recipients qualify through a means test and the allowance is fixed according to family circumstances at a rate corresponding to Income Support for an indefinite period. In 1995–96, there were some 30,000 recipients of Unemployment Benefit.

*Incapacity benefit*. This replaced the former sickness benefit and invalidity benefit on 13 April 1995. Entitlement begins when entitlement to SSP (if any) ends. There are 3 rates: A lower rate for the first 28 weeks; a higher rate between the 29th and 52nd week; and a long-term rate from the 53rd week of incapacity. It also com-

prises certain age additions and increases for adult and child dependants. A more objective medical test of incapacity for work was introduced for incapacity benefit as well as for other social security benefits paid on the basis of incapacity for work. This test applies after 28 weeks' incapacity for work and assesses ability to perform a range of work-related activities rather than the ability to perform a specific job. Benefit is taxable after 28 weeks. Some 1,881,000 claims were met in 1995-96.

*Maternity Benefit.* Women who do not qualify for statutory maternity pay may be entitled to maternity allowance if they satisfy a test of recent work and contributions paid. Maternity allowance can be paid for up to 18 weeks. Payment can start at the earliest 11 weeks before the expected week of confinement but the woman has some choice in deciding when to give up work and still retain title to the full 18 weeks. There were some 12,000 beneficiaries in 1995-96.

*Widow's Benefits.* From 11 April 1988 the three main widow's benefits are: Widow's payment, widowed mother's allowance, widow's pension.

A widow cannot get any widow's benefits based on her husband's National Insurance contributions (NIC) if: She had been divorced from the man who has died; or she was living with the man as if she were married to him, but without being legally married to him; or she is living with another man as if she is married to him; or she was in prison or held in legal custody. A widow can only get widow's benefits if her husband has paid enough NIC. *Widow's Payment* is a single tax-free payment of £1,000. A widow may be able to get this benefit if her husband has paid enough NIC and she was under 60 when her husband died; or her husband was not getting a State Retirement Pension when he died. *Widowed Mother's Allowance:* A widow may be able to get a widowed mother's allowance if her husband has paid enough NIC and she is receiving child benefit for one of her children, or her husband was receiving child benefit, or she is expecting her husband's baby, or if she was widowed before 11 April 1988 and has a young person under 19 living with her for whom she was receiving Child Benefit. A widow entitled to a widowed mother's allowance will get an amount based on her husband's NIC. She will also get benefit for her eldest dependent child and further higher benefit for each subsequent child and she may also get an additional pension based on her husband's earnings since 1978. Widowed mother's allowance is usually paid as long as the widow is getting child benefit. It is taxable. *Widow's Pension:* A widow may be able to get a widow's pension if her husband has paid enough NIC. She must be 45 or over (40 or over if widowed before 11 April 1988) when her husband died or when her widowed mother's allowance ends. A widow cannot get a widow's pension at the same time as a widowed mother's allowance. A widow who is entitled to a widow's pension will get an amount that depends on her age when her husband died or when her widowed mother's allowance ends. If she was 55 or over (50 or over if widowed before 11 April 1988) she will get the full rate of widow's pension. She may also get an additional pension based on her husband's earnings since 1978. If her late husband was a member of a contracted-out occupational scheme or a personal pension scheme that scheme is responsible for paying the whole or part of the additional pensions. Widow's pension is usually paid until the widow is entitled to state retirement pension, when she is 60 or older. Widow's pension is taxable. There were some 291,000 pensioners in 1995-96.

*Retirement Pension.* The state retirement ('old age') pension scheme has 2 components: A basic pension and an earnings-related pension (State Earnings Related Pension — SERPS). The amount of the first is subject to National Insurance contributions made; SERPS is 1.25% of average earnings between the lower weekly earnings limit for Class I contribution liability and the upper earnings limit for each year of such earnings, building up to 25% in 20 years. For individuals reaching pensionable age after 6 April 1999 changes in the way pensions are calculated will be phased in over 10 years to include a lifetime's earnings with an accrual rate of 20%. Pensions are payable to women at 60 years of age and men at 65, but the age differential will be progressively phased out starting in April 2010. Women born before 6 April 1950 will be unaffected; women born after 5 March 1955 will receive their pension at 65; pension age for women between these dates will move

up gradually from 60 to 65. There are standard rates for single persons and for married couples, the latter being 159% of 2 single-person rates. Proportionately reduced pensions are payable where contribution records are deficient.

Employees in an occupational scheme may be contracted out of SERPS provided that the occupational scheme provides a pension not less than the 'guaranteed minimum pension'. Self-employed persons, and also employees, may substitute personal pension schemes for SERPS. An independent statutory body, the Occupational Pension Board, is responsible for supervising contracted-out schemes.

Self- and non-employed persons may contribute voluntarily for retirement pension.

Persons who defer claiming their pension during the 5 years following retirement age are paid an increased amount, as do men and women who had paid graduated contributions. Although no further graduated contributions have been paid after April 1975, pension already earned will be paid along with the basic pension in the normal way. In 1995-96 some 10,322,000 persons were receiving pensions. Since 1 Oct 1989 the pension for which a person has qualified may be paid in full whether a person continues in work or not irrespective of the amount of earnings.

At the age of 80 a small age addition is payable. In addition non-contributory pensions are now payable, subject to residence conditions, to persons aged 80 and over who do not qualify for a retirement pension or qualify for one at a low rate. These pensions are financed by Exchequer funds.

Pensioners whose pension is insufficient to live on may qualify for Income Support.

#### *Non-Contributory Benefits.*

*Child Benefit.* Child benefit is a tax-free cash allowance for children normally paid to the mother. The weekly rates are highest for the eldest qualifying child and less for each other child. Child benefit is payable for children under 16, for 16 and 17 year olds registered for work or training and for those under 19 receiving full-time non-advanced education. Some 12,993,000 children in 7,125,000 families received benefit in 1995-96.

*One Parent Benefit* is a tax-free cash allowance for certain people bringing up children alone. It is payable for the first or only child in the family in addition to child benefit. There were some 1,067,000 beneficiaries in 1995-96.

*Child Support Agency.* The Agency, which started work in April 1993, is gradually replacing the court system for obtaining maintenance for children being brought up by single parents. The Agency is responsible for assessing, collecting and enforcing child maintenance payments and for tracing absent parents. Assessments are made using a formula which takes into account each parent's income and essential outgoings. Changes to the child support arrangements were introduced in Feb. 1994 to take account of concerns raised by members of the public and MPs. These are designed to reduce the amount of child maintenance that many absent parents are required to pay and to give some families more time to adjust to increased bills. Legislation of 1995 introduced the possibility of fixing maintenance alongside the formula-assessment method. Appeals on points of law may be made to the Child Support Commissioners. In 1994-95 the Agency took on 398,584 new cases and completed 568,149 assessments.

*Family Credit.* Family Credit is a tax-free benefit for working families with children. To be able to get Family Credit there must be at least one child under 16 in the family (or under 19 if in full-time education up to, and including, A level or equivalent standard). The claimant or partner (if there is one) must be working at least 16 hours a week to qualify. They may be employed or self-employed, a lone parent or a couple. The claim should be made by the woman in two-parent families. The amount of Family Credit payable depends on the income of the claimant and partner, how many children there are in the family and their ages. The same rates of benefit are paid for one-parent families as for two-parent families. There are adult rates as well as a rate for each child varying with age, payable if the family's income does not exceed a certain limit. The award is reduced by £0.70 for each

extra £1 earned. Family Credit is not payable if the claimant (or claimant and partner together) have savings or capital of over £8,000. Benefit is reduced if savings or capital of more than £3,000 is held. Family Credit is paid at the same rate for 26 weeks. The amount of the award will usually stay the same even if earnings, or other circumstances, change during that period. There were some 658,000 recipients in 1995–96.

*Earnings Top-up.* This was introduced in Oct. 1996 on a pilot basis in 8 areas. Wages for workers with dependent children are topped up. There are different rates for couples and single persons.

*Guardian's Allowance.* A person responsible for an orphan child may be entitled to a guardian's allowance in addition to child benefit. Normally both the child's parents must be dead but when they never married or were divorced, or one is missing, or serving a long sentence of imprisonment, the allowance may be paid on the death of one parent only.

*Attendance Allowance.* This is a tax-free Social Security benefit for disabled people over 65 who need help with personal care. The rates are increased for the terminally ill. There were some 1,162,000 recipients in 1995–96.

*Invalid Care Allowance.* This is a taxable benefit which may be paid to those who forgo the opportunity of full-time work to care for a person who is receiving attendance allowance, constant attendance allowance or the highest or middle-core component of Disability Living Allowance. There is a weekly rate, with increases for dependants. There were some 339,000 recipients in 1995–96.

*Disability Living Allowance.* This is a non-taxable benefit available to people disabled before the age of 65 who need help with getting around or with personal care for at least 3 months. The mobility component has 2 weekly rates, the care component has 3. There were some 1,771,000 recipients in 1995–96.

*Disability Working Allowance.* This is a tax-free benefit for people with an illness or disability which puts them at a disadvantage in getting a job. It is income-related and is intended for people who are starting work or already working at least 16 hours a week. The allowance is not payable if assets exceed £16,000. About 8,000 people received the allowance in 1995–96.

*Industrial Injuries Disablement and Death Benefits.* The Industrial Injuries Act, which also came into operation on 5 July 1948, with its later amending Acts, was consolidated as the National Insurance (Industrial Injuries) Act, 1965. This legislation was incorporated in the Social Security Act, 1975. The scheme provides a system of insurance against 'personal injury by accident arising out of and in the course of employment' and against certain prescribed diseases and injuries due to the nature of the employment. It takes the place of the Workmen's Compensation Acts and covers persons who are employed earners under the Social Security Act. There are no contribution conditions for the payment of benefit. Three types of benefit are provided:

*Disablement benefit.* This is payable where, as the result of an industrial accident or prescribed disease, there is a loss of physical or mental faculty. The loss of faculty will be assessed as a percentage by comparison with a person of the same age and sex whose condition is normal. If the assessment is between 14–100% benefit will be paid as weekly pension; 14–19% are payable at the 20% rate. The rates vary from 20% disabled to 100% disablement. Assessments of less than 14% do not normally attract basic benefit except for certain progressive chest diseases. Pensions for persons under 18 are at a reduced rate. When injury benefit was abolished for industrial accidents occurring and prescribed diseases commencing on or after 6 April 1983, a common start date was introduced for the payment of disablement benefit 90 days (excluding Sundays) after the date of the relevant accident or onset of the disease. The following increases can be paid with disablement benefit: Constant attendance allowance – where the disability for which the claimant is receiving disablement benefit is assessed at 100% and is so severe that they need constant care and attention. There are 4 rates depending on the amount of attendance needed. Ex-

ceptionally severe disablement allowance – where the claimant is in receipt of constant attendance allowance at one of the two higher rates and the need for attendance is likely to be permanent.

Reduced earnings allowance (REA) is a separate benefit. Entitlement exists if the claimant has not retired and cannot go back to their normal job or do another job for the same pay because of the effects of the disability caused by an accident or disease which occurred on or before 30 Sept. 1990. It can be paid whether or not disablement benefit is paid, providing the disablement benefit assessment is 1% or more (e.g. where disablement is assessed at less than 14%) and on top of 100% disablement benefit. From 1 Oct. 1989, if a claimant is of pensionable age (60 for a woman, 65 for a man) they can continue to receive REA if they are in regular employment, or in some cases if they are receiving Sickness Benefit, Invalidity Benefit or Unemployment Benefit. It will not matter whether or not they receive State Retirement Pension. If they are not in regular employment then entitlement to REA will cease. In most cases it will be replaced by Retirement Allowance.

*Death Benefit.* This is payable to the widow of a person who died before 11 April 1988 as the result of an industrial accident or a prescribed disease. Deaths which occurred on or after 11 April 1988 – a widow is entitled to full widow's benefits even if her late husband did not satisfy the contribution condition, if he died as a result of an industrial accident or prescribed disease.

Allowances may be paid to people who are suffering from pneumoconiosis or byssinosis or certain other slowly developing diseases due to employment before 5 July 1948. They must not at any time have been entitled to benefit for the disabled under the Industrial Injuries provision of the Social Security Act or compensation under Workmen's Compensation Acts or received damages through the courts.

In certain cases supplementation allowances are payable to people who are getting or are entitled to compensation under the Workmen's Compensation Acts.

*War Pensions.* Pensions are payable for disablement or death as a result of service in the armed forces, Merchant Navy or Civil Defence during war, or to civilians injured by enemy action. The amount depends on the degree of disablement. Various supplements may apply. There were some 331,000 recipients in 1995–96.

*Severe Disablement Allowance.* A severe disablement allowance as well as an age-related addition may be payable to people under pensionable age who have been continuously incapable of work for at least 28 weeks but who do not qualify for incapacity benefit. Those over 20 who are unable to work and are 80% disabled but do not qualify for the National Insurance invalidity pension because they have not paid sufficient contributions may be entitled to severe disablement allowance. Additions for adult dependants and for children may also be paid. There were some 368,000 beneficiaries in 1995–96.

*Housing Benefit.* The housing benefit scheme assists persons who need help to pay their rent, using general assessment rules and benefit levels similar to those for the income support scheme. People whose net income is below certain specified levels qualify for housing benefit of up to 100% of their rent. The scheme sets a limit of £16,000 on the amount of capital a person may have and still remain entitled. Restrictions on the granting of benefit to persons under 25 were introduced in 1995. In 1995–96 some 2,918,000 claims for rent rebate and 1,870,000 for rent allowance were made.

*Council Tax Benefit.* The scheme offers help to those claiming income support and others with low incomes. Subject to rules broadly similar to those governing the provision of income support and housing benefit, people may receive rebates of up to 100% of their council tax. In 1995–96 some 5,735,000 households received such help. A person who is liable for the council tax may also claim benefit (called 'second adult rebate') for a second adult who is not liable to pay the council tax and who is living in the home on a non-commercial basis.

*Income Support.* Under the Social Security Act, 1986, benefit was payable to any persons aged 18 years or over not in full-time work who were without adequate resources. Since 7 Oct. 1996, Income Support has been payable only to persons not

required to be available for work whose resources are below a certain level. These include single parents, pensioners, long-term sick or disabled persons and those caring for them who qualify for the invalid care allowance. Income Support is not payable if the claimant (or claimant and partner together) have savings or capital over £8,000. Benefit is reduced if savings or capital of more than £3,000 is held. A person who is excluded from benefit under the normal rules may receive payments to meet urgent need. Additional sums, known as premiums, are available. There were some 5,601,000 recipients in 1995–96 (under the 1986 Act).

*The Social Fund.* The Fund makes payments and loans to help recipients meet intermittent expenses. 'Regulated payments' comprise *Maternity Payments* (a payment of up to £100 for each baby expected, born or adopted, payable to persons receiving income support, income-based jobseekers' allowance, disability working allowance or family credit); *Funeral Payments* (a payment of reasonable funeral expenses up to £500 incurred by persons receiving income support, income-based jobseekers' allowance, housing benefit, Council Tax benefit, disability working allowance or family credit; recoverable from the estate of the deceased); *Cold Weather Payments* (a payment of £8.50 for any consecutive 7 days when the temperature is below freezing to persons receiving income support who are pensioners, disabled or have a child under 5). 'Discretionary Payments' comprise: *Community Care Grants* (payments to help persons receiving income support to move into the community or avoid institutional care); *Budgeting Loans* (interest-free loans to persons receiving income support for expenses difficult to budget for); *Crisis Loans* (interest-free loans to anyone without resources in an emergency where there is no other means of preventing serious risk to health or safety). Savings over £500 (£1,000 for persons aged 60 or over) are taken into account before payments are made.

**Health.** The National Health Service (NHS) in England and Wales started on 5 July 1948 under the National Health Service Act, 1946. There is a separate Act for Scotland.

The NHS is a charge on the national income in the same way e.g. as the armed forces. Every person normally resident in the UK is entitled to use any complete part of the services, and no insurance qualification is necessary.

Since 1948 a weekly NHS contribution has been payable by employees and the self-employed. In 1957 this contribution was extended to employers. For convenience this contribution is collected with the National Insurance contribution and amounts to 1.05% of the latter for employees and 0.9% for employers. The NHS is funded 12.1% by these contributions, 82% by general taxation and 2.3% by charges for drugs and dental treatment and the rest from other receipts. Health authorities may raise funds from voluntary sources; hospitals may take private paying patients.

*Organization.* The National Health Service and Community Care Act, 1990, provided for a major restructuring of the NHS. From 1 April 1991, health authorities became the purchasers of health care, concentrating on their responsibilities to plan and obtain services for their local residents by the placement of health service contracts with the appropriate units. Day-to-day management tasks became the responsibility of hospitals and other units, with whom the contracts are placed, in their capacity as providers of care.

In April 1996 the Regional Health Authorities were replaced by 8 regional offices of the NHS Executive. The District Health Authorities and Family Health Service Authorities were replaced by comprehensive Health Authorities directly financed by central governments Hospital and Community Health Services funds. The budget for 1996–97 was £2,260m.

The key responsibility of Health Authorities is to ensure that the health needs of their local communities are met. They have the purchasing power to commission hospital and community health services for their residents. In doing so they have a

duty to ensure that high standards are maintained and that they are securing the best possible value for money.

The Health Authorities manage the Family Doctor (or General Medical) Service and also organize the general dental, pharmaceutical and ophthalmic services for their areas. Any doctor may take part in the Family Doctor Service, and are paid for their NHS work; they may also take private fee-paying patients.

NHS Trusts are established as self-governing units within the NHS. Trusts are responsible for the ownership and management of the hospitals or other establishments or facilities vested in them, and for carrying out the individual functions set out in their establishment orders. In April 1996 there were 520 Trusts, representing most hospitals.

General practitioners (GPs) may apply for fundholding status, responsible for their own NHS budget for a specified range of goods and services. There are 2 types of fundholder: Standard fundholders for practices with at least 5,000 patients in England and 4,000 in Wales and Scotland, who purchase the full range of in- and out-patient services; and Community fundholders, for smaller practices of at least 3,000 patients, who purchase only community nursing services and diagnostic tests. In 1996 there were some 14,000 fundholding GPs in 3,300 practices, covering 47% of the population.

*Services.* The NHS broadly consists of hospital and specialist services, general medical, dental and ophthalmic services, pharmaceutical services, community health services and school health services. All these services are free of charge except for such things as prescriptions, spectacles, dental and optical examination, dentures and dental treatment, amenity beds in hospitals and for some of the community services, for which charges are made with certain exemptions.

The total cost of the NHS was estimated at £42,600m. for 1996–97.

In 1995 there were 26,702 GPs in England with an average of 1,887 patients each, 1,719 in Wales with 1,730 patients and 3,524 in Scotland with 1,506. There were 15,064 general dental practitioners in England, 817 in Wales and 1,764 in Scotland. In hospitals in Great Britain in 1995 there were 57,299 medical staff and 421,648 nurses and midwives (excluding agency staff). There were (1990) 338,630 average daily available hospital beds in the UK.

In the UK in 1995 there were 193 public and private hospices for the terminally ill with 2,982 beds.

**Personal Social Services.** Under the Local Authority Social Services Act, 1970, and in Scotland the Social Work (Scotland) Act, 1968, the welfare and social work services provided by local authorities were made the responsibility of a new local authority department—the Social Services Department in England and Wales, and Social Work Departments in Scotland headed by a Director of Social Work, responsibility in Scotland passing in 1975 to the local authorities. The social services thus administered include: the fostering, care and adoption of children, welfare services and social workers for people with learning difficulties and the mentally ill, the disabled and the aged, and accommodation for those needing residential care services. Legislation of 1996 permits local authorities to make cash payments as an alternative to community care. In Scotland the Social Work Departments' functions also include the supervision of persons on probation, of adult offenders and of persons released from penal institutions or subject to fine supervision orders.

Personal Social Services staff numbered 233,861 in 1995. The total cost of these services was estimated at £8,849m. for 1995–96. Expenditure is reviewed by the Social Services Inspectorate and the Audit Commission (in Scotland by the Social Work Services Inspectorate and the Accounts Commission).

## NORTHERN IRELAND

**KEY HISTORICAL EVENTS.** In the late 1960s a Civil Rights campaign and reactions to it escalated into serious rioting and sectarian violence involving the Irish Republican Army (IRA; an illegal organization aiming to unify Northern Ireland with the Republic of Ireland) and loyalist paramilitary organizations. Direct rule by the UK government began in 1972. For the efforts to reach a settlement between 1973 and 1995 see *THE STATESMAN'S YEAR-BOOK*, 1996-97, pp. 1364-65. The IRA announced 'a complete cessation of military operations' on 31 Aug. 1994. On 13 Oct. 1994 the anti-IRA Combined Loyalist Military Command also announced a ceasefire 'dependent upon the continued cessation of all nationalist republican violence'.

Talks between UK government officials and Sinn Féin ('Ourselves Alone', a pro-Republican nationalist party and the political wing of the IRA), and also with the political representatives of the loyalists, i.e. the Ulster Democratic Party and the Progressive Unionist Party, began in Dec. 1994 and continued at ministerial level in March and May 1995.

On 22 Feb. 1995 the British and Irish Prime Ministers (John Major and John Bruton) announced new joint UK-Irish proposals for a settlement in Northern Ireland contained in 2 documents: *A Framework for Accountable Government in Northern Ireland*, drawn up by the UK government, and *A New Framework for Agreement*, agreed by the UK and Irish governments.

The proposals envisaged: An elected single-chamber 90-member Northern Ireland assembly; a north-south body comprising members of this assembly and representatives of the Irish government and accountable to both. This body would have executive, harmonizing or consultative functions in matters designated by the UK and Irish parliaments, its decisions being reached by consensus; a standing inter-governmental conference to consider matters not transferred to the above proposed bodies; changes to the Irish constitution to withdraw the Republic's territorial claim to Northern Ireland if it were contrary to the will of a majority of its people; amendments to UK legislation to enable Northern Ireland's future status to be determined by a majority decision of its people; an undertaking by both governments to ensure the 'systematic and effective protection of common specified civil, political, social and cultural rights'.

On 28 Nov. 1995 the British and Irish Prime Ministers (John Major and John Bruton) agreed on a formula which would allow preliminary talks involving Northern Ireland's main political parties to start while a 3-member international body headed by former US Senator George Mitchell prepared a report on 'the arrangements necessary for the removal from the political equation' of paramilitary arms. The Mitchell commission report, published on 24 Jan. 1996, set out 6 principles to which all parties should adhere, including a commitment to renounce violence, verifiable disarmament of all paramilitaries and a pledge to adhere to any agreement reached through all-party negotiations. Concluding that the paramilitaries 'will not decommission any arms prior to all-party negotiations', the commission recommended that negotiations and decommissioning of weapons should proceed at the same time, and proposed a number of measures including an elective process. However, the British Prime Minister stated that, 'In the absence of prior decommissioning, there may well be another way forward', proposing elections to a temporary body which could be used as a forum for negotiations.

On 9 Feb. 1996 the IRA exploded a bomb in the Docklands area of London (the first of several incidents) and announced the end of their ceasefire.

Elections were held on 30 May to select delegates from among whom participants in negotiations may be drawn, constituting a 110-member forum to take part in talks with the British and Irish governments. Each of the 18 Northern Ireland constituencies returned 5 delegates. The 10 parties receiving the most votes received 2 extra delegates. Sinn Féin may participate in the forum, but not in the negotiations until the IRA restores its ceasefire. The Ulster Unionist Party won 30 seats with 24.2% of votes cast; the Social Democratic and Labour Party, 21 with 21.4%; the Democratic Unionist Party, 24 with 18.8%; Sinn Féin, 17 with 15.5%; the Alliance Party, 7 with 6.5%; the United Kingdom Unionist Party, 3 with 3.7%; the Pro-

gressive Unionist Party, 2 with 3.5%; the Ulster Democratic Party, 2 with 2.2%; the Northern Ireland Women's Coalition, 2 with 1%; Labour, 2 with 0.8%. The electorate was 1.1m.

Opening Plenary talks began under the chairmanship of Senator Mitchell on 12 June 1996, with Gen. John de Chastelain (Canada) and Harri Holkeri (Finland) as deputies. In the course of 1996 a Business Committee was set up and an agenda for the remainder of the Opening Plenary agreed by sufficient consensus.

A retaliatory bomb attack on a republican sympathizer on 22 Dec. 1996 marked the end of the observance of the ceasefire by paramilitary loyalist terrorists. However, the UK Secretary of State for Northern Ireland declared that the loyalist ceasefire remained intact, so when the Mitchell talks reconvened on 13 Jan. 1997 it was with the continued participation of the loyalist parties. At the beginning of 1997 discussion was focused on the decommissioning of arms, following which the talks were scheduled to divide into 3 sub-sections ('strands'): 1) New internal arrangements for Northern Ireland including some form of assembly; 2) Cross-border co-operation; 3) Relations between the UK and Irish governments.

**CONSTITUTION AND GOVERNMENT.** Northern Ireland is part of the United Kingdom. The Government of Ireland Act 1920 granted Northern Ireland its own bicameral parliament (*Stormont*), and between 1921 and 1972 it had responsibility for internal affairs. Following rioting and sectarian violence involving the IRA and loyalist paramilitary organizations, the Northern Ireland government resigned and direct rule by the UK government began in 1972. The Northern Ireland parliament was abolished in 1973.

Under the Northern Ireland Act 1974 the UK parliament approves all laws for Northern Ireland and the Northern Ireland departments are under the direction and control of a UK Cabinet Minister, the Secretary of State for Northern Ireland.

*Secretary of State for Northern Ireland:* Rt Hon. Marjorie ('Mo') Mowlam, MP.

*Local Government.* Northern Ireland has a single-tier system of 26 district councils based on main centres of population. Elections were held on 19 May 1993 for the 582 council seats. The Ulster Unionist Party gained 201 seats with 34.5% of votes cast, the Social Democratic and Labour Party 127 with 21.8%, the Democratic Unionist Party 102 with 17.5%, Sinn Féin 51 with 8.8%, the Alliance 44 with 7.6%, the Conservative Party 6 with 1.8%, others 22. Independents gained 29 seats with 5%.

## ECONOMY

**Policy.** The main Northern Ireland government department concerned with economic development is the Department of Economic Development (DED). The department and its agencies have responsibility for the promotion of inward investment and the development of larger home industry (Industrial Development Board, IDB); promotion of enterprise and small business (Local Enterprise Development Unit, LEDU); training and employment matters (Training and Employment Agency, T&EA); promotion of industrially-relevant research and development and technology transfer (Industrial Research and Technology Unit, IRTU); promotion and development of tourism (Northern Ireland Tourist Board, NITB); energy matters; mineral development; company regulation; consumer protection; health and safety at work; industrial relations; and equality of opportunity in employment.

The IDB's main aim is to encourage the development of internationally competitive companies in the manufacturing and tradeable service sectors and to attract new inward investment, contributing to growth in durable employment. During 1995-96, IDB secured 35 new and expansion inward investment projects offering 4,869 jobs. In addition, IDB assisted 28 projects by locally owned companies, promoting 809 new jobs and safeguarding a further 1,401 jobs.

The LEDU is the small business agency (for companies employing fewer than 50 people). It aims to strengthen the economy by encouraging enterprise and new business start-ups and by helping established small businesses achieve export-oriented, profitable growth. In 1995-96 LEDU assisted 1,550 new business start-ups. As a result, LEDU achieved 3,140 new jobs and a further 950 among existing businesses.

The T&EA is an Executive Agency within DED. It assists economic development and helps people find work through training and employment services on the basis of equality of opportunity. It works closely with employers and business interests, and with the other economic development agencies in making training relevant to local needs. In 1995-96 T&EA placed 38,655 people in employment. 352 companies were assisted in their training needs under the Company Development Programme. Jobskills, which commenced across Northern Ireland in April 1995, was on target to achieve 25% national vocational qualification (NVQ) Level 2 in autumn 1996 with a further target of 45% set for 1997-98.

The IRTU, an Executive Agency within DED, provides the focus for all aspects of industry-related technology and innovation policy, including grants for industrial research and development, information, advice, scientific testing and analysis services. In 1995-96, IRTU disbursed £12.3m. of Government funding to Research and Development projects; in addition, IRTU enabled companies to obtain support under EU programmes.

**Currency.** Banknotes are issued by Allied Irish Banks, Bank of Ireland, First Trust Bank, Northern Bank and Ulster Bank.

**Public Finance.** The Finance Department is responsible for control of the expenditure of Northern Ireland departments, liaison with HM Treasury and the Northern Ireland Office on financial matters, economic and social research and analysis,

Citizens Charter Unit, the Valuation and Lands Agency, the Government Purchasing Service (Northern Ireland) and the Legal Services.

The above amount of public debt is offset by equal assets in the form of loans from Government to public and local bodies and of cash balances.

## ENERGY AND NATURAL RESOURCES

**Electricity.** There are 4 power stations with an installed capacity of some 2,400 MW.

**Gas.** British Gas, which purchased Ballylumford power station, has plans to convert it to gas firing. This will involve the construction of an undersea pipeline from Scotland and will enable the eventual supply of natural gas to the wider Northern Ireland energy market.

## INDUSTRY

**Labour.** The main sources of employment statistics are the Census of Employment, conducted every 2 years, and the Quarterly Employment Survey. In June 1995 there were 569,670 employees in employment, of whom 284,550 were males. The average level of seasonally-adjusted unemployment between Jan. and Sept. 1995 was 11.7% of the workforce, 88,600. In June 1995 employment in manufacturing and construction amounted to 127,010, just over 22% of the total employees in employment. In June 1994, 19,290 persons were engaged in the food, drink and tobacco industries, 14,800 in clothing and footwear, 10,110 in textiles, 8,690 in aircraft, ship-building and other transport equipment (except motor vehicles), 21,560 in construction and 47,990 in other sectors of manufacturing.

**Tourism.** 1,557,000 visitors came to Northern Ireland in 1995, contributing £214m. to the economy. The Northern Ireland Tourist Board is responsible for encouraging tourism.

9 Areas of Outstanding Natural Beauty and 45 National Nature Reserves have been declared, and there are many country and regional parks.

## COMMUNICATIONS

**Roads.** Ulsterbus and Citybus have been combined with the railway company as Translink.

At 31 March 1995 there were 1,921 professional hauliers and 4,356 vehicles licensed to engage in road haulage.

The number of motor vehicles licensed at 31 Dec. 1994 was 595,951, comprising private cars, 514,760; motor cycles, scooters and mopeds, 8,775; hackney vehicles, 3,078; goods vehicles, 20,714; special machines, 7,671. In addition, there were 40,953 vehicles which were not subject to licence duty.

At 1 April 1993 the total mileage of roads was 15,060, graded for administrative purposes as follows: Motorway 70 miles; Class I dual carriageway, 95 miles; Class I single carriageway, 1,287 miles; Class II, 1,770 miles; Class III, 2,935 miles; unclassified, 8,903 miles.

**Railways.** Railways are operated by Translink. The number of track-km operated is 478.8. In 1994-95 railways carried 6.1m. passengers.

**Civil Aviation.** There are scheduled air services to 3 airports in Northern Ireland. Belfast International Airport is the main airport. Services are provided by Aer Lingus, Air Belfast, American Transair, British Airways, British Midland, Night Air, KLM and Maersk Air. In 1994, it handled 2.1m. passengers and 37,722 tonnes of freight and mail. Belfast City Airport offers commuter services to 15 regional airports in Great Britain as well as services to London-Heathrow, -Gatwick and -Luton and to the Isle of Man and Channel Islands. In 1994 it handled 1.2m. passengers. Eglinton Airport, situated 16km from Londonderry, provides services from the north-west of Ireland to Glasgow and Manchester. In 1994, 34,000 passengers were handled. There are two other licensed airfields at St Angelo and Newtownards, used principally by flying clubs, private owners and air taxi businesses.

**Shipping.** There are passenger services from Belfast to Liverpool and Stranraer and from Larne to Cairnryan. Drive-on/drive-off cargo services operate from Belfast and Larne to other UK ports. Belfast, Londonderry and Warrenpoint offer conventional cargo services. A new port at Londonderry opened in 1993.

## SOCIAL INSTITUTIONS

**Justice.** The Lord Chancellor has responsibility for the administration of all courts through the Northern Ireland Court Service and for the appointment of judges and magistrates. The court structure has 3 tiers: The Supreme Court of Judicature of Northern Ireland (comprising the Court of Appeal, the High Court and the Crown Court), the County Courts and the Magistrates' Courts. There are 21 Petty Sessions districts which when grouped together for administration purposes form 7 County Court Divisions and 4 Crown Court Circuits.

The County Court has general civil jurisdiction subject to an upper monetary limit. Appeals from the Magistrates' Courts lie to the County Court, or to the Court of Appeal on a point of law, while appeals from the County Court lie to the High Court or, on a point of law, to the Court of Appeal.

**Police.** The police force consists of the Royal Ulster Constabulary, supported by the Royal Ulster Constabulary Reserve, a mainly part-time force.

**Religion.** According to the census of 1991 there were: Roman Catholics, 605,639; Presbyterians, 336,891; Church of Ireland, 279,280; Methodists, 59,517. Those belonging to other denominations numbered 122,448; to none, 59,234. 114,827 persons did not answer the voluntary question on religion.

**Education.** Public education, other than university education, is presently administered centrally by the *Department of Education for Northern Ireland* and locally by 5 Education and Library Boards. From 1 April 1998 the Department intends, subject to the approval of Parliament, to reduce the number of Boards from 5 to 3. The Department is concerned with the whole range of education from nursery education through to higher education and continuing education; for sport and recreation; for youth services; for the arts and culture (including libraries) and for the development of community relations within and between schools.

Each *Education and Library Board* is the local education authority for its area. Boards were first appointed in 1973, the year of local government reorganization, and are normally reappointed every 4 years following the District Council elections. The existing 5 Boards were last reconstituted on 1 July 1993 and it is expected that their term of office will be extended until their replacement on 1 April 1998 by 3 new Boards. The membership of each Board consists of District councillors, representatives of transferors of schools, representatives of trustees of maintained schools and other persons who are interested in the service for which the Board is responsible. Boards have a duty, amongst other things, to ensure that there are sufficient schools of all kinds to meet the needs of their areas. The Boards are responsible for costs associated with capital works at controlled schools. Voluntary schools, including maintained and voluntary grammar schools, can receive grant-aid from the Department of Education toward capital works of up to 85%, or 100% if they have opted to change their management structures so that no single interest group has a majority of nominees. Most voluntary grammar schools can receive the same rate of grant on the purchase of equipment. The Boards award university and other scholarships; they provide school milk and meals; free books and transport for pupils; they enforce school attendance; provide a curriculum advisory and support service to all schools in their area; regulate the employment of children and young people; and secure the provision of youth and recreational facilities. They are also required to develop a comprehensive and efficient library service for their area. Board expenditure is funded at 100% by the Department of Education. Integrated schools receive 100% funding for recurrent costs from the Department of Education, and, where long-term viability has been established, for capital works.

The Education Reform (NI) Order 1989 made provision for the setting up of a *Council for Catholic Maintained Schools* with effect from April 1990. The Council has responsibility for all maintained schools under Roman Catholic Management which are under the auspices of the diocesan authorities and of religious orders. The main objective of the Council is to promote high standards of education in the schools for which it is responsible. Its functions include providing advice on matters relating to its schools, the employment of teaching staff and administration of appointment procedures, the promotion of effective management and the promotion and co-ordination of effective planning and rationalization of school provision in the Catholic Maintained sector. The membership of the Council consists of trustee representatives appointed by the Northern Roman Catholic Bishops, parents, teachers, and persons appointed by the Head of the Department of Education in consultation with the Bishops.

**Integrated Schools.** In recent years a small number of integrated schools have been established at primary and post-primary levels with the aim of providing education

for Roman Catholic and Protestant children together. These schools began as independent schools and qualified for public funding (on the same basis as other non-state schools) when their longer-term viability had been adequately demonstrated. The Education Reform (NI) Order 1989 has introduced new measures whereby new integrated schools may receive public funding right from the start. Grant Maintained Integrated schools are eligible for grants on capital works, including purchase of sites and buildings and equipment, at the rate of 100%. At Oct. 1996 there were 32 integrated schools with total enrolments of some 6,000 pupils, about 2% of all pupils.

*Nursery Education* is provided in nursery schools or nursery classes in primary schools. There were 91 nursery schools in 1995-96, with 5,411 pupils and 176 teachers.

*Primary Education* is from 4 to 11 years. In 1995-96 there were 923 primary schools with 187,336 pupils and 9,250 teachers. There were also 25 preparatory departments of grammar schools with 3,451 pupils and 171 teachers.

*Secondary Education* is from 11 to 18 years. In 1995-96 there were 71 grammar schools with 61,150 pupils and 3,767 teachers and 165 secondary schools with 90,426 pupils and 6,514 teachers.

*Further Education.* There were 17 institutions of further education in 1995-96 with 2,156 full-time and 3,154 part-time teachers and an enrolment of 23,934 full-time, 26,254 part-time day and 29,625 evening students on vocational courses; and about 50,000 students on non-vocational (mostly evening) courses.

*Special Education.* The Education and Library Boards provide for children with special educational needs up to the age of 19. This provision may be made in ordinary classes in primary or secondary schools or in special units attached to those schools or in special schools. In 1995-96 there were 50 special schools with 4,824 pupils. This includes 3 hospital schools.

*Universities.* There are 2 universities: The Queen's University of Belfast (founded in 1849 as a college of the Queen's University of Ireland and reconstituted as a separate university in 1908) had 136 professors, 274 readers and senior lecturers, 341 lecturers, 16 other grades of academic staff and 13,228 full-time students in 1994-95 academic year. The University of Ulster, formed on 1 Oct. 1984, has campuses in Belfast, Coleraine, Jordanstown and Londonderry. In 1994-95 academic year the University had 107 professors, 245 readers and senior lecturers, 494 lecturers, 20 other grades of academic staff and 12,573 full-time students.

*Teacher training* takes place at both universities and at 2 colleges of education: Stranmillis, and St. Mary's, the latter mainly for the primary school sector, in respect of which 4-year (Hons) BEd courses and one-year Postgraduate Certificate in Education (PGCE) courses are available. The training of teachers for secondary schools is provided, in the main, in the education departments of the 2 universities, but 4-year (Hons) BEd courses are also available in the colleges for intending secondary teachers of religious education, business studies and craft, design and technology. Part-time PGCE courses (primary and secondary) are available through the Open University. There were a total of 1,802 students (1,410 women) in training at the 2 colleges and the 2 universities during 1995-96. The principal initial teacher-training courses are the Bachelor of Education (4-year honours), BA (Hons) with education (4-year) and the one year Certificate of Education for graduates.

Expenditure by the Department of Education (1995-96) was £1,354m.

**Health and Personal Social Services.** The Department of Health and Social Services is responsible for the provision of integrated health and personal social services. 4 Health and Social Services Boards are responsible for assessing the requirements of their resident populations and for purchasing appropriate services. Since 1 April 1996 services have been delivered exclusively by HSS Trusts (similar to NHS Trusts in the rest of the UK) established under the Health and Personal Social Services (NI) Order 1991. A total of 20 HSS Trusts are fully operational. 8 HSS Trusts

based on acute hospitals and the regional Northern Ireland Ambulance Service are identical in structure and management to NHS Trusts in Great Britain. Of the remaining 11, 2 provide community based health and personal social services and the other 9 provide both hospital and community based health and personal social services, reflecting the integrated nature of these services in Northern Ireland.

**Social Security.** Social security schemes are similar to those in Great Britain.

**National Insurance.** During the year ended 31 March 1996 the expenditure of the National Insurance Fund at £1,136.6m. exceeded contributions by £253.7m. The shortfall in income was made up by a Treasury Grant, investment income and a transfer from the Great Britain Fund.

Total benefit expenditure was £1,059.9m., excluding £3.1m. which was subsequently recovered from damages paid to recipients of National Insurance Fund Benefits.

£2.7m. was paid in Sickness Benefit and employers received £1m. reimbursement in respect of Statutory Sick Pay paid to their employees. £29.5m. was paid in Unemployment Benefit. Widows Benefit amounted to £34.3m. and Retirement Pensions to £660.1m. Invalidity and Incapacity Benefits totalled £328.8m. ## BRITISH DEPENDENT TERRITORIES

After the retrocession of Hong Kong to China on 1 July 1997, 13 territories remained under British sovereignty as a legacy of the former Empire. 3 of these (British Antarctic Territory, British Indian Ocean Territory and South Georgia and the South Sandwich Islands) have no resident populations and are administered by a commissioner instead of a governor.

Gibraltar is an enclave in Spain; the remainder are islands in the Caribbean and South Atlantic. Gibraltar and the Falkland Islands are the subjects of territorial claims by Spain and Argentina respectively.

Governors of Dependent Territories are appointed by the Queen, and are responsible for external affairs, internal security and the public service. Territories have their own elected legislatures and ministers, but final responsibility for government belongs to the Foreign and Commonwealth Office in London. For the Caribbean Territories some aspects of administration are carried out by the Dependent Territories Regional Secretariat in Barbados. The citizenship status of residents is defined in the British Nationality Act 1981.

## ANGUILLA

**KEY HISTORICAL EVENTS.** After British colonization in 1650, the territory was administered as part of the Leeward Islands. From 1825 it became more closely associated with St Kitts and ultimately incorporated in the colony of St Kitts-Nevis-Anguilla. Opposition to this association grew and in 1967 the island seceded unilaterally. Following direct intervention by the UK in 1969 Anguilla became a separate dependency of Britain on 19 Dec. 1980 under the Anguilla Act 1980. A new Constitution came into effect in April 1982.

**TERRITORY AND POPULATION.** Anguilla is the most northerly of the Leeward Islands, some 70 miles (112 km) to the north-west of St Kitts and 5 miles (8 km) to the north of St Martin/Sint Maarten. The territory also comprises the island of Sombrero and several other off-shore islets or cays. The total area of the territory is about 60 sq. miles (155 sq. km). Census population (1984) was 6,897. Population estimate, 1997, 10,663. The capital is The Valley.

**CONSTITUTION AND GOVERNMENT.** A set of amendments to the constitution came into effect in 1990, providing for a Deputy Governor, a Parliamentary Secretary and an Opposition Leader. The *House of Assembly* consists of

a Speaker, Deputy Speaker, 7 directly elected members for 5-year terms, 2 nominated members and 2 *ex-officio* members: the Deputy Governor and the Attorney-General.

The Governor discharges his executive powers on the advice of an Executive Council comprising a Chief Minister, 3 Ministers and 2 *ex-officio* members: the Deputy Governor, Attorney-General and the Secretary to the Executive Council.

Elections were held in March 1994 for the House of Assembly. The Anguilla National Alliance gained 2 seats, the Anguilla National Party (ANP), 2, the Anguillan Democratic Party, 2 and ind, 1.

## FALKLAND ISLANDS

**KEY HISTORICAL EVENTS.** France established a settlement in 1764 and Britain a second settlement in 1765. In 1770 Spain bought out the French and drove off the British. This action on the part of Spain brought that country and Britain to the verge of war. The Spanish restored the settlement to the British in 1771, but the settlement was withdrawn on economic grounds in 1774. In 1806 Spanish rule was overthrown in Argentina, and the Argentine claimed to succeed Spain in the French and British settlements in 1820. The British objected and reclaimed their settlement in 1832 as a Crown Colony.

On 2 April 1982 Argentine forces occupied the Falkland Islands. On 3 April the UN Security Council called, by 10 votes to 1, for Argentina's withdrawal. After a military campaign, but without a formal declaration of war, the UK regained possession on 14–15 June after Argentina surrendered.

In April 1990 Argentina's Congress declared the Falkland and other British-held South Atlantic islands part of the new Argentine province of Tierra del Fuego.

**TERRITORY AND POPULATION.** The Territory comprises numerous islands situated in the South Atlantic Ocean about 480 miles north-east of Cape Horn covering 4,700 sq. miles. The main East Falkland Island, 2,610 sq. miles; the West Falkland, 2,090 sq. miles, including the adjacent small islands. The population at the census of 1996 was 2,607. The only town is Stanley, in East Falkland, with a population of 1,636. The population is nearly all of British descent, with 1,267 born in the Islands (1996 census figures) and 885 in the UK. A British garrison of about 2,000 servicemen, stationed in East Falkland in 1991, is not included in the 1996 census figures, but the 483 civilians employed there are.

**CLIMATE.** A cool temperate climate, much affected by strong winds, particularly in spring. Stanley. Jan. 49°F (9.4°C), July 35°F (1.7°C). Annual rainfall 27" (681 mm).

**CONSTITUTION AND GOVERNMENT.** A new Constitution came into force on 3 Oct. 1985. This incorporated a chapter protecting fundamental human rights and in the preamble recalled the provisions on the right of self-determination contained in international covenants.

Executive power is vested in the Governor who must consult the Executive Council except on urgent or trivial matters. He must consult the Commander British Forces on matters relating to defence and internal security (except police).

There is a *Legislative Council* consisting of 8 elected members and 2 *ex officio* members, the Chief Executive and Financial Secretary. Only elected members have

a vote. The Commander British Forces has a right to attend and take part in its proceedings but has no vote. The Attorney General also has a similar right to take part in proceedings with the consent of the person presiding. The Governor presides over sittings. He also presides over sittings of the Executive Council which consists of 3 elected members (elected by and from the elected members of Legislative Council) and the Chief Executive and Financial Secretary (*ex officio*). The Commander British Forces and Attorney General have a right to attend but may not vote.

Elections were scheduled for Oct. 1997.

British citizenship was withdrawn by the British Nationality Act 1981, but restored after the Argentine invasion of 1982.

*Governor:* Richard Ralph, CVO.

*Chief Executive:* Andrew Gurr.

## ENERGY AND NATURAL RESOURCES

**Oil.** The UK government authorized exploration for oil in Nov. 1991 in the 200-mile economic exclusion zone except where it overlapped Argentina's zone in the west. An Anglo-Argentine agreement of 27 Sept. 1995 establishes 2 legal frameworks for marine oil exploration areas without prejudice to either country's claim to sovereignty over the Falkland Islands. The first, close to the Islands, is to have licensing terms which give companies 22 years to explore and complete drilling. The second extends between the Islands and Argentina wherein licensing will be overseen by a joint Anglo-Argentine commission. Argentina may bid for licences in the first area, and draws revenue directly from the second.

**Agriculture.** The economy was formerly based solely on agriculture, principally sheep farming. Following a programme of sub-division, much of the land is divided into family size units. There were 100 farms in 1997, averaging 33,600 acres and 8,200 sheep. During 1991 the Falklands Islands Co. sold its agricultural holdings to the Falkland Island government. Less than 5% of the total land area is owned outside the islands. Wool is the principal product; output was 2,521 tonnes in 1991. In 1997 there were over 700,000 sheep.

**Fisheries.** Since the establishment of a 150-mile interim conservation and management zone around the Islands in 1986 and the consequent introduction, on 1 Feb. 1987, of a licensing regime for vessels fishing within the zone, income from the associated fishing activities is now the largest source of revenue. Licences raised £25m. in 1992. Some 0.2m. tonnes of illex squid are caught annually. In 1994 Argentina's quota was raised to 0.22m. tonnes; that of the Falkland Islands

remained at 0.15m. tonnes. 79,803 tonnes were caught in the Falklands zone in 1996. 61,360 tonnes of Patagonian squid and 23,515 tonnes of blue whiting were also caught.

On 26 Dec. 1990 the Falklands outer conservation zone was introduced which extends beyond the 150 mile zone out to 200 miles from baselines. In Nov. 1992 commercial fishing in the outer zone was banned, the zone was reopened to fishing in 1994. A UK-Argentine South Atlantic Fisheries Commission was set up in 1990; it meets at least twice a year.

**EXTERNAL ECONOMIC RELATIONS.** 90% of trade is with the UK, the rest with Latin America, mainly Chile. In 1995 imports totalled £17m.; exports (mainly wool), £3.5m.

Total trade between the Falkland Islands and UK (British Department of Trade returns, in £1,000 sterling):

	1992	1993	1994	1995	1996
Imports to UK	3,091	4,317	4,516	4,721	5,568
Exports and re-exports from UK	13,100	10,380	9,360	15,665	19,932

**Tourism.** There are about 200 tourists and 5,000 cruise ship visitors a year.

## COMMUNICATIONS

**Roads.** There are 27 km of made-up roads in and around Stanley and another 54 km of all-weather road between Stanley and Mount Pleasant Airport. Other settlements outside Stanley are linked by tracks. There were about 1,100 private cars in 1996.

**Civil Aviation.** Air communication is currently via Ascension Island. An airport, completed in 1986, is sited at Mount Pleasant on East Falkland. RAF Tristar aircraft operate a twice-weekly service between the Falklands and the UK. Internal air links are provided by the government-operated air service, which carries passengers, mail, freight and medical patients between the settlements and Stanley on non-scheduled flights in Islander aircraft. A Chilean airline runs a weekly service to Punta Arenas.

**Shipping.** A charter vessel calls 4 or 5 times a year to/from the UK. Vessels of the Royal Fleet Auxiliary run regularly to South Georgia. Sea links with Chile and Uruguay began in 1989.

**Telecommunications.** Number of telephones (Sept. 1991) 1,180. International direct dialling is available, as are international telex and facsimile links. There is a government-operated radio and TV station at Stanley.

## SOCIAL INSTITUTIONS

Judges may only be removed for inability or misbehaviour on the advice of the judicial committee of the Privy Council. The senior resident judicial officer is the Senior Magistrate. There is an Attorney General and a Senior Crown Counsel.

*Immigration:* The Immigration and Nationality Act, as amended, provides for the numerical limitation of most immigration. The Immigration Act of 1990 established major revisions in the numerical limits and preference system regulating legal immigration. The numerical limits are imposed on visas issued and not admissions. The maximum number of visas allowed to be issued under the preference categories in 1994 was 369,213: 226,000 for family-sponsored immigrants and 143,213 for employment-based immigrants. There are 9 categories among which the family-sponsored and employment-based immigrant visas are distributed. The family-sponsored preferences are: 1) unmarried sons and daughters of US citizens; 2) spouses, children, and unmarried sons and daughters of permanent resident aliens; 3) married sons and daughters of US citizens; 4) brothers and sisters of US citizens.

The employment-based preferences are: 1) priority workers (persons of extraordinary ability, outstanding professors and researchers, and certain multinational executives and managers); 2) professionals with advanced degrees or aliens with exceptional ability; 3) skilled workers, professionals (without advanced degrees), and needed unskilled workers; 4) special immigrants; and 5) employment creation immigrants (investors). Within the overall limitations the per-country limit for independent countries is set to 7% of the total family and employment limits, while dependent areas are limited to 2% of the total. The 1994 limit allowed no more than 25,844 preference visas for any independent country and 7,384 for any dependency. Immigrants not subject to any numerical limitation are spouses, children, and parents of US citizens who are 21 years of age or older; certain former US citizens; ministers of religion; certain long-term US government employees; refugees and asylum-seekers adjusting to immigrant status; and certain other groups of immigrants.

Immigration data for 1994 include 6,022 aliens who were admitted as permanent residents under the legalization programme created by the Immigrant Reform and Control Act of 1986. These aliens have resided in the USA since before 1982 or were agricultural workers on perishable crops and have qualified as temporary residents under the first phase of the legalization programme; in the fiscal year 1989, they began qualifying for permanent status.

The total number of immigrants admitted from 1820 up to 30 Sept. 1994 was 61,503,866; this included 7,126,132 from Germany, and 5,421,949 from Italy.

Aliens coming to the USA for temporary periods of time are classified as non-immigrants. During fiscal year 1994, a total of 22,118,706 non-immigrants were admitted. This total includes multiple entries but excludes border crossers, crewmen and insular travellers. Tourists numbered 17,154,834, with 9,573,609 coming from the Caribbean, Germany, Japan, Mexico and the UK. There were 1,068,170 aliens expelled during fiscal year 1994. Of this number, 39,620 were deported and 1,028,550 were required to depart without formal orders of deportation.

During fiscal year 1994, 407,398 persons became US citizens through naturalization, including 342,863 naturalized under the general provisions of 5-year residence in the USA, 32,659 spouses and children of US citizens and 5,713 members of the US Armed Forces. The new citizens included 30,278 from China and Taiwan, 15,896 from Cuba, 5,622 from Italy, 12,173 from Jamaica, 11,389 from Korea, 39,310 from Mexico, 37,304 from the Philippines and 26,833 from Vietnam.

**CLIMATE.** For temperature and rainfall figures, *see* entries on individual states as indicated by regions, below, of mainland USA.

*Pacific Coast.* The climate varies with latitude, distance from the sea and the effect of relief, ranging from polar conditions in North Alaska through cool to warm temperate climates further south. The extreme south is temperate desert. Rainfall everywhere is moderate. *See* Alaska, California, Oregon, Washington.

*Mountain States.* Very varied, with relief exerting the main control; very cold in the north in winter, with considerable snowfall. In the south, much higher temperatures and aridity produce desert conditions. Rainfall everywhere is very variable as a result of rain-shadow influences. *See* Arizona, Colorado, Idaho, Montana, Nevada, New Mexico, Utah, Wyoming.

*High Plains.* A continental climate with a large annual range of temperature and moderate rainfall, mainly in summer, although unreliable. Dust storms are common in summer and blizzards in winter. *See* Nebraska, North Dakota, South Dakota.

*Central Plains.* A temperate continental climate, with hot summers and cold winters, except in the extreme south. Rainfall is plentiful and comes at all seasons, but there is a summer maximum in western parts. *See* Mississippi, Missouri, Oklahoma, Texas.

*Mid-West.* Continental, with hot summers and cold winters. Rainfall is moderate, with a summer maximum in most parts. *See* Indiana, Iowa, Kansas.

*Great Lakes.* Continental, resembling that of the Central Plains, with hot summers but very cold winters because of the freezing of the lakes. Rainfall is moderate with a slight summer maximum. *See* Illinois, Michigan, Minnesota, Ohio, Wisconsin.

*Appalachian Mountains.* The north is cool temperate with cold winters, the south warm temperate with milder winters. Precipitation is heavy, increasing to the south but evenly distributed over the year. *See* Kentucky, Pennsylvania, Tennessee, West Virginia.

*Gulf Coast.* Conditions vary from warm temperate to sub-tropical, with plentiful rainfall, decreasing towards the west but evenly distributed over the year. *See* Alabama, Arkansas, Florida, Louisiana.

*Atlantic Coast.* Temperate maritime climate but with great differences in temperature according to latitude. Rainfall is ample at all seasons; snowfall in the north can be heavy. *See* Delaware, District of Columbia, Georgia, Maryland, New Jersey, New York, North Carolina, South Carolina, Virginia.

*New England.* Cool temperate, with severe winters and warm summers. Precipitation is well distributed with a slight winter maximum. Snowfall is heavy in winter. *See* Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont. *See* also Hawaii and Outlying Territories.

**CONSTITUTION AND GOVERNMENT.** The form of government of the USA is based on the constitution of 17 Sept. 1787.

By the constitution the government of the nation is composed of three co-ordinate branches, the executive, the legislative and the judicial.

The Federal Government has authority in matters of general taxation, treaties and other dealings with foreign countries, foreign and inter-state commerce, bankruptcy, postal service, coinage, weights and measures, patents and copyright, the armed forces (including, to a certain extent, the militia), and crimes against the USA; it has sole legislative authority over the District of Columbia and the possessions of the USA.

The 5th article of the constitution provides that Congress may, on a two-thirds vote of both houses, propose amendments to the constitution, or, on the application of the legislatures of two-thirds of all the states, call a convention for proposing amendments, which in either case shall be valid as part of the constitution when ratified by the legislatures of three-fourths of the several states, or by conventions in three-fourths thereof, whichever mode of ratification may be proposed by Congress. Ten amendments (called collectively 'the Bill of Rights') to the constitution were added 15 Dec. 1791; two in 1795 and 1804; a 13th amendment, 6 Dec. 1865, abolishing slavery; a 14th in 1868, including the important 'due process' clause; a 15th, 3 Feb. 1870, establishing equal voting rights for white and coloured; a 16th, 3 Feb. 1913, authorizing the income tax; a 17th, 8 April 1913, providing for popular election of senators; an 18th, 16 Jan. 1919, prohibiting alcoholic liquors; a 19th, 18 Aug. 1920, establishing woman suffrage; a 20th, 23 Jan. 1933, advancing the date of the President's and Vice-President's inauguration and abolishing the 'lameduck' sessions of Congress; a 21st, 5 Dec. 1933, repealing the 18th amendment; a 22nd, 26 Feb. 1951, limiting a President's tenure of office to 2 terms, or to 2 terms plus 2 years in the case of a Vice-President who has succeeded to the office of a President; a 23rd, 30 March 1961, granting citizens of the District of Columbia the right to vote in national elections; a 24th, 4 Feb. 1964, banning the use of the poll-tax in federal elections; a 25th, 10 Feb. 1967, dealing with Presidential disability and succession; a 26th, 22 June 1970, establishing the right of citizens who are 18 years of age and older to vote; a 27th, 7 May 1992, providing that no law varying the compensation of Senators or Representatives shall take effect until an election has taken place.

*National flag:* Seven red and 6 white alternating stripes, horizontal; with a blue canton, extending down to the lower edge of the 4th red stripe from the top, and displaying 50 white 5-pointed stars, one for each state. The stars have one point directed vertically upward, and they are arranged in 6 rows of 5 each, alternating with 5 rows of 4 each. On the admission of additional states, stars are added, effective on 4 July following the date of admission. Congress, by law of 22 Dec. 1942, has codified 'existing rules and customs' pertaining to the display of the flag, for civilians.

*National anthem:* The Star-spangled Banner, 'Oh say, can you see by the dawn's early light'; words by F. S. Key, 1814, tune by J. S. Smith; formally adopted by Congress 3 March 1931.

*National motto:* 'In God we trust'; formally adopted by Congress 30 July 1956.

**Presidency.** The executive power is vested in a president, who holds office for 4 years, and is elected, together with a vice-president chosen for the same term, by electors from each state, equal to the whole number of senators and representatives to which the state may be entitled in the Congress. The President must be a natural-born citizen, resident in the country for 14 years, and at least 35 years old.

The presidential election is held every fourth (leap) year on the Tuesday after the first Monday in November. Technically, this is an election of presidential electors, not of a president directly; the electors thus chosen meet and give their votes (for the candidate to whom they are pledged, in some states by law, but in most states by custom and prudent politics) at their respective state capitals on the first Monday after the second Wednesday in December next following their election; and the votes of the electors of all the states are opened and counted in the presence of both Houses of Congress on the sixth day of January. The total electorate vote is one for

each senator and representative. Electors may not be a member of Congress or hold federal office. If no candidate secures the minimum 270 college votes needed for outright victory, the 12th Amendment to the Constitution applies, and the House of Representatives chooses a president from among the first 3 finishers in the electoral college. (This last happened in 1824).

If the successful candidate for President dies before taking office the Vice-President-elect becomes President; if no candidate has a majority or if the successful candidate fails to qualify, then, by the 20th amendment, the Vice-President acts as President until a president qualifies. The duties of the Presidency, in absence of the President and Vice-President by reason of death, resignation, removal, inability or failure to qualify, devolve upon the Speaker of the House under legislation enacted 18 July 1947. And in case of absence of a Speaker for like reason, the presidential duties devolve upon the President *pro tem.* of the Senate and successively upon those members of the Cabinet in order of precedence, who have the constitutional qualifications for President.

The presidential term, by the 20th amendment to the constitution, begins at noon on 20 Jan. of the inaugural year. This amendment also installs the newly elected Congress in office on 3 Jan. instead of—as formerly—in the following December. The President's salary is \$200,000 per year (taxable), with in addition \$50,000 to assist in defraying expenses resulting from official duties. Also he may spend up to \$100,000 non-taxable for travel and \$20,000 for official entertainment. The office of Vice-President carries a salary of \$171,500 and \$10,000 allowance for expenses, all taxable. The Vice-President is *ex-officio* President of the Senate, and in the case of 'the removal of the President, or of his death, resignation, or inability to discharge the powers and duties of his office', he becomes the President for the remainder of the term.

*President of the United States:* William (Bill) Jefferson Blythe IV Clinton, of Arkansas, b. 1946. (Governor of Arkansas, 1979–81, 1983–92).

*Vice President:* Albert Gore, of Tennessee, b. 1948 (House of Representatives, 1977–85; Senate, 1985–).

At the Presidential election on 5 Nov. 1996 turn-out was 49% (55.9% in 1992). Bill Clinton (D.) received 45,590,703 votes (49%), Bob Dole (R.) 37,816,307 (41%) and Ross Perot (Reform Party) 7,866,284 (8%). Electoral college votes: Clinton, 379; Dole, 159; Perot, nil.

*Cabinet.* The administrative business of the nation has been traditionally vested in several executive departments, the heads of which, unofficially and *ex officio*, formed the President's Cabinet. Beginning with the Interstate Commerce Commission in 1887, however, an increasing amount of executive business has been entrusted to some 60 so-called independent agencies, such as the Housing and Home Finance Agency, Tariff Commission, etc.

All heads of departments and of the 60 or more administrative agencies are appointed by the President, but must be confirmed by the Senate.

The Cabinet consisted of the following (April 1997):

1. *Secretary of State* (created 1789). Madeleine Albright, b. Czechoslovakia, 1938. Professor of International Affairs; Head, Center for National Policy; Legislative aide to Democrat Senator Muskie; member of National Security Council staff; 1993–96 US Permanent Representative to the UN.

4. *Attorney-General* (Department of Justice, 1870). Janet Reno, b. Florida, 1938. Lawyer; State Attorney of Dade County (FL), 1978–92.
5. *Secretary of the Interior* (1849). Bruce Babbitt, b. California, 1938. Lawyer, Attorney-General of Arizona, 1975–78; Governor of Arizona, 1978–87.

7. *Secretary of Commerce* (1903). William Daley, b. Illinois, 1949. Lawyer, Chicago politician, President Clinton's campaign manager, 1992; negotiator of the North American Free Trade Agreement, 1993.
8. *Secretary of Labor* (1913). Alexis Herman (*at April 1997 subject to confirmation*), b. Alabama, 1948. Director, Women's Bureau, Department of Labor; deputy chair, Democratic National Convention Commission; deputy chair, Presidential Transition Office; Director, White House Office of Public Liaison.
9. *Secretary of Health and Human Services* (1953). Dr Donna Shalala b. Ohio, 1941. Political scientist, educator; US Housing Department, 1977–81; President of Hunter College (NY), Chancellor of the Univ. of Wisconsin, 1988–92.
10. *Secretary of Housing and Urban Development* (1966). Andrew Cuomo, b. Alabama, 1958. Lawyer, Assistant District Attorney, Manhattan; chair, New York Commission on Homeless; Assistant Secretary, County Planning, Department of Housing and Urban Development; Assistant Housing Secretary.
11. *Secretary of Transportation* (1967). Rodney Slater, b. Mississippi, 1955. Lawyer, Assistant Attorney-General, Arkansas; Arkansas state government; Federal Highways Administrator. President Clinton's deputy campaign manager.

12. *Secretary of Energy* (1977). Federico Pena, b. Texas, 1949. Lawyer; Mayor of Denver; Congress as Representative for Colorado; House Democratic Leader.

13. *Secretary of Education* (1979). Richard Riley, b. South Carolina, 1933. Lawyer; South Carolina state representative, 1963–66; state senator, 1966–76; Governor of South Carolina, 1979–87.

14. *Veterans' Affairs Administrator* (1989). Jesse Brown, b. 1944. US Marines; director, Disabled American Veterans.

Each of the above Cabinet officers receives an annual salary of \$148,400 and holds office during the pleasure of the President.

The Administrator of the Small Business Administration, Aida Alvarez, the Administrator of the Environmental Protection Agency, Carol Browner, the US Trade Representative, Charlene Barshefsky, the Office of Management and Budget Director, Franklin Raines, and the US ambassador to the United Nations, Bill Richardson, have Cabinet rank.

*Key White House Posts:* White House Chief of Staff: Erskine Bowles; National Security Adviser: Samuel Berger; Director of the National Economic Council: Gene Sperling; Chair, Council of Economic Advisers: Janet Yellen.

*Congress:* The legislative power is vested by the Constitution in a Congress, consisting of a Senate and House of Representatives.

*Electorate:* By amendments of the constitution, disqualification of voters on the ground of race, colour or sex is forbidden. The electorate consists of all citizens over 18 years of age. Literacy tests have been banned since 1970. In 1972 durational residency requirements were held to violate the constitution. In 1973 US citizens abroad were enfranchised.

With limitations imposed by the constitution, it is the states which determine voter eligibility. In general states exclude from voting: Persons who have not established residency in the jurisdiction in which they wish to vote; persons who have been convicted of felonies whose civil rights have not been restored; persons declared mentally incompetent by a court.

Illiterate voters are entitled to receive assistance in marking their ballots. Minority-language voters in jurisdictions with statutorily prescribed minority concentrations are entitled to have elections conducted in the minority language as well as English. Disabled voters are entitled to accessible polling places. Voters absent on election days or unable to go to the polls are generally entitled under state law to vote by absentee ballot.

The Constitution guarantees citizens that their votes will be of equal value under the 'one person, one vote' rule.

*Senate:* The Senate consists of 2 members from each state, chosen by popular vote for 6 years, approximately one-third retiring or seeking re-election every 2 years. Senators must be no less than 30 years of age; must have been citizens of the USA for 9 years, and be residents in the states for which they are chosen. The Senate has complete freedom to initiate legislation, except revenue bills (which must originate in the House of Representatives); it may, however, amend or reject any legislation originating in the lower house. The Senate is also entrusted with the power of giving or withholding its 'advice and consent' to the ratification of all treaties initiated by the President with foreign Powers, a two-thirds majority of senators present being required for approval. (However, it has no control over 'international executive agreements' made by the President with foreign governments; such 'agreements' cover a wide range and are more numerous than formal treaties.) It also has the power of confirming or rejecting major appointments to office made by the President, but it has no direct control over the appointment by the President of 'personal representatives' or 'personal envoys' on missions abroad. Members of the Senate constitute a High Court of Impeachment, with power, by a two-thirds vote, to remove from office and disqualify any civil officer of the USA impeached by the House of Representatives, which has the sole power of impeachment.

The Senate has 17 Standing Committees to which all bills are referred for study,

revision or rejection. The House of Representatives has 19 such committees. In both Houses each Standing Committee has a chairman and a majority representing the majority party of the whole House; each has numerous sub-committees. The jurisdictions of these Committees correspond largely to those of the appropriate executive departments and agencies. Both Houses also have a few select or special Committees with limited duration; there were (1996) 4 Joint Senate-House Committees.

*House of Representatives:* The House of Representatives consists of 435 members elected every second year. The number of each state's representatives is determined by the decennial census, in the absence of specific Congressional legislation affecting the basis. The states, in 1997, had the following numbers of representatives:

Alabama	7	Indiana	10	Nebraska	3	South Carolina	6
Alaska	1	Iowa	5	Nevada	2	South Dakota	1
Arizona	6	Kansas	4	New Hampshire	2	Tennessee	9
Arkansas	4	Kentucky	6	New Jersey	13	Texas	30
California	52	Louisiana	7	New Mexico	3	Utah	3
Colorado	6	Maine	2	New York	31	Vermont	1
Connecticut	6	Maryland	8	North Carolina	12	Virginia	11
Delaware	1	Massachusetts	10	North Dakota	1	Washington	9
Florida	23	Michigan	16	Ohio	19	West Virginia	3
Georgia	11	Minnesota	8	Oklahoma	6	Wisconsin	9
Hawaii	2	Mississippi	5	Oregon	5	Wyoming	1
Idaho	2	Missouri	9	Pennsylvania	21		
Illinois	20	Montana	1	Rhode Island	2		

The constitution requires congressional districts within each state to be substantially equal in population. Final decisions on congressional district boundaries are taken by the state legislatures and governors. By custom the representative lives in the district from which he is elected. Representatives must be not less than 25 years of age, citizens of the USA for 7 years and residents in the state from which they are chosen.

In addition, 5 delegates (1 each from the District of Columbia, American Samoa, Guam, the US Virgin Islands and Puerto Rico) are also members of Congress. They have a voice but no vote, except in committees. The delegate from Puerto Rico is the resident commissioner. Puerto Ricans vote at primaries, but not at national elections. Each of the two Houses of Congress is sole 'judge of the elections, returns and qualifications of its own members'; and each of the Houses may, with the concurrence of two-thirds, expel a member. The period usually termed 'a Congress' in legislative language continues for 2 years, terminating at noon on 3 Jan.

The salary of a senator is \$133,600 per annum, with tax-free expense allowance and allowances for travelling expenses and for clerical hire. The salary of the Speaker of the House of Representatives is \$171,500 per annum, with a taxable allowance. The salary of a Member of the House is \$133,600 (\$148,400 for the Majority Leader and Minority Leader).

No senator or representative can, during the time for which he is elected, be appointed to any *civil* office under authority of the USA which shall have been created or the emoluments of which shall have been increased during such time; and no person holding any office under the USA can be a member of either House during his continuance in office. No religious test may be required as a qualification to any office or public trust under the USA or in any state.

Following the elections of 5 Nov. 1996, the 105th Congress (1997-99) was constituted as follows: Senate, 55 Republicans, 45 Democrats; House of Representatives, 227 Republicans, 207 Democrats, 1 independent.

The *Speaker* of the House of Representatives is Newt Gingrich (R). The *Majority Leader* of the Senate is Trent Lott (R).

*Indians:* By an Act passed on 2 June 1924 full citizenship was granted to all Indians born in the USA, though those remaining in tribal units were still under special federal jurisdiction. The Indian Reorganization Act of 1934 gave the tribal Indians, at their own option, substantial opportunities of self-government and the establishment of self-controlled corporate enterprises empowered to borrow money and buy land, machinery and equipment; these corporations are controlled by democratically elected

ted tribal councils. Recently a trend towards releasing Indians from federal supervision has resulted in legislation terminating supervision over specific tribes. In 1988 the federal government recognized that it had a special relationship with, and a trust responsibility for, federally-recognized Indian entities in continental USA and tribal entities in Alaska. In 1993 the Bureau of Indian Affairs listed 552 'Indian Entities Recognized and Eligible to Receive Services'. Indian lands (1991) amounted to 52,092,247 acres, of which 41,868,582 was tribally owned and 10,233,665 in trust allotments. Indian lands are held free of taxes. Total Indian population at the 1990 census was 1,959,000, of which Oklahoma, Arizona, California and New Mexico accounted for 832,466.

*State and Local Government*: The Union comprises 13 original states, 7 states which were admitted without having been previously organized as territories, and 30 states which had been territories—50 states in all. Each state has its own constitution (which the USA guarantees shall be republican in form), deriving its authority, not from Congress, but from the people of the state. Admission of states into the Union has been granted by special Acts of Congress, either (1) in the form of 'enabling Acts' providing for the drafting and ratification of a state constitution by the people, in which case the territory becomes a state as soon as the conditions are fulfilled, or (2) accepting a constitution already framed, and at once granting admission.

Each state is provided with a legislature of two Houses (except Nebraska, which since 1937 has had a single-chamber legislature), a governor and other executive officials, and a judicial system. Both Houses of the legislature are elective, but the senators (having larger electoral districts usually covering 2 or 3 counties compared with the single county or, in some states, the town, which sends 1 representative to the Lower House) are less numerous than the representatives, while in 38 states their terms are 4 years; in 12 states the term is 2 years. Of the 4-year senates, Illinois, Montana and New Jersey provide for two 4-year terms and one 2-year term in each decade. Terms of the lower houses are usually shorter; in 45 states, 2 years.

Members of both Houses are paid at the same rate, which varies from \$200 a year in New Hampshire to \$57,500 a year in New York. The trend is towards annual sessions of state legislatures; in 1995, 43 met annually (in 1939, only 4), and 7 (Arkansas, Kentucky, Montana, Nevada, North Dakota, Oregon and Texas) biennially.

The Governor has power to summon an extraordinary session, but not to dissolve or adjourn. The duties of the two Houses are similar, but in many states money bills must be introduced first in the Lower House. The Senate sits as a court for the trial of officials impeached by the other House, and often has power to confirm or reject appointments made by the Governor.

State legislatures are competent to deal with all matters not reserved for the federal government by the federal constitution nor specifically prohibited by the federal or state constitutions. Among their powers are the determination of the qualifications for the right of suffrage, and the control of all elections to public office, including elections of members of Congress and electors of President and Vice-President; the criminal law, both in its enactment and in its execution, with unimportant exceptions, and the administration of prisons; the civil law, including all matters pertaining to the possession and transfer of, and succession to, property; marriage and divorce, and all other civil relations; the chartering and control of all manufacturing, trading, transportation and other corporations, subject only to the right of Congress to regulate commerce passing from one state to another; labour; education; charities; licensing; fisheries within state waters, and game laws (apart from the hunting of migratory birds, which is a federal concern under treaties with Canada and Mexico). Taxes on income were left to the states until 1913, when the 16th amendment authorized the imposition of federal taxes on income without regard to apportionment.

The Governor is elected by direct vote of the people over the whole state for a term of office varying in the several states from 2 to 4 years, and with a salary ranging from \$60,000 (Arkansas) to \$130,000 (New York). His duty is to see to the

faithful administration of the law, and he has command of the military forces of the state. He may recommend measures but does not present bills to the legislature. In some states he presents estimates. In all but one of the states (North Carolina) the Governor has a veto upon legislation, which may, however, be overridden by the two Houses, in some states by a simple majority, in others by a three-fifths or two-thirds majority. In some states the Governor, on his death or resignation, is succeeded by a Lieut.-Governor who was elected at the same time and has been presiding over the state Senate. In several states the Speaker of the Lower House succeeds the Governor.

The chief officials by whom the administration of state affairs is carried on (secretaries, treasurers, members of boards of commissioners, etc.) are usually chosen by the people at the general state elections for terms similar to those for which governors hold office.

At the 11 state gubernatorial elections on 5 Nov. 1996 (Delaware, Indiana, Missouri, Montana, New Hampshire, North Carolina, North Dakota, Utah, Vermont, Washington, West Virginia) the Republicans won 4 governorships and the Democrats 7, making a nationwide tally of 30 Republicans, 19 Democrats and 1 independent.

**Local Government.** The chief unit of local government is the county, of which there were (1997) 2,994 with definite functions; in addition, Rhode Island has 5 'counties' which have no functions; Alaska does not have counties but 25 divisions and, since Oct. 1960, there has been no active county government in Connecticut. Louisiana has 64 'parishes'. The counties maintain public order through the sheriff and his deputies, who may, in a crisis, be drawn temporarily from willing citizens; in many states the counties maintain the smaller local highways; other functions are the granting of licences and the apportionment and collection of taxes. In a few states they also manage the schools.

The unit of local government in New England is the rural township, governed directly by the voters, who assemble annually or oftener if necessary, and legislate in local affairs, levy taxes, make appropriations and appoint and instruct the local officials. Townships are grouped to form counties. Where cities exist, the township government is superseded by the city government.

Local elections and 94 referendums were held on 5 Nov. 1996.

The **District of Columbia**, ceded by the State of Maryland for the purposes of government in 1791, is the seat of the US Government. It includes the city of Washington, and embraces a land area of 61 sq. miles. The Reorganization Plan No. 3 of 1967 instituted a Mayor Council form of government with appointed officers. In 1973 an elected Mayor and elected councillors were introduced; in 1974 they received power to legislate in local matters. Congress retains power to enact legislation and to veto or supersede the Council's acts. Since 1961 citizens have had the right to vote in national elections. On 23 Aug. 1978 the Senate approved a constitutional amendment giving the District full voting representation in Congress. This has still to be ratified.

The **Commonwealth of Puerto Rico, American Samoa, Guam and the Virgin Islands** each have a local legislature, whose acts may be modified or annulled by Congress, though in practice this has seldom been done. Puerto Rico since its attainment of commonwealth status on 25 July 1952, enjoys practically complete self-government, including the election of its governor and other officials. The conduct of foreign relations, however, is still a federal function and federal bureaux and agencies still operate in the island.

General supervision of territorial administration is exercised by the Office of Territories in the Department of Interior.

**DEFENCE.** The President is C.-in-C. of the Army, Navy and Air Force.

The National Security Act of 1947 provides for the unification of the Army, Navy and Air Forces under a single Secretary of Defense with cabinet rank. The President is also advised by a National Security Council and the Office of Civil and Defense Mobilization.

The major components of the Department of Defense are the Office of the Secretary of Defense and the Joint Chiefs of Staff, who provide immediate staff assistance and advice to the Secretary; the departments of the Army, Navy and Air Force, each separately organized under a civilian head (not of cabinet rank); and the unified and specified commands.

**Army.** *Secretary of the Army:* Togo West.

*Central Administration.* The Secretary of the Army is the head of the Department of the Army. Subject to the authority of the President as C.-in-C. and of the Secretary of Defense, he is responsible for all affairs of the Department.

The Secretary of the Army is assisted by the Under Secretary of the Army, 5 Assistant Secretaries of the Army (Civil Works, Financial Management, Installations, Logistics and Environment, Manpower and Reserve Affairs, Research, Development and Acquisition), General Counsel, Administrative Assistant, Director for Information Systems for Command, Control, Communications and Computers, Inspector General, Auditor General, Chief of Legislative Liaison, Chief of Public Affairs, Director for Small and Disadvantaged Business Utilization, Chairman of the Army Reserve Forces Policy Committee and the Army Staff headed by the Chief of Staff, US Army. The Office of the Under Secretary of the Army includes a Deputy Under Secretary (Operations Research).

The Chief of Staff, Army, in his role as a member of the Joint Chiefs of Staff, takes part in the planning and supervision of the operational forces under the command of the Commanders-in-Chief. The Vice Chief of Staff assists and advises the Chief of Staff.

The Army General Staff is the principal element of the Army Staff and includes the Offices of the Chief of Staff, Deputy Chief of Staff for Operations and Plans, Deputy Chief of Staff for Personnel, Deputy Chief of Staff for Logistics, and Deputy Chief of Staff for Intelligence. Other elements of the Army Staff are the offices of the Judge Advocate General, Surgeon General, Chief of Chaplains, Chief, Army Reserve, Chief, National Guard Bureau, and Chief of Engineers.

The Army consists of the Active Army, the Army National Guard of the US, the Army Reserve and civilian workforce; and all persons appointed to or enlisted into the Army without component; and all persons serving under call or conscription, including members of the National Guard of the States, etc., when in the service of the US. The strength of the Active Army was (30 June 1995) 524,900 (including 69,800 women).

The US Army Forces Command, with headquarters at Fort McPherson, Georgia, commands the Third US Army; 4 continental US Armies, and all assigned Active Army and US Army Reserve troop units in the continental US, the Commonwealth of Puerto Rico, and the Virgin Islands of the USA. The headquarters of the continental US Armies are: First US Army, Fort George G. Meade, Maryland; Second US Army, Fort Gillem, Georgia; Fifth US Army, Fort Sam Houston, Texas; Sixth US Army, Presidio of San Francisco, California. The US Army Training and

Doctrine Command, with headquarters at Fort Monroe, Virginia, co-ordinates and integrates the total combat development effort of the Army as well as developing, managing, establishing and verifying the training of individuals of the US Army and authorized foreign nationals. The US Army Health Services Command, with headquarters at Fort Sam Houston, Texas, provides health services in the continental US for the US Army and provides professional education and training for medical personnel of the US Army and authorized foreign national personnel. The US Army Materiel Command, with headquarters in Alexandria, Virginia, is responsible for US Army activities dealing with equipment development, procurement, delivery, supply and maintenance. The US Army Information Systems Communications Command, with headquarters at Fort Huachuca, Arizona, provides worldwide communication automation support to the Department of the Army and supports the Defense Communications Systems. The US Army Military District of Washington, with headquarters at Fort McNair, Washington, DC, provides support to the Department of the Army and the Department of Defense at the seat of Government. The US Army Space Command, with headquarters in Colorado Springs (CO), is the Army component to the US Space Command.

Approximately 32% of the Active Army is deployed outside the continental USA. Several divisions, which are located in the USA, keep equipment in Germany and can be flown there in 48–72 hours. Headquarters of US Seventh and Eighth Armies are in Europe and Korea respectively.

*Operational Commands and Weapons.* The larger commands are the theater army and corps. The typical theater army may consist of a variable number of corps composed of combat forces of armour, infantry, air defense artillery, aviation and field artillery units; combat support forces of aviation, engineer, intelligence and signal elements; and combat service support forces. A typical corps consists of a variable number and mixture of infantry, mechanized infantry, armoured, air assault, or airborne divisions; one or more separate infantry, mechanized infantry or armoured brigades; one or more armoured cavalry regiments; corps artillery (155-mm howitzer, 203-mm howitzer, multiple launch rocket system (MLRS); corps air defense brigade (*Hawk*, *Chaparral*, *Patriot* and *Avenger* battalions), corps aviation brigade and combat support and combat service support forces.

US Army Divisions have a common base (containing command, divisional artillery, air defense artillery, combat support and combat service support units) aviation brigade, and a varying mixture of combat manoeuvre battalions (usually 9 or 10 in number in 3 brigades) to make up airborne, infantry, armoured, mechanized infantry and air assault divisions. Divisions can in this way be 'tailored' to fit a variety of strategic or tactical situations. A mechanized infantry division, with about 17,300 soldiers, may have 5 mechanized infantry battalions and 4 armoured battalions; an armoured division, with about 17,300 soldiers, may have 4 mechanized infantry battalions and 5 armoured battalions; an airborne division, with 13,100 soldiers, may have 9 infantry (airborne) battalions. The air assault division is a highly specialized force capable of battlefield helicopter operations for infantry, field artillery, air defense artillery and necessary support forces.

The 10,800-man light infantry divisions consist of 9 infantry battalions and offer rapid strategic force projection. Light divisions can operate in all environments and are general purpose forces. Special operations forces consist of special forces, rangers, special operations aviation psychological operations, and civil affairs units. The units are designed, equipped, and trained for special missions.

Small arms include the M-9 (9mm pistol), the M-16 series rifle and the M-249 Squad Automatic Weapon both of which fire a 5.56-mm cartridge. The standard generalpurpose machine-gun is the M-60 (23 lb.; 550 rounds of 7.62-mm per minute). Infantry weapons also include M-203 grenade launcher attachment for the M-16A1 rifle, which fire a 40-mm grenade up to 400 metres, the *TOW* and *Dragon* anti-tank missile systems, and the M-72 rocket, a light anti-tank weapon.

Combat vehicles of the US Army are the tank, armoured personnel carrier, infantry fighting vehicle, and the armoured command vehicle. The first-line tanks are the M1A1 Abrams tank with a 120mm main gun, and the M1 Abrams. The standard armoured infantry personnel carrier is the M2 Bradley Fighting Vehicle (BFV),

which is replacing the older M113. Both carry a mechanized infantry squad, but the BFV mounts a 25-mm Bushmaster gun and TOW missile launchers. The M3 version of the BFV is being used as the ground scout vehicle in armoured cavalry regiments, armoured and mechanized infantry divisional cavalry squadrons and in scout platoons of armoured and mechanized infantry battalions.

The approved calibres of artillery are: Light, 105-mm howitzer, medium 155-mm howitzer; the heavy, 203-mm howitzer. The Multiple Launch Rocket System (MLRS) is a 227-mm rapid fire rocket system used in a non-nuclear counterfire, reinforcing and deep fires roles. The 107-mm mortar, the 81-mm mortar and the 60-mm mortar are used by the combat manoeuvre elements. The 120mm mortar will replace the 107mm mortar. The TOW is the primary anti-tank weapon. Forward-area air-defence weapons, including the *Chaparral*, *Stinger* and *Avenger* 20-mm gun, provide the capability of low-altitude defence against high-performance aircraft.

The Army has three categories of missiles—surface-to-surface (field artillery) and surface-to-air (air defence artillery) and anti-tank. Surface-to-surface missiles are now limited to the Army Tactical Missile System (ATACMS; fielded) and the Tri-Service Stand-Off Attack Missile (TSSAM; EMD). ATACMS is a semi-ballistic missile capable of carrying a variety of warheads to ranges in excess of 150 km. Planned improvements include an extended range variant with a range of 300+ km. TSSAM is a joint Army, Air Force, Navy cruise missile program. TSSAM carries the Bat submunition (anti-tank) to distances in excess of 200 km. Planned improvements modify Bat submunition for targets other than armour. Surface-to-air missiles, for air defence, are: *Patriot*, guided, conventional warhead, operational; *Hawk*, homing type, low-to-mid-altitude, field operational (product improvements continue to improve the effectiveness of the system); *Chaparral*, infra-red homing, low-altitude, forward area, operational (improvements to the basic system are under development); *Stinger*, hand-held or mobile-launched, infra-red homing, low-altitude, forward area, operational. Anti-tank missiles are: *TOW*, tube launched, optically tracked, wire guided, anti-armour, forward area, operational; *Hellfire*, laser-guided, anti-armour, operational and *Dragon*, wire-guided, medium anti-armour, forward area, operational.

The Army employs rotary- and fixed-wing aircraft as organic elements of its ground formations where their use is required on a full-time basis and their immediate and constant availability is essential. The front line commander exploits the benefits of aviation technology to perform traditional land battle tasks in the third dimension. This concept of airmobility for ground formation utilizes aerial vehicles as a highly integrated team to perform all five functions of land combat: reconnaissance, command and control, logistics and that inseparable combination, firepower and manoeuvre.

The Army has some 7,000 aircraft, all but about 400 of them helicopters. The principal types are 1,000 UH-1 Iroquois Huey and 1,600 UH-60 Black Hawk utility helicopters, 1,000 OH-58 Kiowa observation helicopters, 600 AH-1 Cobra and 700 AH-64 Apache attack helicopters, and 450 CH-47 Chinook cargo helicopters.

*Enlistment, Terms of Service.* Since 1974 the Army has operated an 'all volunteer' system making it, in effect, an all-regular force both regular and reserve components. Terms of service may be 2, 3, 4, 5 or 6 years. Men and women who enlist incur an 8-year obligation and must serve in the reserve components any part of the period not served on active duty. Over 95% of recruits enlisting in the Army have a high school education and over 50% of the Army is married. Women serve in both combat support and combat service support units.

The National Guard is a reserve military component with both a state and a federal rôle. Enlistment is voluntary. The members are recruited by each state, but are equipped and paid by the federal government (except when performing state missions). Training is supervised by the active Army (FORSCOM), and unit organization parallels that for the active army; training facilities are made available by the USA and each state. As the organized militia of the several states, the District of Columbia, Puerto Rico and the Territories of the Virgin Islands and Guam, the Guard may be called into service for local emergencies by the chief executives in those jurisdictions; and may be called into federal service by the President to thwart

invasion or rebellion or to enforce federal law. In its role as a reserve component of the Army, the Guard is subject to the order of the President in the event of national emergency. In 1995 it numbered 502,580 (Army, 387,000; Air Force, 115,580).

The Army Reserve is designed to supply qualified and experienced units and individuals in an emergency. US Army Forces Command is charged with the command, support and training supervision of US Army Reserve units. Members of units are assigned to the Ready Reserve, which is subject to call by the President in case of national emergency without declaration of war by Congress. The Standby Reserve and the Retired Reserve may be called only after declaration of war or national emergency by Congress. In 1995 the Army Reserve numbered 654,000 (119,000 women).

**Navy.** *Secretary of the Navy:* John Dalton.

The Department of the Navy is administered under the Defense Secretary by the Secretary of the Navy, assisted by the Under Secretary and 4 Assistant Secretaries (for Financial Management; Installation and Environment; Manpower and Reserve Affairs; and Research, Development and Acquisition). Other divisions of the Department of the Navy are those of: Legislative Affairs, Information, the Judge Advocate General, Program Appraisal, the General Counsel, and the Inspector General of the Navy.

The professional head of the Navy is the Chief of Naval Operations, whose staff includes the Vice Chief, 4 Deputy Chiefs responsible for Manpower and Personnel; Plans, Policy and Operations; Logistics; and Resources, Warfare Requirements and Assessments. There are 3 major staff directorates for Intelligence; Training; and Space and electronic warfare and 5 specialist divisions.

The Operating Forces include the Atlantic Fleet divided between the 2nd fleet (home waters) and 6th fleet (Mediterranean); the Pacific Fleet is similarly divided between the 3rd fleet (home waters), 7th fleet (West Pacific) and the 5th fleet (Indian Ocean) formally activated in 1995 is maintained by units from both Pacific and Atlantic. All fleets include associated Fleet Marine Forces. Other operational commands include the Military Sealift Command, U.S. Naval Forces Europe, the Mine Warfare Command and the Operational Test and Evaluation Force.

The authorized budget for the Department of the Navy (which includes funding both for the Navy and Marine Corps) for current and recent fiscal years: 1995, \$78,200m.; 1996, \$76,400m.; 1997, \$79,000m.; budget request for 1998, \$79,000m.

Personnel and fleet strength have continued to decline slowly through 1996, but were expected to stabilize in 1997. The '600-ship battle force' planned in the late 1980s had reduced to 352 by Oct. 1996 and the eventual figure is likely to be about 335. The Navy personnel total in 1996 was 410,000, including 50,000 women who are eligible to serve at sea in support ships.

The operational strength of the Navy at the end of the year indicated:

<sup>1</sup> Includes the USS *John F. Kennedy* as 'operational and training reserve carrier' in the Naval Reserve Force.

Ships in inactive reserve are not included in the table; but those serving as Naval Reserve Force training ships are. Amphibious Carriers are those ships of the Wasp, Tarawa, and Iwo Jima classes capable of operating AV-8 Harrier-type aircraft as well as helicopters.

**Submarine Forces.** A principal part of the US naval task is to deploy the seaborne strategic deterrent from nuclear-powered ballistic missile-carrying submarines (SSBN), of which there were, in 1996, 17, all of the Ohio class, with the 18th and last to commission in 1997. These ships, the first of which entered service in 1981

are of 19,000 tonnes submerged displacement, and capable of 24 knots. They are designed to deploy the Trident-2 D-5 missile, with a maximum range of 6,500 nautical miles, carrying about 8 warheads with substantially improved targeting accuracy over the Trident-1 C-4 missile, which has a range of 4,000 nautical miles, and is deployed in the first 8 ships of the class. The first submarine deployed the Trident-2 operationally in 1990. The first 8 ships may be retrofitted with the Trident-2 in due course. The last of the Franklin class first generation strategic missile submarines was withdrawn in 1995.

The listed total of 76 nuclear-powered attack submarines (SSN) comprises the first of 3 new Sea Wolf class 57 of the Los Angeles class (7,040 tonnes) in 3 major batches: A basic design (27 ships) completed 1976-85, a small group of 8 ships additionally equipped with vertical-launch missile tubes for Tomahawk cruise missiles completed 1985-89, and the remaining 26 ships, the building of which was completed in 1996. These latter are known as 'Improved' Los Angeles, incorporating cruise missile tubes, a new command system, and several important additional technical modifications. There are also 14 Sturgeon class (5,040 tonnes) completed 1967-75, and 1 other.

*Surface Forces.* The surface fleet is headed by the force of large aircraft carriers, the first class of which entered service in the late 1950s carrying nuclear bombers as the naval contribution to the strategic deterrent. When this role passed to the ballistic missile submarine force, the carrier force was gradually reoriented to its current tasks, which relate more to limited and littoral warfare. The target of '15 deployable carriers' set in 1986 was officially amended to 14 as a result of budgetary pressure in 1989, and has now fallen to 12 of which 11 are in operational service and 1 is used for training and reserve forces.

There are 7 Nimitz and improved Nimitz class ships, of about 88,000 tonnes, completed between 1975 and 1995, nuclear-powered and capable of 33 knots. The USS *Enterprise*, completed in 1961, displacing 81,000 tonnes, was the prototype nuclear-powered carrier and is also capable of 33 knots. The 3 ships of the Kitty Hawk and John F. Kennedy classes are of about 82,500 tonnes, were completed between 1961 and 1968, and represent the last oil-fuelled carriers built by the US Navy. The force is completed by the remaining ship of the Forrestal class, USS *Independence* completed in 1959, of about 82,000 tonnes full load.

All carriers deploy an air group which comprises on average 2 squadrons each of 10 F-14 Tomcat fighters and 3 squadrons each of 12 F/A-18 Hornet fighter/ground attack aircraft. They also carry a squadron of 4 E-2C Hawkeye early warning aircraft, 4 KA-6 airborne tankers, 4 EA-6B Prowler electronic combat aircraft, 6 S-3B Viking anti-submarine aircraft and 6 SH-3D Sea King, or SH-60F Seahawk anti-submarine helicopters. The squadron of 10 A-6E Intruder medium bombers was withdrawn from carrier air groups in 1995-96, being replaced by the third Hornet squadron.

The cruiser force has stabilized at 31 ships following the major reductions in 1994-95. The force comprises the 27 ships of the Ticonderoga class commissioned between 1983 and 1993, of 9,600 tonnes, capable of 30 knots, equipped with the highly-capable Aegis air-defence control system and armed with Standard SM-2ER surface-to-air missiles (SAM), 2 127mm guns and 2 SH-60B Seahawk LAMPS-III helicopters. All but the first 5 ships are equipped with 2 x 61-cell vertical launch system for their missiles, which additionally allows them to launch Harpoon anti-ship missiles and Tomahawk sea-launched cruise missiles (SLCM). The 2 nuclear-powered vessels of the Virginia class and 2 similar California class, completed between 1973 and 1980, are of 11,400 tonnes and 10,700 tonnes respectively, capable of 31 knots and armed with 2 twin Standard SAM launchers, 8 Harpoon anti-surface ship missiles, ASROC anti-submarine missiles, and (Virginia class only) 8 Tomahawk SLCM. Neither class carries a helicopter.

In addition, there are 21 guided-missile destroyers including 17 of the new Arleigh Burke class currently building, and equipped with the Aegis air-defence system and 4 Kidd class, 31 anti-submarine destroyers of the Spruance class, 45 guided-missile frigates of the Oliver Hazard Perry class and 24 inshore patrol craft. Mine warfare ships include 2 former amphibious helicopter carriers of the Iwo Jima class con-

verted as mine counter measures command and support ships, 14 new mine counter-measure vessels of the Avenger class and the first 8 of a new Osprey class coastal minehunter based on an Italian design.

*Amphibious Warfare.* Amphibious capability comprises 51 specialist ships. The 4 Wasp (LHD-1) class and the 5 ships of the Tarawa (LHA-1) class are in many respects similar to the vertical/short take off and landing aircraft carriers in other principal navies and are capable of sea control tasks. The Wasp class, completed from 1989 to 1995 and still building, are of 41,200 tonnes, capable of 23 knots, equipped with an air group of some 6-8 Harrier AV-8B aircraft, and up to 42 mixed helicopters, and accommodating 1,900 troops. The 5 ships of the Tarawa class are of 40,000 tonnes, were completed between 1976 and 1981, deploy a similar air group and carry 1,700 troops. The 2 remaining ships of the Iwo Jima class are also capable of operating vertical/short take-off and landing aircraft but do not normally do so. They are of 18,800 tonnes, were built between 1961 and 1970, are capable of 21 knots and normally carry 20 mixed helicopters and accommodate 1,750 troops. Additionally there are 2 amphibious command ships, 26 dock landing ships and 2 tank landing ships. There are some 120 amphibious craft including 85 air-cushion landing craft (hovercraft) and 35 others, and several hundred minor personnel and vehicle transports. The total oceanic lift capability of the amphibious forces amounts to over 50,000 men, 1,000 main battle tank equivalents, and operating facilities for about 180 helicopters.

*Underway Support.* The Navy is provided with global, long-term sustainability through a force of some 43 underway replenishment ships, including 17 tankers, 8 multi-purpose fast replenishment ships, 8 stores ships and 10 ammunition ships. Second-line support is provided by 12 depot ships, 10 support tankers, 10 tugs and 2 hospital ships. Special purpose auxiliaries include 2 command ships, 18 ocean surveillance ships, 4 missile and space support ships, and 16 survey and oceanographic vessels. Of these major auxiliaries, about half are operated by the civilian-manned Military Sealift Command. In addition there are some hundreds of minor auxiliaries, and several thousand service craft.

*Shipbuilding.* Major warship building yards involved in the current building programme are located at Groton, Conn. (submarines), Newport News, Va., (submarines and aircraft carriers), Pascagoula, Miss. (amphibious ships), Bath, Me. (destroyers) and New Orleans, La., (amphibious and auxiliary ships).

*Naval Aviation.* The principal function of the naval aviation organization (61,000 strong in 1996) is to provide and train the 11 Air Wings maintained for service in the Aircraft Carriers. These usually consist of 80 fixed wing and 6 rotary wing aircraft. In addition, 2 carrier air wings are provided from the reserves, in some cases with slightly older aircraft. The main carrier-borne combat aircraft on inventory are 330 F-14 fighters, 780 F/A-18 Hornet dual-purpose fighter/attack aircraft and 150 S-3A Viking anti-submarine aircraft. Supporting roles are performed by 120 EA-6B electronic warfare aircraft, 90 E-2C Hawkeye airborne early warning aircraft, 50 KA-6D tankers, 30 SH-3 Sea King and 80 SH-60F Seahawk helicopters for inner-zone anti-submarine defence. Helicopters held for embarkation in cruisers and below are of 2 types, the older SH-2F Seasprite aircraft of which there are some 30 and the SH-60B Seahawk of which there are 165. Although the A-6E Intruder attack aircraft has been withdrawn from carrier service, some 100 are retained in reserve. The principal tasks of the shore-based elements of US naval aviation are maritime reconnaissance and anti-submarine warfare, for which there are holdings of about 240 P-3C Orion aircraft. Additional tasks include electronic warfare (12 EP-3), electronic intelligence (16 ES-3) and mine countermeasures for which 50 MH- and RH-53 helicopters are held. Finally there are some 600 training aircraft of types not previously mentioned, and 100 aircraft and 90 helicopters for transport and other miscellaneous duties.

**The Marine Corps.** While administratively part of the Department of the Navy, the Corps ranks as a separate armed service, with the Commandant serving in his

own right as a member of the Joint Chiefs of Staff, and responsible directly to the Secretary of the Navy. Its strength had stabilized at 174,000 by late 1996.

The role of the Marine Corps is to provide specially trained and equipped amphibious expeditionary forces. It is organized into 3 divisions each some 48,000 strong, subdivided into Marine Expeditionary Brigades (16,000) and Marine Expeditionary Units (some 5,000 strong). In peacetime, Marine Expeditionary Units are permanently deployed afloat in the Eastern Atlantic/Mediterranean and the West Pacific/Indian Ocean. The principal equipment of the Corps consists of 400 M-1A1 Abrams tanks, 600 LAV-25 armoured infantry fighting vehicles, 1,300 armoured personnel carriers and about 800 artillery pieces of calibres between 105mm and 203mm. Additional heavy equipment for US-based Marine forces units, beyond that which can be embarked in the amphibious shipping, is provided in 2 squadrons each of 13 large cargo ships prepositioned at Diego Garcia (Indian Ocean) and in the Mediterranean. In addition the Corps includes an autonomous aviation element numbering 34,000 in 1996 and equipped with some 400 combat aircraft and 515 helicopters. There are 280 F/A 18 Hornet, 180 AV-8B Harriers, 25 EA-6B electronic warfare aircraft, 75 KC-130 tankers, and a miscellany of other support and training aircraft. Helicopters include 240 CH-46E and 175 CH-53 transport, as well as 180 AH-1 Cobra attack helicopters of various types. Harriers and helicopters are normally employed afloat in the amphibious aircraft carriers and other suitable ships. The Hornets and other fixed wing aircraft are normally based ashore, but may be embarked in other aircraft carriers, given the operational need.

**The US Coast Guard** operates under the Department of Transportation in time of peace and as a part of the Navy in time of war or when directed by the President. The act of establishment stated the Coast Guard 'shall be a military service and branch of the armed forces of the United States at all times'. It comprises 250 ships including cutters of destroyer, frigate, corvette and patrol vessel types, 2 large Polar class icebreakers, and various auxiliaries and tenders, as well as over 1,400 rescue and utility craft. It also maintains 74 fixed-wing aircraft and 137 helicopters. The workforce, in 1996, was made up of over 34,000 active duty personnel augmented by 7,340 reserve and 35,638 auxiliary members.

The Coast Guard missions include maintenance of aids to navigation, boating safety, defence operations, environmental response (oil spills), ice operations, maritime law enforcement, marine inspection, marine licensing, marine science, port safety and security, search and rescue and waterways management.

On an average Coast Guard day, the service saves 12 lives, conducts 142 Search and Rescue cases and 128 maritime law enforcement boardings, responds to 34 oil or hazardous chemical spills, seizes over \$8m. in illegal contraband, interdicts 22 illegal immigrants and services 150 aids to navigation.

**Air Force.** *Secretary of the Air Force:* Dr Sheila E. Widnall.

The Department of the Air Force was activated within the Department of Defense on 18 Sept. 1947, under the terms of the National Security Act of 1947. It is administered by the Secretary of the Air Force, assisted by an Under Secretary, a Deputy for International Affairs and 4 Assistant Secretaries (Acquisition; Space; Manpower, Reserve Affairs, Installations and Environment; and Financial Management and Comptroller). The USAF, under the administration of the Department of the Air Force, is supervised by a Chief of Staff, who is a member of the Joint Chiefs of Staff. He is assisted by a Vice Chief of Staff, Assistant Vice Chief of Staff, 4 Deputy Chiefs of Staff (Personnel; Plans and Operations; Logistics; Communications and Information) and an Assistant Chief of Staff for Intelligence.

The USAF consists of active duty Air Force officers and enlisted personnel, civilian employees, the Air National Guard and the Air Force Reserve. The USAF has the mission to defend the USA through control and exploitation of air and space. For operational purposes the service is divided into 8 major commands, 37 field operating agencies and 3 direct-reporting units. Under these organizations there are 88 major and 89 minor facilities world-wide including National Guard and Reserve bases.

Major commands are organized on a functional basis in the USA and a geo-

graphic basis overseas. They accomplish designated phases of Air Force worldwide activities. They also organize, administer, equip and train their subordinate elements for the accomplishment of assigned missions. Major commands are generally assigned specific responsibilities based on functions. In descending order of command, elements of major commands include numbered air forces, wings, groups, squadrons and flights.

The bulk of the combat forces are grouped under the Air Combat Command, which controls strategic bombing, tactical strike, air defence and reconnaissance assets in the USA. The Air Mobility Command provides air lift, air refuelling, special air mission and aeromedical evacuation for US forces. The newest major command is the Air Education and Training Command which provides a wide variety of training from initial to advanced degree-granting education.

The other major commands are the Air Force Materiel Command, Air Force Special Operations Command, Air Force Space Command, Pacific Air Forces and United States Air Forces in Europe. The Pacific (PACAF) and European (USAFE) are responsible for offensive and defensive air operations in the Pacific and Asia and Europe and the Mediterranean respectively.

The field operating agencies are (AF = Air Force): the AF Audit Agency, AF Base Disposal Agency, AF Center for Environmental Excellence, AF Civil Engineering Support Agency, AF Civilian Personnel Management Center, AF Combat Operations Staff, AF Command, Control, Communications and Computer Agency, AF Cost Analysis Agency, AF Flight Standards Agency, AF Frequency Management Agency, AF Historical Research Agency, AF Inspection Agency, AF Intelligence Command, AF Intelligence Support Agency, AF Legal Services Agency, AF Logistics Management Agency, AF Management Engineering Agency, AF Medical Operations Agency, AF Medical Support Agency, AF Military Personnel Center, AF Morale, Welfare, Recreation and Services Agency, AF News Agency, AF Office of Special Investigations, AF Program Executive Office, AF Real Estate Agency, AF Review Boards Agency, AF Safety Agency, AF Security Police Agency, AF Studies and Analyses Agency, AF Technical Applications Center, Air Reserve Personnel Center, Air Weather Service, Center for Air Force History, Joint Services Survival, Evasion, Resistance and Escape Agency, and 7th Communications Group.

The direct-reporting units are: AF Academy, AF District of Washington and AF Operational Test and Evaluation Center.

Air Force aircraft are categorized as bombers, fighters, attack and observation aircraft, reconnaissance and special duty aircraft, transports and tankers, trainers and helicopters. The bombers are the B-1B Lancer, a supersonic inter-continental, nuclear and conventional aircraft; the B-2A, a subsonic, multi-role strategic bomber; and the B-52G/H Stratofortress, which has been the primary manned strategic bomber for over 35 years.

In the fighter category are the F-15 Eagle for air superiority tactical missions; the F-16 Fighting Falcon, a compact, multi-role fighter and attack aircraft; the F-117A, the world's first operational aircraft to exploit low-observable stealth technology; the A-10/OA-10 Thunderbolt II attack aircraft; and the AC-130H/U for counter-insurgency.

Under the reconnaissance and special duty heading are the U-2R/S for reconnaissance; the EC-130E/H Commando/Compass Call and the EF-111A Raven for electronic countermeasures; the E-3B/C Sentry, the E-4B and E-8 Joint Surveillance and Target Attack Radar System for command and control functions; the E-9A for telemetry relay; and the WC-130E/H for weather reconnaissance.

The primary transporters are the C-5A/B Galaxy for long-range heavy loads; the C-9A/C Nightingale for aeromedical evacuation; the C-17A Globemaster III for cargo and tactical air lift, the C-141B Starlifter for long-range troop and cargo; and the C-130 Hercules for theatre tactical air lift. The 2 refuelling aircraft types are the KC-135 Stratotanker and the KC-10A Extender.

Strategic missiles in the Air Force's inventory include the LGM-30G Minuteman, the LGM-118A Peacekeeper, the AGM-69A Short-Range Attack Missile and the AGM-86B/C Air-Launched Cruise Missile.

In 1996 the Air Force had approximately 390,000 military personnel. Approxi-

mately 60,000 Air Force members are women. Since 1991 women have been authorized to fly combat aircraft, but not until 1993 were they allowed to fly fighters.

*Deployment of US forces abroad:* 22,754 personnel were deployed abroad on 11 Jan. 1994 (Arabian/Persian Gulf, 6,360; Haiti, 6,063; Cuba, 4,252; Panama, 3,531; Bosnia-Herzegovina, 3,330; former Yugoslavia, 870; Somalia, 2,600). Forces were withdrawn from Somalia in March 1995.

**National Income.** The Bureau of Economic Analysis of the Department of Commerce prepares detailed estimates on the national income and product. In Jan. 1996, the Bureau revised these accounts back to 1959 (eventually 1929), notably by introducing a new featured measure of real output and prices. The principal tables are published monthly in *Survey of Current Business*; the complete set of national income and product tables are published in the *Survey* normally each July, showing data for recent years. *The National Income and Product Accounts of the United States* (vol. 1, 1929–58; vol. 2, 1959–92) were published in 1997. The conceptual framework and statistical methods underlying the accounts are described in National Income and Product Account (NIPA) Methodology Papers 1–6. Subsequent limited changes were described in the July 1995, Sept. 1995, Oct. 1995 and Aug. 1996 *Surveys*.

<sup>1</sup> In 1996 the chain-weighted method of estimating GDP replaced that of constant base-year prices. In chain-weighting the weights used to value different sectors of the economy are continually updated to reflect changes in relative prices.

**Currency.** The unit of currency is the *dollar* (USD) of 100 *cents*. Notes are issued by the 12 Federal Reserve Banks, which are denoted by a branch letter (A = Boston, MA; B = New York, NY; C = Philadelphia, PA; D = Cleveland, OH; E = Richmond, VA; F = Atlanta, GA; G = Chicago, IL; H = St Louis, MO; I = Minneapolis, MN; J = Kansas City, MO; K = Dallas, TX; L = San Francisco, CA). There are coins of 1, 5 ('nickels'), 10 ('dimes'), 25 ('quarters') and 50 ('halves') cents, and notes of \$1, 2, 5, 10, 20, 50 and 100.

In March 1997, \$1 = £0.61; £1 = \$1.63; DM1 = \$0.59.

**Banking and Finance.** The Federal Reserve System, established under The Federal Reserve Act of 1913, comprises the Board of 7 Governors, the 12 regional Federal Reserve Banks with their 25 branches, and the Federal Open Market Committee. The 7 members of the Board of Governors are appointed by the President with the consent of the Senate. Each Governor is appointed to a full term of 14 years or an unexpired portion of a term, one term expiring every 2 years. The Board exercises broad supervisory authority over the operations of the 12 Federal Reserve Banks, including approval of their budgets and of the appointments of their presidents and first vice presidents; it designates 3 of the 9 directors of each Reserve Bank including the Chairman and Deputy Chairman. The *Chairman* of the Federal Reserve Board is appointed by the President for 4-year terms. The Chairman for 1996-2000 is Alan Greenspan. The Board has supervisory and regulatory responsibilities over

banks that are members of the Federal Reserve System, bank holding companies, bank mergers, Edge Act and agreement corporations, foreign activities of member banks, international banking facilities in the U.S., and activities of the U.S. branches and agencies of foreign banks. Legislation of 1991 requires foreign banks to prove that they are subject to comprehensive consolidated supervision by a regulator at home, and have the Board's approval to establish branches, agencies and representative offices. The Board also assures the smooth functioning and continued development of the nation's vast payments system. Another area of the Board's responsibilities involves the implementation by regulation of major federal laws governing consumer credit.

The 12 members of the Federal Open Market Committee (FOMC) include the 7 members of the Board of Governors and 5 of the 12 Federal Reserve Bank presidents. The latter serve 1-year terms on the FOMC in rotation except for the President of the Federal Reserve Bank of New York, who is a permanent member. The FOMC has an essential role in the formulation of monetary policy. It influences credit market conditions, money and bank credit, by buying or selling US Government securities; and it also supervises System operations in foreign currencies for the purpose of helping to safeguard the value of the dollar in international exchange markets and facilitating co-operation and efficiency in the international monetary system. The Board of Governors also influences credit conditions through powers to set reserve requirements, to approve discount rates at Federal Reserve Banks, and to fix margin requirements on stock-market credit.

The Reserve Banks advance funds to depository institutions, issue Federal Reserve notes, the only form of currency apart from coins, act as fiscal agent for the Government, and afford nationwide cheque-clearing and fund transfer arrangements. They may increase or reduce the country's supply of reserve funds by buying or selling Government securities and other obligations at the direction of the FOMC. The purchase and sale of securities in the open market is conducted by the Federal Reserve Bank of New York. Their capital stock is held by the member banks, but it carries no voting rights except in the election of directors.

From 1968, the Congress passed a number of consumer financial protection acts, the first of which was the Truth in Lending Act, for which it has directed the Board to write implementing regulations and assume partial enforcement responsibility. Others include the Equal Credit Opportunity Act, Home Mortgage Disclosure Act, Consumer Leasing Act, Fair Credit Billing Act, Truth in Savings Act and Electronic Fund Transfer Act. To manage these responsibilities the Board has established a Division of Consumer and Community Affairs. To assist it, the Board consults with a Consumer Advisory Council, established by the Congress in 1976 as a statutory part of the Federal Reserve System.

Another statutory body, the Federal Advisory Council, consists of 12 members (one from each district); it meets in Washington four times a year to advise the Board of Governors on economic and banking developments. Following the passage of the Monetary Control Act of 1980, the Board of Governors established the Thrift Institutions Advisory Council to provide information and views on the special needs and problems of thrift institutions. The group is comprised of representatives of mutual savings banks, savings and loan associations, and credit unions.

All depository institutions (commercial and savings banks, savings and loan associations, credit unions, US agencies and branches of foreign banks, and Edge Act and agreement corporations) must meet reserve requirements set by the Federal Reserve and hold the reserves in the form of vault cash or deposits at Federal Reserve Banks.

Banks which participate in the federal deposit insurance fund have their deposits insured against loss up to \$100,000 for each account. The fund is administered by the Federal Deposit Insurance Corporation established in 1933; it obtains resources through annual assessments on participating banks. All members of the Federal Reserve System are required to insure their deposits through the Corporation, and non-member banks may apply and qualify for insurance.

The Federal Deposit Insurance Corporation Improvement Act of 1992 originated

with bank reform initiatives. It imposed new capital rules on banks, new reporting requirements and a code of 'safety and soundness' standards. The main aim of the Act is to reduce risk through rigorous enforcement of capital requirements. Regulators are required to take action where banks fail to observe these standards.

At 30 June 1995 the 10 major banks in terms of assets (\$1,000m.) were: Chemical Banking-Chase Manhattan, 297.3; Citicorp, 257; BankAmerica, 226.6; Nations-Bank, 184.2; J. P. Morgan, 166.6; First Chicago-NBD, 123.4; First Union-First Fidelity, 118.4; Bankers Trust, 102.9; BancOne, 86.8; KeyCorp, 67.5.

There is a stock exchange in New York (NYSE), an American Stock Exchange (ASE), a Midwest stock exchange and a Pacific Stock Exchange in San Francisco.

**Weights and Measures.** The US Customary System derives from the British Imperial System. It differs in respect of the *gallon* (=0.83268 Imperial gallon); *bushel* (= 0.969 Imperial bushel); *hundredweight* (= 100 lbs); and the *short* or *net ton* (= 2,000 lbs). The metric system is to be introduced in the 1990s.

**Non-Fuel Minerals.** The USA is wholly dependent upon imports for columbium, bauxite, mica sheet, manganese, strontium and graphite, and imports over 80% of its requirements of industrial diamonds, fluorspar, platinum, tantalum, tungsten, chromium and tin.

Total value of non-fuel minerals produced in 1992 was \$32,033m. (\$33,464m. in 1990). Details are given in the following tables.

**Agriculture.** Agriculture in the USA is characterized by its ability to adapt to widely varying conditions, and still produce an abundance and variety of agricultural products. From colonial times to about 1920 the major increases in farm production were brought about by adding to the number of farms and the amount of land under cultivation. During this period nearly 320m. acres of virgin forest were converted to crop land or pasture, and extensive areas of grass lands were ploughed. Improvident use of soil and water resources was evident in many areas.

During the next 20 years the number of farms reached a plateau of about 6.5m., and the acreage planted to crops held relatively stable around 330m. acres. The major source of increase in farm output arose from the substitution of power-driven machines for horses and mules. Greater emphasis was placed on development and improvement of land, and the need for conservation of basic agricultural resources was recognized. A successful conservation programme, highly co-ordinated and on a national scale—to prevent further erosion, to restore the native fertility of damaged land and to adjust land uses to production capabilities and needs—has been in operation since early in the 1930s.

Following the Second World War the uptrend in farm output has been greatly accelerated by increased production per acre and per farm animal. These increases are associated with a higher degree of mechanization; greater use of lime and fertilizer; improved varieties, including hybrid maize and grain sorghums; more effective control of insects and disease; improved strains of livestock and poultry; and wider use of good husbandry practices, such as nutritionally balanced feeds, use of superior sites and better housing. During this period land included in farms decreased slowly, crop land harvested declined somewhat more rapidly, but the number of farms declined sharply.

All land in farms totalled less than 500m. acres in 1870, rose to a peak of over 1,200m. acres in the 1950s and declined to 975m. acres in 1994, even with the addition of the new States of Alaska and Hawaii in 1960. The number of farms declined from 6.35m. in 1940 to 2.04m. in 1994, as the average size of farms doubled. The average size of farms in 1994 was 478 acres, but ranged from a few acres to many thousand acres. In 1992, 554,000 farms (595,000 in 1987) were less than 50 acres; 584,000 (645,000), 50–179 acres; 614,000 (678,000), 180–999 acres; and 173,000 (169,000) 1,000 acres or more.

Farms operated by owners in 1992 were 1,112,000; by part-owners, 597,000; by tenants, 217,000.

Value of land and buildings in 1994 was \$725,711m.

At the 1990 census 66,964,000 persons (22.5% of the population) were rural, of whom 4,591,000 (under 2%) lived on farms. In 1994 there were 1,453,000 farm operators and managers and 1,992,000 persons in other agricultural and related occupations, of which 748,000 were farm workers.

Cash receipts from farm marketings and government payments (in \$1m.):

1993	84,497	90,555	13,402	184,454

Gross farm income (including government payments), in \$1m., was 200,213 in 1992 and 201,431 in 1993; net farm income amounted to 50,074 in 1992 and 43,401 in 1993. Farm real estate debt, excluding debt in operator dwellings, was \$78,305m. in 1990, \$80,420 in 1991 and \$80,740m. in 1992.

Total area of farm land under irrigation in 1992 was 49,404,000 acres. Water consumption was 137,000m. gallons a day in 1990.

**Tennessee Valley Authority.** Established by Act of Congress, 1933, the TVA is a multiple-purpose federal agency which carries out its duties in an area embracing some 41,000 sq. miles in the 7 Tennessee River Valley states: Tennessee, Kentucky, Mississippi, Alabama, North Carolina, Georgia and Virginia. In addition, 76 counties outside the Valley are served by TVA power distributors. Its 3 directors are appointed by the President, with the consent of the Senate; headquarters are in Knoxville (TN). There were 16,587 employees in May 1995. Under a policy announced in Dec. 1994 the TVA is subject to a debt ceiling of \$30,000m., and is to stop adding to its total debt before Oct. 1997. Total debt in 1994 was \$26,000m.

The primary task of the TVA was the multipurpose development of the Tennessee River for flood control, navigation, and electric power production. In 1994 3 nuclear reactors were in operation.

The TVA has also contributed to controlling erosion on the land, introducing better fertilizers and new farming practices, eradicating malaria, demonstrating ways electricity could lighten the burdens in the home and increase production on the farm, and the creation of potential job-producing enterprises.

**INDUSTRY.** The following table presents industry statistics of manufactures as reported at various censuses from 1909 to 1987 and from the Annual Survey of Manufactures for years in which no census was taken.

The annual Surveys of Manufactures carry forward the key measures of manufacturing activity which are covered in detail by the Census of Manufactures. The large plants in the surveys account for approximately two-thirds of the total employment in operating manufacturing establishments in the US.

A total of 31 strikes and lockouts of 1,000 workers or more occurred in 1995, involving 192,000 workers and 5.8m. idle days; the number of idle days was 0.02% of the year's total working time of all workers.

The Federal Mediation and Conciliation Service, the National Labor Relations Board, the National Mediation Board and the National Railroad Adjustment Board provide formal machinery for the settlement of labour disputes.

In 1997 the federal hourly minimum wage of \$4.25 was raised for the first time since 1991, to \$5.15. 10m. workers were affected.

Labour relations are legally regulated by the National Labor Relations Act, amended by the Labor-Management Relations (Taft-Hartley) Act, 1947 as amended by the Labor-Management Reporting and Disclosure Act, 1959, again amended in 1974, and the Railway Labor Act of 1926, as amended in 1934 and 1936.

**Trade Unions.** The labour movement comprises 78 national and international labour organizations as well as a large number of small independent local or single-firm labour organizations. The American Federation of Labor and the Congress of Industrial Organizations merged into one organization, the AFL-CIO, in 1955, with 13m. members in 1995. Its *President* is John Sweeney, elected 1995.

Unaffiliated or independent labour organizations, inter-state in scope, had an estimated total membership excluding all foreign members (1993) of about 3m.

Labour organizations represented 16.7% (18.3m.) of wage and salary workers in 1995; A newly-developing 'associative unionism' is not based on the workplace, but provides representation for employees which is portable throughout their work history. 14.9% (16.4m.) were actual members of unions. 38% of employees in the public sector, and 10% in the private sector, were members of unions in 1995. Strongholds of organized labour are, industry-wise, iron and steel, railways, coal mining and car building; region-wise, East coast cities and the mid-West industrial belt.

**FOREIGN ECONOMIC RELATIONS.** The North American Free Trade Agreement (NAFTA) between the USA, Canada and Mexico was signed on 7 Oct. 1992 and came into effect on 1 Jan. 1994. The UK has had 'most-favoured-nation' status since 1815. In 1994, foreign investment totalled \$47,200m., including from UK, £19,000m.; Switzerland, \$5,700m.; Germany, \$3,600m.; Canada, \$3,600m.; Japan, \$2,000m.

**Tourism.** In 1993, 45,779,000 visitors travelled to the USA, of whom 16,900,459 were classified as tourists. Visitors spent US\$57,621m. (excluding transportation paid to US international carriers), and came mainly from Canada (17.29m.), Mexico (9.82m.) and Europe (8.63m.). Tourists came mainly from Europe (7.34m., of which UK 2.56m. and Germany 1.66m.), Japan (3.18m.), Mexico (1.26m.) and the Caribbean (0.88m.). ## COMMUNICATIONS

**Roads.** On 31 Dec. 1993 the total public road mileage (rural and urban), amounted to 3,904,721 miles, of which 3,554,235 miles were surfaced roads. The total mileage cited includes about 675,000 miles of rural roads under control of the states, about 2,247,000 miles of local rural roads, about 0.18m. miles of federal park and forest roads, and 803,078 miles of urban roads. Expenditure on highway administration and maintenance amounted to \$86,539m. in 1993, of which \$923m. were provided by the federal government. On 1 Jan. 1990, toll roads administered by state and local toll authorities, totalled 4,721 miles.

Motor vehicles registered in 1993: 194,063,000, including 146,314,000 automobiles, 654,000 buses, 41,075,000 trucks and 4,065,000 motorcycles. There were 177.43m licensed drivers in 1995 (87.2m. females). Inter-city trucks (private and for hire) averaged 735,000m. revenue net ton-miles in 1990. There were 43,900 deaths in road accidents in 1995.

**Railways.** Freight service is provided by 12 major independent railroad companies and several hundred smaller operators. Long-distance passenger trains are run by the National Railroad Passenger Corporation (Amtrak), which is federally-assisted. Amtrak was set up in 1971 to maintain a basic network of long-distance passenger trains, and is responsible for almost all non-commuter services over some 38,000 route-km, of which it owns only 1,256 km (555 km electrified). Outside the major conurbations, there are almost no regular passenger services other than those of Amtrak, which carried 20.7m passengers in 1995.

**Civil Aviation.** There are international airports at Anchorage, Atlanta (Hartsfield), Baltimore (Baltimore/Washington), Boston (Logan), Chicago (O'Hare), Cincinnati (Northern Kentucky), Cleveland (Hopkins), Dallas/Fort Worth, Denver (Stapleton), Detroit Metropolitan, Honolulu, Houston Intercontinental, Kansas City, MO, Las Vegas (McCarran), Los Angeles, Miami, Minneapolis/St Paul, New Orleans, New York (John F. The principal airlines (with numbers of aircraft in service) in 1993 were: Air Wisconsin (38), Alaska Airlines (70), Aloha Airlines (23), American Airlines (672), American Trans Air (23), America West Airlines (86), Continental Airlines (325), Delta Air Lines (554), Emery Worldwide (59), Evergreen (32), Federal Express (496), Hawaiian (30), Horizon Air Industries (56), Northwest Airlines (373), Southwest Airlines (141), Trans World (172), United Airlines (539), USAir (502), Westair (52).

Statistics from the Department of Transportation indicate that for 1992 US flag carriers in scheduled international service had 43.4m. enplanements with 764.6m. aircraft miles (excluding all-cargo) for a total of 130,578m. revenue passenger-miles. Non-scheduled services had a total of 12,212m. revenue passenger-miles internationally and domestically. Domestically, US scheduled airlines in 1992 had 429.9m. enplanements with a total of 3,671m. aircraft miles for 347,503m. revenue passenger-miles.

**Shipping.** On 1 Oct. 1995 the US merchant marine included 512 sea-going vessels of 1,000 gross tons or over, with an aggregate 18.8 DWT. This included 182 tankers of 11.1 DWT.

On 1 Oct. 1994, US merchant ocean-going vessels were employed as follows: Active, 345 of 15.2m. DWT, of which 132 of 4.7m. DWT were foreign trade, 129 of 7.3m. DWT in domestic trade and 24 of 1.8m. Regional private companies formed from the American Telephone and Telegraph Co. after its dissolution in 1995 ('Baby Bells') operates the telephone, telegraph, telex and electronic transmission services system at the national and local levels. Total domestic access lines in 1993, 147m. In 1996 there were 32.5m. mobile telephone users.

Legislation on the media and telecommunications of 1996 coming into force 31 March 1999 deregulates the market while preserving safeguards against over-concentration of individual ownership: a single company may not control a network reaching more than 35% of TV viewers, or produce a newspaper and a television service in the same market. Local companies are now permitted to operate long-distance telephone services and also cable TV services.

The licensing agency for broadcasting stations is the Federal Communications Commission, an independent federal body composed of 5 Commissioners appointed by the President. Its regulatory activities comprise: Allocation of spectrum space; consideration of applications to operate individual stations; and regulation of their operations. In 1994 there were 10,022 commercial radio stations, 1,145 commercial TV stations, 367 non-commercial TV stations and 11,230 cable TV systems. Programming is targeted to appeal to a given segment of the population or audience taste. There are 5 national TV networks (3 commercial; colour by NTSC) with 46 national cable networks. All major cities have network affiliates and additional commercial stations.

Broadcasting to countries abroad is conducted by The Voice of America, which functions under a 7-member council nominated by the President and reviewed by Congress. In 1996 Voice of America had 126m. listeners.

In 1993 there were 520m. radio and 215m. TV receivers in use.

## SOCIAL INSTITUTIONS

**Justice.** Legal controversies may be decided in two systems of courts: The federal courts, with jurisdiction confined to certain matters enumerated in Article III of the Constitution, and the state courts, with jurisdiction in all other proceedings. The federal courts have jurisdiction exclusive of the state courts in criminal prosecutions for the violation of federal statutes, in civil cases involving the government, in bankruptcy cases and in admiralty proceedings, and have jurisdiction concurrent with the state courts over suits between parties from different states, and certain suits involving questions of federal law.

The highest court is the Supreme Court of the US, which reviews cases from the lower federal courts and certain cases originating in state courts involving questions of federal law. It is the final arbiter of all questions involving federal statutes and the Constitution; and it has the power to invalidate any federal or state law or executive action which it finds repugnant to the Constitution. This court, consisting of 9 justices appointed by the President who receive salaries of \$164,100 a year (the Chief Justice, \$171,500), meets from Oct. until June every year. For the term ended June 1996 it disposed of 6,599 cases, deciding 169 on their merits. In the remainder of cases it either summarily affirms lower court decisions or declines to review. A few suits, usually brought by state governments, originate in the Supreme Court, but issues of fact are mostly referred to a master.

The US courts of appeals number 13 (in 11 circuits composed of 3 or more states and 1 circuit for the District of Columbia and 1 Court of Appeals for the Federal Circuit); the 179 circuit judges receive salaries of \$141,700 a year. Any party to a suit in a lower federal court usually has a right of appeal to one of these courts. In addition, there are direct appeals to these courts from many federal administrative agencies. In the year ending 30 June 1996, 52,982 appeals were filed in the courts of appeals, including 1,458 in the Federal Circuit.

The trial courts in the federal system are the US district courts, of which there are 89 in the 50 states, 1 in the District of Columbia and 1 each in the Commonwealth of Puerto Rico and the Territories of the Virgin Islands, Guam and the Northern Marianas. Each state has at least 1 US district court, and 3 states have 4 apiece. Each district court has from 1 to 28 judgeships. There are 649 US district judges (\$133,600 a year), who received 272,661 civil cases and 67,758 criminal defendants from 1 July 1995 to 30 June 1996.

In addition to these courts of general jurisdiction, there are special federal courts of limited jurisdiction. The US Court of Federal Claims (16 judges at \$133,600 a year) decides claims for money damages against the federal government in a wide variety of matters; the Court of International Trade (9 judges at \$133,600) determines controversies concerning the classification and valuation of imported merchandise.

The judges of all these courts are appointed by the President with the approval of the Senate; to assure their independence, they hold office during good behaviour and cannot have their salaries reduced. This does not apply to judges in the Territories, who hold their offices for a term of 10 years or to judges of the US Court of Federal Claims. The judges may retire with full pay at the age of 70 years if they have served a period of 10 years, or at 65 if they have 15 years of service, but they are subject to call for such judicial duties as they are willing to undertake. 11 US judges up to 1996 have been involved in impeachment proceedings, of whom 7 were convicted and removed from office.

In 1996, of the 272,661 civil cases filed in the district courts, 165,943 arose under various federal statutes (such as labour, social security, tax, patent, securities, antitrust and civil rights laws); 67,029 involved personal injury or property damage claims; 33,413 dealt with contracts; and 6,276 were actions concerning real property.

Among the 67,758 criminal defendants (47,079 criminal cases) filed in 1996 in the district courts, 23,909 persons were charged with alleged infractions of drug laws; 12,496 persons were charged with miscellaneous general offences; 11,995 with embezzlement and fraud; 4,335 for larceny and theft; 5,966 were charged with immigration violations; 1,534 with robbery; and 1,405 with forgery and counterfeiting and fraud.

Persons convicted of federal crimes may be fined, released on probation under the supervision of the probation officers of the federal courts, confined in prison, or confined in prison with a period of supervised release to follow, also under the supervision of probation officers of the federal courts. Federal prisoners are confined in 87 institutions incorporating various security levels that are operated by the Bureau of Prisons. Prisoners confined in Federal and State Prisons at June 1995, numbered 1,104,074 (6.1% women).

The state courts have jurisdiction over all civil and criminal cases arising under

state laws, but decisions of the state courts of last resort as to the validity of treaties or of laws of the US, or on other questions arising under the Constitution, are subject to review by the Supreme Court of the US. The state court systems are generally similar to the federal system, to the extent that they generally have a number of trial courts and intermediate appellate courts, and a single court of last resort. The highest court in each state is usually called the Supreme Court or Court of Appeals with a Chief Justice and Associate Justices, usually elected but sometimes appointed by the Governor with the advice and consent of the State Senate or other advisory body; they usually hold office for a term of years, but in some instances for life or during good behaviour. The lowest tribunals are usually those of Justices of the Peace; many towns and cities have municipal and police courts, with power to commit for trial in criminal matters and to determine misdemeanours for violation of the municipal ordinances; they frequently try civil cases involving limited amounts of damages.

There were no executions from 1968 to 1976. The US Supreme Court had held the death penalty, as applied in general criminal statutes, to contravene the eighth and fourteenth amendments of the US constitution, as a cruel and unusual punishment when used so irregularly and rarely as to destroy its deterrent value. The death penalty was reinstated by the Supreme Court in 1976, but has not been authorized in Alaska, the District of Columbia, Hawaii, Iowa, Kansas, Maine, Massachusetts, Michigan, Minnesota, North Dakota, Rhode Island, Vermont, West Virginia and Wisconsin.

**Education.** Elementary and secondary education is mainly a state responsibility. Each state and the District of Columbia has a system of free public schools, established by law, with courses covering 12 years plus kindergarten. There are 3 structural patterns in common use; the K8-4 plan, meaning kindergarten plus 8 elementary grades followed by 4 high school grades; the K6-3-3 plan, or kindergarten plus 6 elementary grades followed by a 3-year junior high school and a 3-year senior high school; and the K5-3-4 plan, kindergarten plus 5 elementary grades followed by a 3-year middle school and a 4-year high school. All plans lead to high-school graduation, usually at age 17 or 18. Vocational education is an integral part of secondary education. Some states also have 2-year colleges in which education is provided at a nominal cost. Each state has delegated a large degree of control of the educational programme to local school districts (numbering 14,772 in school year 1994-95), each with a board of education (usually 3 to 9 members) selected locally and serving mostly without pay. The school policies of the local school districts must be in accord with the laws and the regulations of their state Departments of Education. While regulations differ from one jurisdiction to another, in general it may be said that school attendance is compulsory from age 7 to 16.

'Charter schools' are legal entities outside the school boards administration. They retain the basics of public school education, but may offer unconventional curricula and hours of attendance. Founders may be parents, teachers, public bodies or commercial firms. Organization and conditions depend upon individual states' legislation. The first charter schools were set up in Minnesota in 1991.

The Census Bureau estimates that in Nov. 1979 only 1m. or 0.6% of the 170m. persons who were 14 years of age or older were unable to read and write; in 1930 the percentage was 4.8. In 1940 a new category was established—the 'functionally illiterate', meaning those who had completed fewer than 5 years of elementary schooling; for persons 25 years of age or over this percentage was 1.8 in March 1995 (for the Black population alone it was 2.5%); it was 1.0% for white and 0.2% for Blacks in the 25-29-year-old group. The Bureau reported that in March 1995 81.7% of all persons 25 years old and over had completed 4 years of high school or

more, and that 23% had completed 4 or more years of college. In the age group 25 to 29, 86.8% had completed 4 years of high school or more, and 24.7% had completed 4 or more years of college.

In the autumn of 1994, 14,279,000 students (7,907,000 women) were enrolled in 3,642 colleges and universities; 2,133,000 were first-time students. About 34% of the population between the ages of 18 and 24 were enrolled in colleges and universities.

Public elementary and secondary school revenue is supplied from the county and other local sources (47.8% in 1993-94), state sources (45.2%) and federal sources (7.1%). In 1995-96 expenditure for public elementary and secondary education totalled about \$294,000m., including \$262,000m. for current operating expenses, \$25,000m. for capital outlay and \$7,000m. for interest on school debt. The current expenditure per pupil in average daily attendance was \$6,210. The total cost per pupil, also including capital outlay and interest, amounted to about \$6,990. Estimated total expenditures, for private elementary and secondary schools in 1995-96 were about \$24,800m. In 1995-96 college and university spending totalled about \$211,200m., of which about \$132,700m. was spent by institutions under public control. The federal government contributed about 12% of total current-fund revenue; state governments, 23%; student tuition and fees, 28%; and all other sources, 37%.

Vocational education below college grade, including the training of teachers to conduct such education, has been federally aided since 1918. Federal support for vocational education in 1994-95 amounted to about \$1,014m. Many public high schools offer vocational courses in addition to their usual academic programmes.

Summary of statistics of regular schools (public and private), teachers and pupils for 1994-95 (compiled by the US National Center for Education Statistics):

<sup>1</sup> Schools with both elementary and secondary grades are counted twice, once with the elementary and once with the secondary schools. <sup>2</sup> Data for 1993-94.

Most of the private elementary and secondary schools are affiliated with religious denominations. In 1994-95 there were 7,055 Roman Catholic elementary schools with 1.88m. pupils and 117,600 teachers, and 1,238 secondary schools with 597,000 pupils and 46,600 teachers.

During the school year 1995-96 high-school graduates numbered about 2,588,000 (of whom about 2,321,000 were from public schools). Institutions of higher education conferred about 1,195,000 bachelor's degrees during the year 1995-96, 534,000 associate's degrees; 409,000 master's degrees; 43,000 doctorates; and 78,000 first professional degrees. In 1994-95 the federal government provided \$7,104m. in grants and work-study programmes and \$19,852m. in loans and other financial assistance to students.

During the academic year, 1994-95, 453,000 foreign students were enrolled in American colleges and universities. The countries with the largest numbers of students in American colleges were: Japan, 45,300; China, 39,400; Taiwan, 36,400; South Korea, 33,600; India, 33,500; Canada, 22,700.

School enrolment, Oct. 1994, embraced 96.7% of the children who were 5 and 6 years old; 99.3% of the children aged 7-13 years; 98.8% of those aged 14-15, 94.4% of those aged 16-17 and 60.2% of those aged 18-19.

The US National Center for Education Statistics estimates the total enrolment in the autumn of 1996 at all of the country's elementary, secondary and higher educational institutions (public and private) at 66.1m. (64.6m. in the autumn of 1995).

The number of teachers in regular public and private elementary and secondary schools in the autumn of 1996 was expected to increase slightly to 3,071,000. The average annual salary of the public school teachers was \$37,850 in 1995–96.

**Health.** Admission to the practice of medicine (for both doctors of medicine and doctors of osteopathic medicine) is controlled in each state by examining boards directly representing the profession and acting with authority conferred by state law. Although there are a number of variations, the usual time now required to complete training is 8 years beyond the secondary school with up to 3 or more years of additional graduate training. Certification as a specialist may require between 3 and 5 more years of graduate training plus experience in practice. In Jan. 1992 the estimated number of active physicians (MD and DO—in all forms of practice) in the USA, Puerto Rico and outlying US areas was 653,062.

Active dentists in Dec. 1988 numbered 146,800.

Number of hospitals listed by the American Hospital Association in 1995 was 6,291, with 1,080,601 beds and 33,282,124 admissions during the year; average daily census was 709,746. Of the total, 299 hospitals with 77,079 beds were operated by the federal government; 1,370 with 157,270 beds by state and local government; 3,029 with 609,729 beds by non-profit organizations (including church groups); 752 with 105,737 beds are investor-owned. The categories of non-federal hospitals are 5,220 short-term general and special hospitals with 874,286 beds; 112 non-federal long-term general and special hospitals with 18,765 beds; 657 psychiatric hospitals with 110,257 beds; 3 tuberculosis hospitals with 214 beds.

Personal health-care costs in 1994 totalled \$832,500m., distributed as follows: Hospital care, \$341,700m.; doctors, \$182,700m.; nursing-home care, \$74,200m.; drugs, \$79,000m.; dentists, \$40,000m.; medical durables, \$13,200m.; home health care, \$24,200m.; other personal health care, \$20,900m.

**Welfare.** Social welfare legislation was chiefly the province of the various states until the adoption of the Social Security Act of 14 Aug. 1935. This as amended provides for a federal system of old-age, survivors and disability insurance; health insurance for the aged and disabled; supplemental security income for the aged, blind and disabled; federal state unemployment insurance; and federal grants to states for public assistance (medical assistance for the aged and aid to families with dependent children generally and for maternal and child-health and child-welfare services). Legislation of Aug. 1996 began the transfer of aid administration back to the states, and also restricts the provision of aid to a maximum period of 5 years, and abolishes benefits to immigrants (both legal and illegal) for the first 5 years of their residence in the USA. The Social Security Administration (formerly part of the Department of Health and Human Services but an independent agency since March 1995) has responsibility for the programmes—old-age, survivors and disability insurance and supplemental security income. The Administration for Children and Families (ACF), an agency of the Department of Health and Human Services, is responsible for federal programmes which promote the economic and social well-being of families, children, individuals and communities. ACF has federal responsibility for the following programmes: The Aid to Families with Dependent Children Program (providing cash assistance to family and children in the 50 states, the District of Columbia, Guam, Puerto Rico and the Virgin Islands); low income energy assistance; Head Start; child care; child protective services; and a community services block grant. The ACF also has federal responsibility for social service programmes for children, youth, native Americans and persons with developmental disabilities.

The Administration of Aging (AOA), an agency of the Department of Health and Human Services, serves older persons and their families with social, nutritional, education, and aging-related research and demonstration projects through the administration of the Older Americans Act. In addition, AOA is the focal point for aging policy within the Federal government. The Assistant Secretary for Aging is the primary advocate for the elderly in the USA. In 1995–96, \$830m. was expended

through a network of 57 State Units on Aging, 661 Area Agencies on Aging, 228 tribal organizations, 6,000 senior centres, and more than 27,000 service providers. More than 250m. meals were also provided through this programme.

The Health Care Financing Administration, an agency of the Health and Human Services Department, has federal responsibility for health insurance for the aged and disabled. Unemployment insurance is the responsibility of the Department of Labor.

In 1994 an average of 14.2m. persons (adults and children) were receiving payments under Aid to Families with Dependent Children (average monthly payment, \$376 per family). Total payments under Aid to Families with Dependent Children were \$22,800m. in 1994. The role of Child Support Enforcement is to ensure that children are supported by their parents. Money collected is for children who live with only one parent because of divorce, separation or out-of-wedlock birth. In 1993, nearly \$9,000m. was collected on behalf of these children.

In 1994, federal appropriations for the social services block grant amounted to \$2,800m. In addition, 1994 federal appropriations for child care totalled \$893m. Included in this amount were \$109m. for persons with developmental disabilities and \$38.6m. for native Americans.

The Social Security Act provides for protection against the cost of medical care through Medicare, a two-part programme of health insurance for people age 65 and over, people of any age with permanent kidney failure, and for certain disabled people under age 65 who receive Social Security disability benefits. In 1995, payments totalling \$116,400m. were made under the hospital portion of Medicare on behalf of 37m. people. During the same period, \$65,000m. was paid under the voluntary medical insurance portion of Medicare on behalf of 36m. people.

In 1995, 141m. persons worked in employment covered by old-age, survivors and disability insurance.

In 1996 about 43.3m. beneficiaries were on the rolls, and the average benefit paid to a retired worker (not counting any benefits paid to his/her dependants) was about \$724 per month. Full retirement benefits are now payable at age 65, with reduced benefits available as early as age 62. Beginning in 2000, the age for full retirement benefits will gradually increase until it reaches 67 in 2027.

In Dec. 1995, 6.5m. persons were receiving Supplementary Security Income payments, including 1.4m. persons aged 65 or over and over 5.1m. disabled or blind persons, including nearly 1m. children. Payments, including supplemental amounts from various states, totalled \$27,600m. in 1995.

Other block grants awarded by the Administration for Children and Families included \$385.5m. for community services block grant programmes for 1993-94, and \$1,300m. for the low income home energy assistance programme (LIHEAP). During 1989, the Public Health Services awarded a total of \$554.3m. for maternal and child health services, \$465.3m. as block grants to the States, \$82.1m. for special projects of regional and national significance, and \$6.9m. for genetic screening. Other block grants awarded by the Public Health Service in 1988 included \$88m. for preventive health; \$487m. for alcohol, drug abuse and mental health; \$155m. for alcohol and drug abuse treatment and rehabilitation. In 1989, \$414.8m. was awarded for community health centres; \$45.6m. for migrant health centres; \$20.6m. for efforts to reduce infant mortality; \$3.2m. for black lung clinics; and \$135.1m. for family planning.

## ALASKA

**KEY HISTORICAL EVENTS.** Discovered in 1741 by Vitus Bering, its first settlement, on Kodiak Island, was in 1784. The area known as Russian America with its capital (1806) at Sitk was ruled by a Russo-American fur company and vaguely claimed as a Russian colony. Alaska was purchased by the United States from Russia under the treaty of 30 March 1867 for \$7.2m. It was not organized until 1884, when it became a 'district' governed by the code of the state of Oregon. By Act of Congress approved 24 Aug. 1912 Alaska became an incorporated Territory; its first legislature in 1913 granted votes to women, 7 years in advance of the Constitutional Amendment.

Alaska officially became the 49th state of the Union on 3 Jan. 1959.

**TERRITORY AND POPULATION.** Alaska is bounded north by the Beaufort Sea, west and south by the Pacific and east by Canada. The land area is 570,374 sq. miles (1,477,268 sq. km). In addition, certain federally administered lands reserved for conservation of fisheries and wild life have been transferred to the state. Special provision is made for federal control of land for defence in areas of high strategic importance.

The constitution of Alaska was adopted by public vote, 24 April 1956. The state legislature consists of a Senate of 20 members (elected for 4 years) and a House of Representatives of 40 members (elected for 2 years). The state sends 1 representative to Congress. **GOVERNMENT.** Local government, from 1 July 1878 until Aug. 1967, was that of a municipal corporation administered by a board of 3 commissioners, of whom 2 were appointed from civil life by the President, and confirmed by the Senate, for a term of 3 years each. The other commissioner was detailed by the President from the Engineer Corps of the Army. The Commission form of government was abolished in 1967 and a new Mayor Council instituted with officers appointed by the President with the advice and consent of the Senate. On 24 Dec. 1973 the appointed officers were replaced by an elected Mayor and councillors, with full legislative powers in local matters as from 1974. Congress retains the right to legislate, to veto or supersede the Council's acts. The 23rd amendment to the federal constitution (1961) conferred the right to vote in national elections. The District has 2 delegates in Congress who may vote in committees but not on the House floor. In the 1996 presidential election Clinton polled 152,031 votes; Dole, 16,637; Perot, 3,479.

**BUDGET.** The District's revenues are derived from a tax on real and personal property, sales taxes, taxes on corporations and companies, licences for conducting various businesses and from federal payments.

The District of Columbia has no bonded debt not covered by its accumulated sinking fund.

**INDUSTRY.** The District's main industries are government service; services; wholesale and retail trade; finance, real estate, insurance, communications, transport and utilities.

**TOURISM.** About 17m. visitors stay in the District every year and spend about \$1,000m.

**Railways.** There is a metro in Washington extending to 130 km, and 2 commuter rail networks.

**Civil Aviation.** The District is served by 3 general airports; across the Potomac River in Arlington, Va., is National Airport, in Chantilly, Va., is Dulles International Airport and in Maryland is Baltimore—Washington International Airport.

## SOCIAL INSTITUTIONS

**Justice.** The death penalty was declared unconstitutional in the District of Columbia on 14 Nov. 1973. In 1991 there were 10,095 prisoners in state correctional institutions.

The District's Court system is the Judicial Branch of the District of Columbia. It is the only completely unified court system in the United States, possibly because of the District's unique city-state jurisdiction. Until the District of Columbia Court Reform and Criminal Procedure Act of 1970, the judicial system was almost entirely in the hands of Federal Government. Since that time, the system has been similar in most respects to the autonomous systems of the states.

**Religion.** The largest churches are the Protestant and Roman Catholic Christian churches; there are also Jewish, Eastern Orthodox and Islamic congregations.

**Education.** In 1992 there were 80,092 pupils and 6,014 teachers in public secondary and elementary schools. State and local government expenditure on public schools, 1991, \$721,495,000. There are altogether 18 institutes of higher education.

**Social Security.** The District government provides primary health care for residents, mainly through its Department of Human Services. In 1983 there were 17 hospitals with 8,700 beds. ## HAWAII

**KEY HISTORICAL EVENTS.** The Hawaiian Islands, formerly known as the Sandwich Islands, were discovered by Capt. James Cook in Jan. 1778. During the greater part of the 19th century the islands formed an independent kingdom, but in 1893 the reigning Queen, Liliuokalani (died 11 Nov. 1917), was deposed and a provisional government formed; in 1894 a Republic was proclaimed, and in accordance with the request of the Legislature of the Republic, and a resolution of the US Congress of 6 July 1898 (signed 7 July by President McKinley), the islands were on 12 Aug. 1898 formally annexed to the US. On 14 June 1900 the islands were constituted as the Territory of Hawaii.

Statehood was granted to Hawaii on 18 March 1959, effective 21 Aug. 1959.

**TERRITORY AND POPULATION.** The Hawaiian Islands lie in the North Pacific Ocean, between 18° 56' and 28° 25' N. lat. and 154° 49' and 178° 22' W. long., about 2,090 nautical miles south-west of San Francisco. When the war between the US and Mexico was concluded on 2 Feb. 1848 New Mexico was recognized as belonging to the US, and on 9 Sept. 1850 it was made a Territory. Part of the Territory was assigned to Texas; later Utah was formed into a separate Territory; in 1861 another part was transferred to Colorado, and in 1863 Arizona was disjoined, leaving to New Mexico its present area. New Mexico became a state in Jan. 1912.

## NEW YORK STATE

**KEY HISTORICAL EVENTS.** From 1609 to 1664 the region now called New York was claimed by the Dutch; then it came under the rule of the English, who governed the country until the outbreak of the War of Independence. On 20 April 1777 New York adopted a constitution which transformed the colony into an independent state; on 26 July 1788 it ratified the constitution of the US, becoming one of the 13 original states. New York dropped its claim to Vermont after the latter was admitted to the Union in 1791. With the annexation of a small area from Massachusetts in 1853, New York assumed its present boundaries.

**TERRITORY AND POPULATION.** New York is bounded west and north by Canada with Lake Erie, Lake Ontario and the St Lawrence River forming the boundary; east by Vermont, Massachusetts and Connecticut, south-east by the Atlantic, south by New Jersey and Pennsylvania. At the end of 1993 there were 122,094 oil and gas wells in production. Value of leading non-fuel minerals produced in 1993 (in \$1m.): Crushed stone, 111; cement, 59; sand and gravel, 27;

iodine, 20; glass sand, 18; gypsum, 16. Other principal minerals are helium, clay and sand; other minerals include zinc, lead, granite, tripoli, bentonite, lime and volcanic ash. Total value of non-fuel mineral production, 1993, \$282m.

**Agriculture.** In 1994 the state had some 70,000 farms and ranches with a total area of 34m. acres; average size was 486 acres; average value per acre was \$494. Area harvested, 1992, 8,272,889 acres. Livestock, 1992: Cattle, 4,736,594; sheep and lambs, 103,732; hogs and pigs, 260,682.

The Oklahoma Conservation Commission works with 91 conservation districts, universities, state and federal government agencies. The early work of the conservation districts, beginning in 1937, was limited to flood and erosion control: since 1970, they include urban areas also.

Irrigated production has increased in the Oklahoma 'panhandle'. The Ogallala aquifer is the primary source of irrigation water there and in western Oklahoma, a finite source because of its isolation from major sources of recharge. Declining groundwater levels necessitate the most effective irrigation practices.

**Forestry.** There are 7.5m. acres of forest, one half considered commercial. The forest products industry is concentrated in the 18 eastern counties. There are 3 forest regions: Ozark (oak, hickory); Ouachita highlands (pine, oak); Cross-Timbers (post oak, black jack oak). Southern pine is the chief commercial species, at almost 80% of saw-timber harvested annually. Replanting is essential.

**INDUSTRY.** In 1994 there were 3,858 industrial firms: Major commodities produced include transportation equipment (accounting for 15.3% of manufactured goods), petroleum and coal products (14.1%), non-electrical machinery (12.2%), food products (9.7%), electronic and electrical equipment (9.2%).

**Labour.** Total labour force, May 1989, 1,513,600. Establishment employment, 1989, 1,139,000: Manufacturing (1993), 167,900; construction (1988), 32,000; mining (1993), 33,500. Average unemployment rate, 1989, 5.9%.

The island was captured by the Japanese on 10 Dec. 1941, and retaken by American forces from 21 July 1944. Guam is of great strategic importance; substantial numbers of naval and air force personnel occupy about one-third of the usable land.

**TERRITORY AND POPULATION.** Guam is the largest and most southern island of the Marianas Archipelago, in 13° 26' N. lat., 144° 43' E. long. Total area, 571 sq. miles (1,478 sq. km). The transfer conferred full citizenship on the Guamanians, who had previously been 'nationals' of the US. There was a referendum on status, 30 Jan. 1982. 38% of eligible voters voted; 48.5% of those favoured Commonwealth status.

The Governor and his staff constitute the executive arm of the government. The legislature is a 21-member *Senate*; its powers are similar to those of an American state legislature. At the general election of Nov. 1991, the Democratic Party won 14 seats and the Republicans 7. Guam returns 1 non-voting delegate to the House of Representatives.

On 14 July 1889 a treaty between the USA, Germany and Great Britain proclaimed the Samoan islands neutral territory, under a 4-power government consisting of the 3 treaty powers and the local native government. By the Tripartite Treaty of 7 Nov. 1899, ratified 19 Feb. 1900, Great Britain and Germany renounced in favour of the US all rights over the islands of the Samoan group east of 171° long. west of Greenwich, the islands to the west of that meridian being assigned to Germany (now the independent state of Western Samoa). The islands of Tutuila and Aunu'u were ceded to the US by their High Chiefs on 17 April 1900, and the islands of the Manu'a group on 16 July 1904. Congress accepted the islands under a Joint Resolution approved 20 Feb. 1929. Swain's Island, 210 miles north of the Samoan Islands, was annexed in 1925 and is administered as an integral part of American Samoa.

**TERRITORY AND POPULATION.** The islands (Tutuila, Aunu'u, Ta'u, Olosega, Ofu and Rose) are approximately 650 miles east-north-east of Fiji. The total area is 1,511 sq. km (583 sq. miles), of which 200 sq. km are dry land; population (1990 Census), 46,773, nearly all Polynesians or part-Polynesians, of whom 25,573 were born in American Samoa (urban, 15,599; female, 22,750); density, 607.4 per sq. mile; estimate (1994), 55,223. The island's 3 Districts are Eastern (population, 1980, 17,311), Western (13,227) and Manu'a (1,732). There is also Swain's Island, with an area of 1.9 sq. miles and 100 inhabitants (1994), which lies 210 miles to the north west. Rose Island (uninhabited) is 0.4 sq. mile in area. In 1990 some 85,000 American Samoans lived in the USA.

**CLIMATE.** A tropical maritime climate with a small annual range of temperature and plentiful rainfall. Pago-Pago. Jan. 83°F (28.3°C), July 80°F (26.7°C). Annual rainfall 194" (4,850 mm).

**CONSTITUTION AND GOVERNMENT.** American Samoa is constitutionally an unorganized unincorporated territory of the US administered under the Department of the Interior. Its indigenous inhabitants are US nationals and are classified locally as citizens of American Samoa with certain privileges under local laws not granted to non-indigenous persons. Polynesian customs (not inconsistent with US laws) are respected.

Fagatogo is the seat of the Government.

The islands are organized in 15 counties grouped in 3 districts; these counties and districts correspond to the traditional political units. On 25 Feb. 1948 a bicameral legislature was established, at the request of the Samoans, to have advisory legislative functions. With the adoption of the Constitution of 22 April 1960, and the revised Constitution of 1967, the legislature was vested with limited law-making authority. The lower house, or House of Representatives, is composed of 20 members elected by universal adult suffrage and 1 non-voting member for Swain's Island. The upper house, or Senate, is comprised of 18 members elected, in the traditional Samoan manner, in meetings of the chiefs. The Governor and Lieut.-Governor have been popularly elected since 1978.

*Lieut.-Governor:* Galeá I. Poumele.

## ECONOMY

**Policy.** The first formal Economic Development and Planning Office completed its first year in 1971. Much has been done to promote economic expansion within the Territory and a large amount of outside investment interest has been stimulated.

The Office initiated the first Territorial Comprehensive Plan. This plan when completed will, with periodic updating, provide a guideline to territorial development for 20 years. The planning programme was made possible under a Housing and Urban Development '701' grant programme, and Economic Development Administration '302' planning programmes.

The focus will be on physical development and the problems of a rapidly increasing population with severely limited labour resources.

**Budget.** The chief sources of revenue are annual federal grants from the US, and local revenues from taxes, and duties, and receipts from commercial operations (enterprise and special revenue funds), utilities, rents and leases and liquor sales. During the financial year 1983-84 the Government had a revenue of \$76.6m. including local appropriations of \$9.5m., federal appropriations of \$39.6m. and enterprise funds of \$17.5m.

**Banking.** The American Samoa branch of the Bank of Hawaii and the American Samoa Bank offer all commercial banking services. The Development Bank of American Samoa, government-owned, is concerned primarily through loans and guarantees with the economic advancement of the Territory.

## ENERGY AND NATURAL RESOURCES

**Electricity.** Net power generated (financial year 1981) was 72.2m. kWh., of which 23.1m. kWh. was supplied to large power users and 20.2m. kWh. to householders. All the Manu'a islands have electricity.

**Agriculture.** Of the 48,640 acres of land area, 11,000 acres are suitable for tropical crops; most commercial farms are in the Tafuna plains and west Tutuila. Principal crops are taro, bread-fruit, yams, bananas and coconuts. Production (1988 in 1,000 tonnes): Taro, 4; bananas, 1; fruit, 1; coconuts, 5.

## INDUSTRY AND TRADE

**Industry.** Fish canning is important, employing the second largest number of people (after government). Attempts are being made to provide a variety of light industries. Tuna fishing and local inshore fishing are both expanding. In 1990 there were 27,991 persons of employable age, of whom 14,198 were in the workforce. There were 726 unemployed.

## COMMONWEALTH OF PUERTO RICO

**KEY HISTORICAL EVENTS.** Puerto Rico, by the treaty of 10 Dec. 1898 (ratified 11 April 1899), was ceded by Spain to the USA. The name was changed from Porto Rico to Puerto Rico by an Act of Congress approved 17 May 1932. Its territorial constitution was determined by the 'Organic Act' of Congress (2 March 1917) known as the 'Jones Act', which ruled until 25 July 1952, when the present constitution of the Commonwealth of Puerto Rico was proclaimed.

**TERRITORY AND POPULATION.** Puerto Rico is the most easterly of the Greater Antilles and lies between the Dominican Republic and the US Virgin Islands. The total area is 13,791 sq. km (5,325 sq. miles), of which 8,875 sq. km are dry land; population, according to the census of 1990, of 3,522,037 (1,816,395 females), an increase of 10.2% over 1980; density, 1,027.9 per sq. mile. Urban population (1990) 2,508,346 (71.2%). Population estimate (1995), 3.72m.

**CONSTITUTION AND GOVERNMENT.** Puerto Rico has representative government, the franchise being restricted to citizens 18 years of age or over, residence (1 year) and such additional qualifications as may be prescribed by the Legislature of Puerto Rico, but no property qualification may be imposed. Puerto Ricans do not vote in the US presidential elections, though individuals living on the mainland are free to do so subject to the local electoral laws. The executive power resides in a Governor, elected directly by the people every 4 years. Seventeen heads of departments form the Governor's advisory council, also designated as his Council of Secretaries. The legislative functions are vested in a Senate, composed of 27 members and the House of Representatives, composed of 53 members. Both houses meet annually in Jan. Puerto Rico sends to Congress a Resident Commissioner to the US, elected by the people for a term of 4 years, but he has no vote in Congress. Puerto Rican men are subject to conscription in US services.

On 27 Nov. 1953 President Eisenhower sent a message to the General Assembly of the UN stating 'if at any time the Legislative Assembly of Puerto Rico adopts a resolution in favour of more complete or even absolute independence' he 'will immediately thereafter recommend to Congress that such independence be granted'.

For an account of the constitutional developments prior to 1952, *see* THE STATESMAN'S YEAR-BOOK, 1952, p. 742. The new constitution was drafted by a Puerto Rican Constituent Assembly and approved by the electorate at a referendum on 3 March 1952. It was then submitted to Congress, which struck out Section 20 of Article 11 covering the 'right to work' and the 'right to an adequate standard of living'; the remainder was passed and proclaimed by the Governor on 25 July 1952.

## VIRGIN ISLANDS OF THE UNITED STATES

**KEY HISTORICAL EVENTS.** The Virgin Islands of the United States, formerly known as the Danish West Indies, were named and claimed for Spain by Columbus in 1493. They were later settled by Dutch and English planters, invaded by France in the mid-17th century and abandoned by the French c. 1700, by which time Danish influence had been established. St Croix was held by the Knights of Malta between two periods of French rule.

They were purchased by the United States from Denmark for \$25m. in a treaty ratified by both nations and proclaimed 31 March 1917. Their value was wholly strategic, inasmuch as they commanded the Anegada Passage from the Atlantic Ocean to the Caribbean Sea and the approach to the Panama Canal. Although the inhabitants were made US citizens in 1927, the islands are, constitutionally, an 'unincorporated territory'.

**TERRITORY AND POPULATION.** The Virgin Islands group, lying about 40 miles due east of Puerto Rico, comprises the islands of St Thomas (31 sq. miles), St Croix (83 sq. miles), St John (20 sq. miles) and 65 small islets or cays, mostly uninhabited. The total area is 1,910 sq. km (738 sq. miles), of which 346 sq. km are dry land.

The population, according to the census of 1 April 1990, was 101,809, a decrease of 8,991 since 1985 (52,599 females); density, 760.9 per sq. mile. Population (1990 census) of St Croix, 50,139; St Thomas, 48,166; St John, 3,504. About 45% (1990) were native-born, 29% from other Caribbean islands, 13% from mainland USA and 5% from Puerto Rico. St Croix has over 40% of Puerto Rican origin or extraction, Spanish speaking. In 1988, live births were 2,216 and deaths, 501.

The capital and only city, Charlotte Amalie, on St Thomas, had a population (1990 census) of 12,331; there are two towns on St Croix. Christiansted (2,555) and Frederiksted (1,064).

**CLIMATE.** Average temperatures vary from 77°F to 82°F throughout the year; humidity is low. Average annual rainfall, about 45 inches. The islands lie in the hurricane belt; tropical storms with heavy rainfall can occur in late summer, but hurricanes rarely.

**CONSTITUTION AND GOVERNMENT.** The Organic Act of 22 July 1954 gives the US Department of the Interior full jurisdiction; some limited legislative powers are given to a single-chambered legislature, composed of 15 senators elected for 2 years representing the two legislative districts of St Croix and St Thomas-St John.

The Governor is elected by the residents. Since 1954 there have been four attempts to redraft the Constitution, to provide for greater autonomy. Each has been rejected by the electorate. The latest was defeated in a referendum in Nov. 1981, 50% of the electorate participating.

For administration, there are 14 executive departments, 13 of which are under commissioners and the other, the Department of Justice, under an Attorney-General. The US Department of the Interior appoints a Federal Comptroller of government revenue and expenditure.

The franchise is vested in residents who are citizens of the United States, 18 years of age or over. In 1986 there were 34,183 voters, of whom 26,377 participated in the local elections that year.

They do not participate in the US presidential election but they have a non-voting representative in Congress.

The capital is Charlotte Amalie, on St Thomas Island.

# VATICAN CITY STATE

Stato della Città del  
Vaticano

**KEY HISTORICAL EVENTS.** For many centuries the Popes bore temporal sway over a territory stretching across mid-Italy from sea to sea and comprising some 17,000 sq. miles, with a population finally of over 3m. In 1859–60 and 1870 the Papal States were incorporated into the Italian Kingdom. The consequent dispute between Italy and successive Popes was only settled on 11 Feb. 1929 by three treaties between the Italian Government and the Vatican: (1) A Political Treaty, which recognized the full and independent sovereignty of the Holy See in the city of the Vatican; (2) a Concordat, to regulate the condition of religion and of the Church in Italy; and (3) a Financial Convention, in accordance with which the Holy See received 750m. lire in cash and 1,000m. lire in Italian 5% state bonds. This sum was to be a definitive settlement of all the financial claims of the Holy See against Italy in consequence of the loss of its temporal power in 1870. The treaty and concordat were ratified on 7 June 1929. The treaty has been embodied in the Constitution of the Italian Republic of 1947. A revised Concordat between the Italian Republic and the Holy See was subsequently negotiated and signed in 1984, and came into force on 3 June 1985.

**TERRITORY AND POPULATION.** The area of the Vatican City is 44 ha (108.7 acres). It includes the Piazza di San Pietro (St Peter's Square), which is to remain normally open to the public and subject to the powers of the Italian police. It has its own railway station (for freight only), postal facilities, coins and radio. Twelve buildings in and outside Rome enjoy extra-territorial rights, including the Basilicas of St John Lateran, St Mary Major and St Paul without the Walls, the Pope's summer villa at Castel Gandolfo and a further Vatican radio station on Italian soil. *Radio Vaticana* broadcasts an extensive service in 34 languages from the transmitters in the Vatican City and in Italy.

The Vatican City has about 1,000 inhabitants.

**CONSTITUTION.** The Vatican City State is governed by a Commission appointed by the Pope. The reason for its existence is to provide an extra-territorial, independent base for the Holy See, the government of the Roman Catholic Church. The Pope exercises sovereignty and has absolute legislative, executive and judicial powers. The judicial power is delegated to a tribunal in the first instance, to the Sacred Roman Rota in appeal and to the Supreme Tribunal of the Signature in final appeal.

The Pope is elected by the College of Cardinals, meeting in secret conclave. The election is by scrutiny and requires a two-thirds majority.

**Supreme Pontiff:** **John Paul II** (Karol Wojtyła), born at Wadowice near Kraków, Poland, 18 May 1920. Archbishop of Kraków 1964–78, created Cardinal in 1967, elected Pope 16 Oct. 1978, inaugurated 22 Oct. 1978.

Pope John Paul II was the first non-Italian to be elected since Pope Adrian VI (a Dutchman) in 1522.

*Secretary of State:* Angelo Sodano.

*Secretary for Relations with Other States:* Jean-Louis Tauran.

**Flag:** Vertically yellow and white, with on the white the crossed keys and tiara of the Papacy.

**ROMAN CATHOLIC CHURCH.** The Roman Pontiff (in orders a Bishop, but in jurisdiction held to be by divine right the centre of all Catholic unity, and consequently Pastor and Teacher of all Christians) has for advisers and coadjutors the Sacred College of Cardinals, consisting in Nov. 1996 of 167 Cardinals

appointed by him from senior ecclesiastics who are either the bishops of important Sees or the heads of departments at the Holy See. In addition to the College of Cardinals, the Pope has created a 'Synod of Bishops'. This consists of the Patriarchs and certain Metropolitans of the Catholic Church of Oriental Rite, of elected representatives of the national episcopal conferences and religious orders of the world, of the Cardinals in charge of the Roman Congregations and of other persons nominated by the Pope. The Synod meets as and when decided by the Pope. The last Synod (on the formation of priests) met in Oct. 1990.

The central administration of the Roman Catholic Church is carried on by a number of permanent committees called Sacred Congregations, each composed of a number of Cardinals and diocesan bishops (both appointed for 5-year periods), with Consultors and Officials. Besides the Secretariat of State and the Second Section of the Secretariat of State (Section for Relations with States) there are now 9 Sacred Congregations, viz.: Doctrine, Oriental Churches, Bishops, the Sacraments and Divine Worship, Clergy, Religious, Catholic Education, Evangelization of the Peoples and Causes of the Saints. Pontifical Councils have replaced some of the previously designated Secretariats and Prefectures and now represent the Laity, Christian Unity, the Family, Justice and Peace, Cor Unum, Migrants, Health Care Workers, Interpretation of Legislative Texts, Inter-Religious Dialogue, Culture, Preserving the Patrimony of Art and History, and, a new Commission, for Latin America. There are also various Offices. The Pontifical Academy of Sciences was revived in 1936. The director of the Vatican Bank (Istituto per le Opere di Religione) is Giovanni Bodio.

Population: 163,000 (1994)  
GNP per capita: US\$970 (1994)

**KEY HISTORICAL EVENTS.** Western Samoa, a former German protectorate (1899–1914), was administered by New Zealand from 1920 to 1961, at first under a League of Nations Mandate and from 1946 under a UN Trusteeship Agreement. In May 1961 a plebiscite voted overwhelmingly in favour of independence on the basis of a Constitution which a Constitutional Convention had adopted in 1960. The UN terminated the trusteeship agreement as from 1 Jan. 1962, on which date Western Samoa became an independent sovereign state.

**TERRITORY AND POPULATION.** Western Samoa lies between 13° and 15° S. lat. and 171° and 173° W. long. It comprises the two large islands of Savai'i and Upolu, the small islands of Manono and Apolima, and several uninhabited islets lying off the coast. The total land area is 1,093 sq. miles (2,830.8 sq. km), of which 659.4 sq. miles (1,707.8 sq. km) are in Savai'i, and 431.5 sq. miles (1,117.6 sq. km) in Upolu; other islands, 2.1 sq. miles (5.4 sq. km). The islands are of volcanic origin, and the coasts are surrounded by coral reefs. Rugged mountain ranges form the core of both main islands. The large area laid waste by lava-flows in Savai'i is a primary cause of that island supporting less than one-third of the population of the islands despite its greater size than Upolu.

Population at the 1991 census, 161,298. The population at the 1986 census was 112,228 in Upolu (including Manono and Apolima) and 44,930 in Savai'i. The capital and chief port is Apia in Upolu (population 32,196 in 1986). Expectation of life was 66 years in 1989.

(Republic of Yemen)

*Capital:* Sana'a

*Population:* 15.8m. (1995)

*GNP per capita:* US\$280 (1994)

*HDI/world rank:* 0.366/142 (1993)

**KEY HISTORICAL EVENTS.** Following an agreement reached in Dec. 1989 on a constitution for a unified state, the (northern) Yemen Arab Republic and the (southern) People's Democratic Republic of Yemen were united as the Republic of Yemen on 22 May 1990.

In Aug. 1993 Vice-President Ali Salem Albidh withdrew to Aden and demanded the implementation of a reform programme as a condition of re-joining President Saleh in Sana'a. Albidh agreed to a modified reform programme at an agreement brokered by King Hussein of Jordan in Feb. 1994, but clashes between north and south escalated into

full civil war at the beginning of May. Southern officials announced their secession from Yemen on 21 May 1994. Aden was captured by northern forces on 7 June 1994. The former vice-president and prime minister went into exile abroad.

**TERRITORY AND POPULATION.** Yemen is bounded in the north by Saudi Arabia, east by Oman, south by the Gulf of Aden and west by the Red Sea. The territory includes 112 islands including Kamaran (181 sq. km) and Perim (300 sq. km) in the Red Sea and Socotra (3,500 sq. km) in the Gulf of Aden. The islands of Greater and Lesser Hanish is claimed by both Yemen and Eritrea. On 15 Dec. 1995 Eritrean troops occupied it, and Yemen retaliated with aerial bombardments. A ceasefire was agreed at presidential level on 17 Dec. On 20 Dec. the UN resolved to send a good offices mission to the area. In an agreement of 21 May 1996 brokered by France, Yemen and Eritrea renounced the use of force to settle the dispute and agreed to submit it to arbitration. The area is 555,000 sq. km excluding the desert Empty Quarter (Rub Al-Khali). A dispute with Saudi Arabia broke out in Dec. 1994 over some 1,500–2,000 km of undemarcated desert boundary. A memorandum of understanding signed on 26 Feb. 1995 reaffirmed the border agreement reached at Taif in 1934. An agreement of June 1995 completed the demarcation of the border with Oman.

The population was estimated at 15.8m. in 1995; density, 21 persons per sq. km. At the census of 1986 in the north and 1988 in the south the population was 9,664,939 (4,938,318 females; 1,793,861 urban). There were 1,168,199 citizens working abroad mainly in Saudi Arabia and the United Arab Emirates not included in the census total. Since 1990 Saudi Arabia has compulsorily repatriated almost all Yemeni workers. In 1988 there were 17 governorates:

	<i>1986/88 census population</i>		<i>1986/88 census population</i>

Savezna Republika  
Jugoslavija

(Federal Republic of  
Yugoslavia)

**KEY HISTORICAL EVENTS.** In 1917 the Yugoslav Committee in London drew up the Pact of Corfu, which proclaimed that all Yugoslavs would unite after the first world war to form a kingdom under the Serbian royal house. The Kingdom of Serbs, Croats and Slovenes was proclaimed on 1 Dec. 1918. In 1929 the name was changed to Yugoslavia. During the Second World War Tito's partisans set up a provisional government which was the basis of a Constituent Assembly after the war. On 29 Nov. 1945 Yugoslavia was proclaimed a republic.

Dissensions in Kosovo between Albanians and Serbs, and in parts of Croatia between Serbs and Croats brought inter-ethnic tensions into prominence after 1988. With the election of new national assemblies in all 6 republics during 1990, several of the latter came increasingly into conflict with the federal government. At the end of 1990 both Croatia and Slovenia proclaimed their right to secede from federal Yugoslavia. In May 1991, following escalating Serb-Croat violence and demands for secession from predominantly Serb-inhabited areas of Croatia, the federal army was given powers to restrict the movement of unofficial armed groups. On 12 May the Krajina area held a self-styled referendum resulting, it was claimed, in an overwhelming vote for union with Serbia. Croatia rejected the poll.

On 15 May 1991 Croatia's representative in the federal presidency, Stipe Mesić, failed to secure the 5 votes needed to become president in the annual election, hitherto a mere formality. Serbia, Kosovo and Vojvodina voted against and Montenegro abstained, leaving Yugoslavia without a head of state.

On 25 June Croatia and Slovenia made declarations of independence, agreeing on 30 June to an EU proposal to suspend them for 3 months. Fighting began during the summer in Croatia between Croatian forces and Serb irregulars from Serb-majority areas of Croatia. Federal forces had left Slovenia by July 1991. On 25 Sept. the UN Security Council imposed a mandatory arms embargo on Yugoslavia.

The 3-month moratorium agreed at the EU peace talks on 30 June having expired, both Slovenia and Croatia declared their complete independence from the Yugoslav federation on 8 Oct.

Trade sanctions on the whole of Yugoslavia were applied from 8 Nov., but restricted to Serbia after 2 weeks.

After 13 ceasefires had failed to be observed, a fourteenth was signed on 23 Nov. by the presidents of Croatia and Serbia and the federal defence minister, for the first time under UN auspices. Following a request on 26 Nov. from the federal government, a Security Council resolution of 27 Nov. proposed the deployment of a UN peace-keeping force if the ceasefire were kept. Fighting, however, continued.

On 15 Jan. 1992 the EU recognized Croatia and Slovenia as independent states. Bosnia-Herzegovina was recognized on 7 April 1992 and Macedonia on 8 April 1993. A UN delegation began monitoring the ceasefire on 17 Jan. and the UN Security Council on 21 Feb. voted unanimously to send a 14,000-strong peace-keeping force to Croatia and Yugoslavia.

On 27 April 1992 Serbia and Montenegro announced the formation of a federal republic of Yugoslavia constituted by themselves as the legal successor to the former Socialist Federal Republic of Yugoslavia (SFRY).

On the grounds of continuing Serbian military activities in Bosnia and Croatia on 30 May the UN Security Council voted the imposition of sanctions.

In mid-1992 WEU countries began to commit air, sea and eventually land forces to enforce sanctions and protect humanitarian relief operations in Bosnia.

At a joint UN-EC peace conference on Yugoslavia held in London on 26-27 Aug. some 30 countries and all the former republics of Yugoslavia endorsed a plan to end the fighting in Croatia and Bosnia, instal UN supervision of heavy weapons, recognize the borders of Bosnia-Herzegovina and return refugees. At a further conference at Geneva on 30 Sept. the Croatian and Yugoslav presidents agreed to make efforts to bring about a peaceful solution in Bosnia, but fighting continued.

On 22 Sept. the UN resolved (by 127 votes to 6 with 26 abstentions) that the self-proclaimed Federal Republic of Yugoslavia of Serbia and Montenegro could not automatically assume the seat of the former SFRY and excluded it from the General Assembly.

On 16 Nov. the UN Security Council voted for sanctions against Yugoslavia to be made more effective, and NATO and the WEU agreed to lend naval support to their enforcement.

Further peace talks were held in Geneva in Jan. 1993, and transferred to the UN in Feb. On 22 Feb. the UN Security Council resolved to set up a war crimes tribunal for alleged violations of human rights in the former SFRY. A court was inaugurated at The Hague on 17 Nov. 1993. The tribunal is funded subject to review, and in 1995 was merged into the International Penal Tribunal for Yugoslavia and Rwanda sitting at The Hague. The first sentence on a Yugoslav was awarded in Nov. 1996.

Following the Serbian President Milošević's announcement that Yugoslavia would no longer send supplies to Bosnian Serbs and would accept international monitors on its borders, on 24 Sept. 1994 the UN Security Council lifted the non-trade sanctions against Yugoslavia affecting civil aviation, culture and sport. Following the Bosnian-Croatian-Yugoslav (Dayton) agreement all remaining UN sanctions were lifted in Nov. 1995.

Massive public anti-government demonstrations took place in Nov.-Dec. 1996 following the government's annulment of municipal election results where opposition candidates had been elected. At the invitation of the Serbian President, Milošević, an OSCE delegation investigated the disputed results and found that opposition candidates should have won in 22 municipalities. As demonstrations and protests from various quarters continued throughout Jan. 1997, Milošević conceded opposition victories in at first some, then finally on 7 Feb., all, the disputed municipalities.

## MONTENEGRO

**KEY HISTORICAL EVENTS.** Montenegro emerged as a separate entity on the break-up of the Serbian Empire in 1355. It was never effectively subdued by Turkey. It was ruled by Bishop Princes until 1851, when a royal house was founded. The remains of King Nicholas I, who was deposed in 1918, were returned to Montenegro for reburial in Oct. 1989.

**TERRITORY AND POPULATION.** Montenegro is a mountainous region which opens to the Adriatic in the south-west. It is bounded in the west by Croatia, north-west by Bosnia-Herzegovina, in the north-east by Serbia and in the south-east by Albania. The capital is Podgorica (population, 1993 estimate, 135,000). Its area is 13,812, sq. km. Population at the 1991 census was 615,035, of which the predominating ethnic groups were Montenegrins (380,467), Moslems (89,614), Serbs (57,453) and Albanians (40,415). Population density per sq. km, 44.5. Estimate, 1995, 635,012; density, 46 per sq. km.

**KEY HISTORICAL EVENTS.** King Leopold II of the Belgians took the lead in exploring and exploiting the Congo Basin, and the Berlin Conference of 1884–85 recognized him as the sovereign head of the Congo Free State. In 1908 the country was annexed to Belgium as the Belgian Congo, until it became independent on 30 June 1960. The country's name was changed to Zaïre in 1971. For subsequent history to 1977 *see* THE STATESMAN'S YEAR-BOOK, 1980–81, p. 1613.

Following armed insurrection by Tutsi rebels in the province of Kivu, the government alleged pro-Tutsi intervention by the armies of Burundi and Rwanda and on 25 Oct. 1996 declared a state of emergency. Following attacks on camps for Rwandan refugees, several hundred thousand of the occupants sought safety in flight. By the beginning of Nov. the eastern Zaïrean town of Goma was in the hands of Rwandan and rebel forces.

While the UN was deliberating the formation of a multinational intervention force in mid-Nov., a large number of the refugees began to return to Rwanda. On 15 Nov. the UN Security Council unanimously adopted a resolution authorizing the expedition of a temporary 15,000-strong force (largely composed of British, Canadian, French, Senegalese and US troops and under Canadian command) to permit the delivery of humanitarian aid and the repatriation of refugees in eastern Zaïre. Because of the spontaneous improvement in the situation, however, the dispatch of the force was first delayed and then eventually cancelled on 14 Dec.

By Dec. the secessionist forces of Laurent-Désiré Kabila, the Alliance of Democratic Forces for the Liberation of Congo-Zaïre (ADFL), had begun to drive the regular Zaïrean army out of Kivu, and an attempt was made to establish a rebel administration, 'Democratic Congo'. By the middle of Feb. large parts of eastern Zaïre were under rebel control, and the government began to mount air attacks.

On 18 Feb. the UN Security Council unanimously adopted a resolution demanding: The immediate cessation of hostilities; the withdrawal of all foreign forces, including mercenaries; respect for the national sovereignty and territorial integration of Zaïre and neighbouring states; protection and safety of all refugees and displaced persons and the availability of humanitarian aid; a rapid and peaceful solution of the crisis by negotiation, the electoral process and the calling of an international conference on peace, security and development in the Great Lakes region. In the face of continuing rebel military successes and the disaffection of the army, the Government accepted the resolution on 5 March, and the Security Council asked the rebels to make a public declaration of their acceptance also. However, the latter continued in their victorious advance westwards, capturing Kisangani on 15 March 1997, and then launching an offensive against Lubumbashi.

Peace talks between the Government and ADFL opened in Pretoria on 6 April 1997.

The Government declared a state of emergency on 8 April. After capturing Lubumbashi, Kabila demanded President Mobutu's resignation.

**TERRITORY AND POPULATION.** Zaïre is bounded in the north by the Central African Republic, north-east by Sudan, east by Uganda, Rwanda, Burundi and Lake Tanganyika, south by Zambia, south-west by Angola and north-west by Congo. **KEY HISTORICAL EVENTS.** Southern Rhodesia, like Northern Rhodesia originally administered by the British South Africa Company, was annexed by the UK in 1923 as a self-governing colony. For the history of the period 1961–1979 including the period of unilateral declaration of independence see THE STATESMAN'S YEAR-BOOK, 1980–81, pp. 1623–25.

In 1979 a Constitutional Conference which was held in London and attended by the various factions in Zimbabwe-Rhodesia achieved 3 objectives: (i) the terms of the Constitution for an independent Zimbabwe; (ii) terms for a return to legality; and (iii) a ceasefire. The elections held in March 1980 resulted in a victory for the Zimbabwe African National Union-ZANU (PF). Southern Rhodesia became the Republic of Zimbabwe on 18 April 1980. The state of emergency in force since 1965 was lifted in July 1990. In June 1991 the ZANU (PF) renounced Marxism.

**TERRITORY AND POPULATION.** Zimbabwe is bounded in the north by Zambia, east by Mozambique, south by South Africa and west by Botswana and the Caprivi Strip of Namibia. The area is 150,872 sq. miles (390,759 sq. km). The population was (1992 census) 10,401,767 (51.2% female). Estimate, 1995, 11,536,000 (50.4% female); density, 29.5 per sq. km.
